FARMERS MUST PAY FULL INCOME TAX

Can't Deduct for Their Own Labor. Is Ruling of Agriculture Department.

Farmers subject to the income tax are not entitled to a deduction for their own labor, or for the expense of feeding their live stock.

This was the announcement of the Department of Agriculture today. If a farmer's gross income is more than \$2,000 a year, he is liable for a tax of 6 percent, or \$120, if he is married, or \$4,000 if he is single, he must make his return to the internal revenue collector of his district before next Monday.

For a man receiving a regular salary, or a business man with a good system of bookkeeping, it is easy to determine whether or not his income is taxable. But for the farmer who keeps no accurate account of receipts and expenditures, it is more difficult to calculate his net income.

In arriving at his net income the farmer should start with his gross income. This would consist especially of all receipts from the sale of products of every description from the farm, according to the department's ruling.

That would include all money received for produce and animals sold, and for the wool and hides of animals slaughtered, if the wool and hides are sold, but he may deduct from these items the amounts actually paid as purchase money for the animals and for the animals raised by the owner are sold or slaughtered, however, their value should not be deducted.

From the gross income there should be deducted amounts of money actually paid for property, and for the cost of producing the farm products, live stock, etc. This would include hired farm labor, farm supplies purchased, interest on money borrowed, and any other investment that represents principal, etc. Expenses for repairs on farm buildings, and for the cost of tools or machinery may also be deducted to the extent that the cost of the new would include all money received for produce and animals sold, and for the wool and hides of animals slaughtered, if the wool and hides are sold, but he may deduct from these items the amounts actually paid as purchase money for the animals and for the animals raised by the owner are sold or slaughtered, however, their value should not be deducted.

PLAN HOME TO CARE FOR FEEBLE MINDED

Committee Representing Social Service Organizations to Draw Bill for Project.

Plans for the establishment of an institution for the care of the feeble-minded of the District are under consideration by a committee representing a number of social service organizations. A bill for this purpose will be prepared to be submitted to the Commissioners for approval and later to Congress.

George S. Wilson, secretary of the Board of Charities and chairman of the committee on feeble-minded of the Monday Evening Club, is chairman of the committee. Miss A. M. Prescott, of the Board of Charities, is secretary. The chairman was authorized to appoint a committee to make a census of the feeble-minded of the District. Announcement was made by Mrs. Archibald Hopkins, of the woman's department of the National Federation, of a Rauscher's March 10, at 11 a. m., in the care of the feeble-minded, by Alexander Johnson, an official of the school for the feeble-minded at Vineland, N. J.

Among those at the committee meeting yesterday when the preparation of the bill was authorized were Mrs. Archibald Hopkins, Mrs. E. F. Bicknell, Mrs. John McLaughlin, Mrs. Susie Foot Rhodes, Miss Mabel A. Robey, Mrs. Walter S. Uford, representing the woman's department of the National Civic Federation; Miss Anna Bogart, Mrs. William Lincoln Brown, F. A. Fenning, Mrs. Adolph W. Kahn, Capt. Thomas H. McKee, Dr. Mary S. Wilson, of the committee on feeble-minded of the Monday Evening Club; Mrs. W. J. Myrth, Mrs. Giles S. Rafters, representing the Social Service Conference of the Episcopal Church, and Dr. A. J. McKelway, representing the Children's Council. The Rev. C. W. Skinner and Mrs. F. H. Larned also were present.

Various explanations were offered as to why two men in the entire city. Only 30 per cent of the registered voters voted. The total in the thirty-five wards was 47,557, as against a registration of 158,524.

Both women candidates for nomination who had opposition were defeated by a landslide vote. They were Marie Gerhardt, in the Twenty-third ward, and Miss Sara Hopkins, in the Second. Miss Marion Drake, in the First, and Mrs. Julia Agnew, in the Thirty-first, were nominated as Progressive candidates, having no opposition. Miss Drake will oppose "Bathhouse John" Coughlin.

Following the announcement of the result in her ward, Mrs. Gerhardt declared her conversion to the anti-suffrage cause, saying that woman suffrage was a bad thing for the country.

Pastor to Be Installed.

The Rev. Dr. John William Clark, Presbyterian Church of Detroit, Mich., will be formally installed as pastor of the Methodist Church of this city tonight.

Starvation Will Not Cure Dyspepsia

But a Stuart's Dyspepsia Tablet Will Enable You to Eat Your Meals Without Suffering After Doing So.

Every person knows that to live in a healthy, happy manner we must eat. Diet, starvation, protracted food, etc., are not the correct methods of eliminating digestion disorders.

Many dyspeptics know that they must eat so they go to their meals in a half-hearted manner. When they see food before them they are made miserably. Their judgments tell them to eat, but their stomachs revolt at the idea and so whatever food they consume does them more harm than good.

Reason EAT Stomach Cries DON'T

"If I Were Sure This Meal Would Not Injure Me I Would Eat for I Am Losing Weight Every Day."

In cases of dyspepsia, catarrh of the stomach, gastritis, heartburn, rash, foul breath, bowel complaint, stomach trouble, etc., a Stuart's Dyspepsia Tablet taken after each meal will do more good than anything you have ever tried.

You simply cannot realize how these little digestors put away a meal, without effort, pain or distress, and at the same time so build up the digestive apparatus as to make the next meal more easily taken care of.

To understand what Stuart's Dyspepsia Tablets are composed of is to realize that when they reach the stomach they dissolve into digestive juices just as desired by Nature. They hold ingredients which the healthy stomach is supplied with and the unhealthy stomach lacks.

These natural qualities have a great digestive influence upon all food. One grain of one ingredient contained in Stuart's Dyspepsia Tablets is sufficient to digest 3,000 grains of food.

When you have given this a single thought consideration you will then understand why it is that Stuart's Dyspepsia Tablets are the greatest stomach and dyspepsia remedy known today.

Thousands of stomach sufferers all over this country, who have been relieved of all kinds of digestive diseases are the influences which have made these tablets sold by druggists in every city, town and village in this country. Go to your druggist today and obtain a box. Price, 50 cents.—Adv't.

A Woman's Teeth—Her Beauty A WISE philosopher once said that a woman's crowning glory was her hair. That was several hundred years ago. Were he here today, he would realize that after all the hair was of secondary importance. A woman's greatest charm lies in her teeth. How often we see a woman of striking form and feature; beautiful hair, beautiful eyes, outwardly the perfection of womanhood, only to have the whole vision dispelled by the fact that she had unsightly teeth. Affections of the teeth arise from other causes than lack of care. They are often inherited. There is no doubt that the teeth of the average American are in a state of decadence. They need constant care. One's appearance demands that they have this attention. How important it is, especially to the fairer sex, that they have it. Think this over carefully. You certainly do not want to have your appearance marred by unsightly teeth. Decayed and missing teeth cause sunken cheeks, and from them also arise ills of the stomach which are the deadliest foes of a beautiful complexion. Modern dentistry has found the solution to these evils, and restores feminine beauty and attraction to the plane which it deserves. Modern dentistry has also discovered the means of eliminating pain from all dental operations. The strides by science in this direction in the last few years are positively remarkable. Even the most sensitive person can now have teeth attended to with the assurance that there will be absolutely no pain.
