

NEEDLEWORK GUILD MEETS HERE MAY 7

Organization Which Includes
Thousands of Members Aid
Various Charities.

The Needlework Guild of America, which will hold its annual meeting in this city at the Raleigh, May 7, has a membership of thousands, both men and women, with many distinguished names, among them Mrs. Woodrow Wilson, who is honorary president of the District of Columbia branch of the guild. Founded in 1893 by Mrs. John Wood Stewart, of Glen Ridge, N. J., the guild was patterned after the English Needlework Guild, of which the Queen Mother Alexandra, Queen Mary, and other members of the royal family are active members. All that is required of a member is the contribution each year of two or more new garments or articles of household linen, which are distributed at a stated time early in the winter to various charities and individuals.

This requirement resulted in 1912 in a distribution from the 271 branches of the national guild of 574,000 garments. The Needlework Guild is nonsectarian in its membership as in its choice of beneficiaries, and is affiliated with the General Federation of Women's Clubs and the American Red Cross.

Miss Mabel Boardman, of the American Red Cross Society, is a vice president of the District of Columbia branch of the Needlework Guild. The national officers of the guild include Mrs. Levi P. Morton, honorary president, and Mrs. Truman H. Newberry, of Detroit and Washington, president. Miss Boardman will call the meeting to order on May 7, introducing Mrs. Newberry, who will preside over the business meeting. A reception to the national officers will be held at 4 o'clock. All members and others interested in the work of the guild are invited to be present, both at the business meeting in the morning and at the reception.

The officers of the District of Columbia branch are: Honorary president, Mrs. Woodrow Wilson; president, Mrs. Henry Arnold Peckham; vice presidents, Mrs. Oscar Underwood, Miss Anna B. Abbott, Miss Mabel T. Boardman, Mrs. Ashton F. Haasen; treasurer, Mrs. G. Thomas Dunlop; secretary, Mrs. Richard B. Watrous; sections presidents, Miss Anna B. Abbott, Miss Frances Dodson, Mrs. G. GIVES SIDELIGHTS ON HISTORY OF KOREA

George Keenan Tells Geographic
Society of Nation's Lost
Civilization.

Sidelights on Korea, recounted by George Keenan before two audiences yesterday at the National Geographic Society meetings, showed the rise, fall, and hopes for the future of the Hermit Kingdom and its influence upon medieval Japanese civilization.

Korea, the society members were told, contributed practically all the medieval history possessed by the Japanese. Steel-clad battlehips were built by the Koreans 250 years before the famous Monitor and Merrimac, astronomical instruments were used by them from the twelfth and fifteenth centuries, while their explosive bombs were known long before they were used in Europe.

IF CHILD IS CROSS, FEVERISH AND SICK

Look, Mother! If tongue is coated give "California Syrup of Figs."

Children love this "fruit laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely.

A child simply will not stop playing to empty the bowels, and the result is they become tightly clogged with waste, liver gets sluggish, stomach sour, then your little one becomes cross, half-sick feverish, don't eat, sleep or act naturally breath is bad, system full of cold, has sore throat, stomach-ache or diarrhoea. Listen, mother. See if tongue is coated, then give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated waste, sour bile, and undigested food passes out of the system and you have a well, playful child again.

Millions of mothers give "California Syrup of Figs" because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels.

detailed as a pitiful disaster. Disease ravages, along with the influx of savage hordes, served to sink civilization lower and lower, while Japan, free from invaders, rose to a position powerful enough to defeat a world power. Intellectually, physically and morally, the Koreans sank to the depths of degeneracy. A broken spirit, the influence of Chinese religion, lapses in cultivation of mind and interests, slowly dragged down the nation, declared the speaker, and they became indifferent to dirt and disease.
