

SESSION BRINGS 600 RAILWAY SURGEONS

Problems of Safety and Sanitation Before the Two Conventions.

Railway surgeons, members of associations of the Baltimore and Ohio and the Southern railroads, met this morning in annual convention, the Baltimore and Ohio doctors at the Raleigh and the Southern doctors at the Willard.

More than 300 medical men were in attendance at each meeting. The Baltimore and Ohio surgeons were greeted by Commissioner Newman.

James S. Murray pointed to the various problems of sanitation and hygiene and the broad fields of activity yet untouched.

Dr. John Palmer introduced the speakers. E. R. Scoville spoke on the progress of safety devices. The Baltimore speakers were Dr. V. D. Lespinasse, of Chicago, who spoke on the "Direct Transfusion of Blood," Dr. Joseph C. Bloodgood, of Baltimore, who presented "The Cancer Problem and Surgery of the Colon," while Dr. Robert Somard talked on "Practical Points in the Transportation of the Injured."

The Southern convention was formally opened by Dr. A. R. Shands, of Washington, chairman of the committee on arrangements. The morning session was taken up by organization at the address of Dr. R. J. Noble, of Selma, N. C. President Fairfax Harrison will speak tomorrow. Other addresses include those by L. E. Jeffries, general attorney for the Southern, on "The Relation of the Medical to the Law Department," and Dr. Tom A. Williams, on "Occupation Neurosis."

Among the technical papers which will be read are these: "Railway Crushed Hand," Dr. W. H. Armstrong, of Nashville, Tenn.; "Amputation Treatment," Dr. J. Brian, Adickerson, Union City, Tenn.; "Emergency Surgery by Railroad Wrecks," Dr. H. T. Inge, Mobile, Ala.; "Gunshot Wounds of the Abdomen," Dr. L. L. Robertson, Middleboro, Ky. A symposium on "Fractures of the Wrist" will be participated in by six surgeons, these being Dr. W. P. Horton, North Wilkesboro, N. C.; Dr. T. J. Broderick, Nashville, Tenn.; Dr. J. Brothers, Union City, Ala.; H. W. Blair, Sheffield, Ala.; R. C. Smith, Newport, Tenn.; and S. E. Miller, Knoxville, Tenn.

On Saturday, the delegates will take luncheon at Marshall Hall.

BRITISH TROOPS BURY THEIR FOES OF 1798

Salute Remains of French Soldiers Unearthed at Mustapha Barracks in Cairo.

CAIRO, June 18.—A touching ceremony took place recently in Cairo. The remains of French soldiers, unearthed during building operations at the Mustapha barracks there, from the objects found alongside, among which were buttons bearing the words "Republique Francaise" and the numbers of regiments known to have participated in the French invasion of Egypt, these remains were identified as those of soldiers of Napoleon's army who fell at Sidi Gaber fighting British troops.

The British forces, which under the name of the Northampton, is now stationed at Mustapha. After a short interval, the British command, commanding the Northampton, handed over the skeletons of three soldiers and other remains to the British authorities. After a brief ceremony, the British consul general, headed by the land and a detachment of the Northampton and followed by a French and British consular staff and members of the French colony, the coffin was conveyed to Sidi Gaber. It was thence transported to Cairo by special train.

At Cairo the coffin was placed on a Royal Horse Artillery gun carriage drawn by six horses. Led by the band of the Worcesterhire Regiment, followed by detachments of all the British regiments and officers of the British diplomatic agent, his staff, representatives of the Egyptian government, and British and French consuls, the coffin was conveyed through the streets to the cemetery, where it was interred after patriotic speeches had been delivered.

The speakers emphasized the political struggle which enabled the great-grandfather of the present French republic to be instrumental in restoring and saluting the remains of the men whom their great-grandfathers had killed in action. Alexandria figured prominently in the military operations of Napoleon's Egyptian campaign in 1801. The French stormed the city in July, and it remained in their hands until the arrival of the British expedition in 1801. The battle of Alexandria was fought on March 21, between the French army under General Menou and the British force under Sir Ralph Abercromby, who fell at the moment of victory. The battlefield was near the ruins of Nicosia, the great eastern suburb of Alexandria founded by Augustus to commemorate his first victory over the successors of Antony.

Here on the narrow strip of land between the sea and Lake Aboukir, the advance of the British, who numbered about 10,000, was opposed by 20,000 French. The victory of the British infantry decided the day.

Divorce Suit Is Sequel To \$50,000 Balm Case

NEW YORK, June 18.—Dr. W. W. Armstrong, who was sued for \$50,000 for breach of promise by Miss Henrietta Hossfeld, show girl, was sued for divorce by Goodwin Armstrong, whom he married last July.

A HOP, STEP AND A---SPLASH?

JULY 4 HORSE SHOW WILL BE BIG EVENT

Fort Myer Troopers to Enter Seven Contents—Cash and Trophies Received.

Rapid progress is being made in the arrangements for the tournament and horse show, which promises to be one of the most interesting features of the Independence Day celebration.

The committee in charge has selected a course in Rock Creek Park, near the Brightwood reservoir.

Among the entries are troopers from Fort Myer, who will compete in seven of the events of the afternoon. Several of the events will be confined to the soldiers in the Cavalry.

Announcement was made today by the tournament committee of the following donations of prize moneys and trophies: Harry Wardman, \$20; L. L. Larrabee, \$25; Mathy Company, \$10; Ross Bros., \$10; Columbia Sand and Dredging Company, \$10; W. A. Pierce, \$5; George M. Barker, \$5; George Mullin, \$5; George C. Pumphrey, \$5; E. E. Dean, \$5; Floyd E. Davis, cup; D. J. Kaufman, cup, and S. N. Myer, trophy.

Numerous entries have been received for the hunter and polo ponies pony events, as well as for the workhorse race.

At least \$1,000 additional is needed to insure the success of the celebration, according to the tournament committee, chairman of the citizens' committee, Dr. George M. Barker.

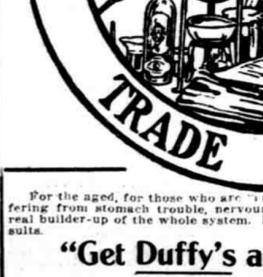

Subscriptions of \$1, 50 cents or 25 cents addressed to Edmund S. Wolfe, treasurer Independence Day committee, District National Bank, or to the committee's headquarters, room 563 District building, will be gratefully acknowledged.

Harts Gives Unpaid Furlough to Park Men

A number of men employed in caring for the parks have been laid off by the Superintendent of Public Buildings and Grounds, Col. William W. Harts, U. S. A., due to the lack of sufficient funds for their pay.

Work of improvement for which funds are provided is generally completed about May 1, and this leaves only sufficient money for the care of the parks during the ensuing two months.

About seventy men, including a foreman, have been laid off this year.

For the aged, for those who are "run down," for persons who are suffering from stomach trouble, nervousness or similar ailments who need a real builder-up of the whole system. Duffy's is certain to bring quick results.

Auction to Dispose of Misdirected Gifts

Two thousand toys and other Christmas presents to children which Santa Claus was unable to deliver because the packages were misdirected, will be sold at auction by C. G. Sloan & Co., 1407 G street northwest, beginning Wednesday, June 24.

The catalogue of dead letter mail to be auctioned lists hundreds of thousands of articles, from bloomers and ties to be worn with the 1914 model of summer gowns, to artificial teeth and glass eyes. It requires eighteen pages to catalogue the goods, and that after the goods have been assorted into 248 groups for the convenience of bidders who might wish to purchase heavily.

The Postoffice Department takes advantage of the large list of goods to be auctioned to caution the public against the hurried and careless preparation for mailing of merchandise.

FUTURIST CLOTHES MADE IN ONE PIECE

Round and Pointed Effects Will Destroy Symmetry in Coming Colored Garments.

LONDON, June 18.—After the futurist picture futurist clothes. A comfortable, unsymmetrical suit, made in one piece, with one button, so that it will be easy to put on and to throw off—this will be the futurist man's dress.

"We want to abolish," says Signor Marinetti, "the heavy black dress that has the appearance of mourning, and with it must go all neutral, pale and 'prettily-pretty' colors."

"There must be no symmetry, no so-called good taste and harmony of tone, and no stripes or straight lines. Man's dress must be useful to him to move about in, not something that irritates his nerves and enchains his muscles. The designs must suggest energy, impetuosity and movement. Cones, triangles, spirals and circles may be employed."

"Hygiene must be studied as well as simplicity and comfort and the dress should be too durable for it should be able to stand up to the wear and tear of a long life."

"The hat to be worn with the futurist dress should be soft, black, white or grey—or perhaps a straw, with patches of color—decorations—of bright colored material in place of the ribbon."

"The shirt should be of white silk or pointed on one side and round on the other. The pointed and round collars are also to be discarded in the futurist dress. Collars may be white or black, with white spots, but they must have only one button."

"The futurist dress should be made of a material that is easy to clean and that will stand up to the wear and tear of a long life."

DISTRICT CASH BILL MAY FAIL OF JULY 1

Conference Committee Still Has Measure Which Will Furnish Funds Supply.

Indications are that the District of Columbia appropriation bill for the fiscal year, which begins July 1, will not have been passed by Congress when that date arrives.

It is expected that a meeting of the conferees will be held early the coming week, but there is no indication of an early agreement to every clause.

On the face of it, the failure to pass the District bill by the beginning of the coming fiscal year would be extremely embarrassing to the District and would leave it stranded. Such, however, is the case, Senate authorities say that if the bill is not passed by July 1, a piece of emergency legislation will be passed which will authorize use of appropriations in the existing appropriation bill for the present fiscal year.

Then, when the bill is passed, the sums used by the District will be charged against it.

An Easy Way to Get Fat and Be Strong

The trouble with most thin folks who wish to gain weight is that they insist on drugging their stomach or stuffing it with greasy foods; rubbing on useless "flesh creams," or following some foolish physical culture stunt, while the real cause of thinness goes untouched.

You cannot get fat until your digestive tract assimilates the food you eat.

Thanks to a remarkable scientific discovery, it is now possible to combine into simple form the very elements needed by the greatest of flesh-builders. Sargol aims through its regenerative, reconstructive powers to coax the stomach and intestines to literally soak up the fattening elements of your food and pass them into the blood, where they are carried to every starved, broken-down cell and tissue of your body.

You can readily picture the results when this amazing transformation has taken place and you notice how your cheeks fill out, how abouts about your neck, shoulders and bust disappear, and you take on from 10 to 20 pounds of solid, healthy flesh.

Sargol is absolutely harmless, inexpensive, efficient, and the greatest of flesh-builders. Leading druggists of Washington and vicinity have it and will refund your money if you are not satisfied, as per the guarantee found in every package.

Caution—While Sargol has given excellent results in overcoming nervous dyspepsia and general stomach troubles, it should not be taken by those who do not wish to gain ten pounds or more.

Advt.

THE GREATER PALAIS ROYAL A. LISNER Daily Hours, 9 to 5:45 G STREET

Best 30c Mattings at 19c Yd.

\$6.98 for Roll of 40 Yards—On Fourth Floor With the Following
