## MILITIA TO BE RECOGNIZED ON SAME BASIS AS REGULAR ARMY

Secretary Garrison Announces  
Guards Will Be Taken Into  
Ranks Intact in Event of  
War.

Decision Expected to Smooth  
Out Formidable Opposition  
to the Reorganization Plan  
Among State Troops.

Secretary of War Garrison today  
announced that the national guard  
of the States and the District of  
Columbia will be accorded full  
recognition with the regular army  
in the Administration's plan for  
army reorganization to be pre-  
sented to Congress next month.

The policy announced by Sec-  
retary Garrison for the first time to-  
day means that in time of war the  
national guard officers and men  
will be taken into the regular army  
intact and accorded the same rank  
they now hold with the militia.

This decision is expected to  
smooth out the formidable oppo-  
sition which has been organized  
among State militias against the  
Garrison army reorganization plan.

### INDORSES PLAN.

Secretary Garrison's announcement  
follows a statement made by General  
Foster, chairman of the National Guard  
executive committee, endorsing the  
Continental army plan proposed by  
Garrison. General Foster said that the  
executive committee, which has been in  
session here with Secretary Garrison,  
will recommend the indorsement of the  
Continental army plan at a convention of the  
National Guard Association in San  
Francisco, November 9.

The plan of recognizing the National  
Guard provides that the organization  
may come over into the proposed Con-  
tinental army intact, or that any in-  
dividual soldier may join the Con-  
tinental army, retaining his name rank  
and grade.

Secretary Garrison also announced to-  
day for the first time that his army  
reorganization plan provides for dou-  
bling the financial aid now given the  
State troops by the Federal Govern-  
ment.

### Garrison's Statement.

Secretary Garrison's statement fol-  
lows: "During the last two days there  
has been a series of conferences here  
with a number of the leading representa-  
tives of the national guard of the country.  
Insofar as I participated in the confer-  
ences, they were entirely informal; that  
is, no committee or organization of the  
national guard was acting officially in-  
sofar as the conferences with me were  
concerned. Among these representa-  
tives were, I think, all of the mem-  
bers of the executive committee of the  
national guard, of which committee  
General Foster, of Florida, is chairman;  
and all excepting one of the members  
of the National Militia Board, of which  
General O'Ryan is chairman; besides  
from these were other men prominent  
among the national guard of the  
country.

"I laid before these gentlemen every-  
thing that would be useful for them to  
know concerning the plans for national  
army reorganization."  
(Continued on Fourth Page.)

## MOTORCYCLE SQUAD FACES CAMERA MAN

Picture Taken of Fifty in White  
Lot Will Go to General Har-  
vey as Exhibit.

With a view of demonstrating the  
number of men and kind of machines  
available for military service, the  
District Motorcyclists today, at  
Fort Myer, held a "white lot" today.  
A group photograph was taken. This  
will be presented to Gen. William  
Harvey, of the District militia, to  
show him what kind of men and  
machines can be placed in the mot-  
orcycle division of the local citizen-  
soldiers if such a division is formed.  
A. Sturgeon, who is working on  
plans for adding a motorcycle branch  
to the local militia, such as those  
which have done such effective work  
during the war, says the club here can  
furnish 150 men for service. It is un-  
derstood the men will furnish their  
own machines and uniforms and be  
placed in charge of a militia captain  
of the regular army.

After the photograph was taken to-  
day the fifty motorcyclists went on a  
sociality run to Baltimore.

## Leader in Suffrage Contest in New York

Photo by Underwood & Underwood.  
MRS. NORMAN WHITEHOUSE.

## SUFFRAGE FORCES FORESEE VICTORY

Leaders Optimistic as Cam-  
paign Comes to Whirlwind  
Close.

NEW YORK, Oct. 31.—Suffrage will  
count the fruits of its first great cam-  
paign in the East when the ballots are  
counted in New York, Pennsylvania,  
and Massachusetts next Tuesday night.

Though defeated in Jersey, if votes  
for women conquer in these three  
States in Tuesday's elections, the suf-  
frage forces predict their cause will sweep  
the country later State by State. If  
defeated, they intend to carry their  
campaign direct to Congress and ask  
for an amendment to the Federal Con-  
stitution enfranchising women.

Eight States to Vote.  
Eight States will ballot on different is-  
sues Tuesday. Some will elect State  
officers, but with the possible exception  
of Ohio, where a boys prohibition bill  
is on, the hottest campaigns have  
been the efforts of the women to con-  
vince the male voters of the three East-  
ern States.

New York suffragists closed their bat-  
tle last night, after two days of whirl-  
wind activity. At prominent street cor-  
ners downtown suffrage orators  
braved a cold wind to make their final  
appeals for votes.

Speaking in relays, they completed a  
twenty-six-hour drive at midnight. At  
10 o'clock Friday night yellow ribbons  
took up their stand for their final plea.  
They were entirely informal; that  
is, no committee or organization of the  
national guard was acting officially in-  
sofar as the conferences with me were  
concerned. Among these representa-  
tives were, I think, all of the mem-  
bers of the executive committee of the  
national guard, of which committee  
General Foster, of Florida, is chairman;  
and all excepting one of the members  
of the National Militia Board, of which  
General O'Ryan is chairman; besides  
from these were other men prominent  
among the national guard of the  
country.

"I laid before these gentlemen every-  
thing that would be useful for them to  
know concerning the plans for national  
army reorganization."

## SPECTACULAR RAIDS MADE IN NEW YORK

The Garden "Pinched" and  
Proprietor Released on Dis-  
orderly House Charge.

NEW YORK, Oct. 31.—A series of  
spectacular raids in the early hours  
of the morning today resulted in the  
arrest of a two-story house in the  
Hebrew street and four detec-  
tives, under the leadership of  
Sergeant Sullivan, who were playing  
poker in the parlour. The raid  
broke in on the doors and  
three of the men were  
arrested on charges of  
disorderly house.

A series of police busy  
on a two-story house in the  
Hebrew street and four detec-  
tives, under the leadership of  
Sergeant Sullivan, who were playing  
poker in the parlour. The raid  
broke in on the doors and  
three of the men were  
arrested on charges of  
disorderly house.

## MCKIM TAKES INSECTIDE GAS SHARP ISSUE IS BLAMED FOR WITH BISHOP DEATH OF GIRL

Sees Attempt to "Destroy  
Protestant Character of the  
Episcopal Church."

EMPHASIS MARKS SERMON

Denies Dominant Note of Pan-  
ama Conference Will Be  
Anti-Catholic.

Sharp issue was taken by the Rev.  
Raymond McKim with Bishop Hard-  
ing of Washington and the other  
bishops who resigned from the Epis-  
copal Board of Missions last week, in a  
sermon characterized by much empha-  
sis, in the pulpit of the Church of the  
Epiphany today.

Dr. McKim said he saw in the bitter  
opposition to the board's sending dele-  
gates to the Panama conference another  
attempt to "destroy the protestant  
character of the Episcopal church." He  
said he rejoiced over the decision  
of the board to send delegates to the  
conference, and that the resignations  
of Bishop Harding, Bishop Weller,  
Bishop Manning and two  
priests.

Says Church Should Know.  
The minister took his text from the  
fifth chapter of St. Luke: "He that is  
not against us is for us." He said  
that the church of the Epiphany, hav-  
ing contributed \$1,500 to the board of  
missions, was entitled to know of the  
acute differences at the recent meet-  
ing, and the explanation of the "ex-  
traordinary and unfortunate bitterness  
manifested there."

Dr. McKim said that a better under-  
standing of the circumstances leading  
up to the resignations could be reached  
if the congregation knew the purpose  
for which the Panama conference was  
organized. He briefly outlined the pur-  
poses of the conference, saying it was  
to discuss the "evangelical work in  
Latin-America and that all  
organizations engaged in similar work  
should be invited to participate."

Calls Argument "Amazing."  
"In view of this general invitation it  
is amazing to hear Bishop Weller and  
Bishop Manning say that the sending  
of delegates to the conference by the  
Episcopal church would be an insult  
to the Catholic church," said Dr. Mc-  
Kim. "It is also amazing to say that  
our delegates would be bound by the  
action of the conference, for the con-  
ference is not to draft legislation on  
ecumenical subjects, but will be en-  
gaged in purely missionary work."

"It is not true that the dominant  
note of the conference will be anti-  
Catholic, and that the Catholic dele-  
gates will be excluded, and proselyt-  
ing of Catholics is contemplated."  
"I think it wise, right and Christian  
that the board of missions send dele-  
gates to the conference."  
"The opposition to the sending of  
delegates to this conference by the  
Episcopal church is not a new en-  
terprise. While it is painful to re-  
call, the sending of delegates to mis-  
sions was not unanimous because  
some of those present completely  
misinterpreted the spirit of this con-  
ference."

"Bishop Weller seemed sensitive  
about the Catholic church and seemed  
to believe the sending of delegates to  
the conference by the Episcopal  
church would be an affront to the  
Catholic church. Does he forget that  
a cardinal in the Catholic church for-  
got that a Catholic paper said the  
Episcopal church was 'hypocritically  
masquerading in the  
garb of Christianity'?"

Cause of Dissension.  
"This dissension in the board of  
missions was simply the outcropping  
of that movement which has as its  
object the rejection of the history  
and the reformation. This is simply  
a continuation of the effort to de-  
stroy the protestant character of the  
Episcopal church. The issue is not  
between high and low church, but  
whether the principles of the Episco-  
pal church and the reformation shall  
be overthrown by this movement."

"I say this with sorrow  
in my heart."  
"Twenty years ago I warned you  
against this anti-protestant move-  
ment. Four years ago I called your attention  
to the plan to remove the word 'Pro-  
testant' from the name of our church,  
and I think that that movement was  
defeated. I may not be here many  
years to lift up my voice, but I stand  
before you today with a solemn sense  
of duty to warn you against those who  
would revolutionize the Episcopal  
church and destroy its protestant char-  
acter."

Rejoices Over Vote.  
Those who would destroy the protest-  
ant character of the Episcopal  
church have repudiated the reforma-  
tion, brought in the confessional, the  
doctrine of transubstantiation, the ven-  
eration of the Virgin, and the com-  
munion of saints, and I urge you, who  
twenty years ago honored me by call-  
ing me to the stand firm in the  
defense of our church. We are face  
to face with an irrepressible antagon-  
ism. In conclusion, I rejoice and I be-  
lieve this congregation rejoices with  
me in the fact that the board of mis-  
sions voted 28 to 13 or two to one to  
send delegates to the Panama confer-  
ence."

Bishop Harding, upon his return from  
New York, where the board of missions  
held its sessions, declined to discuss his  
reasons for withdrawing from the  
board. Bishop Weller said the confer-  
ence was a "disaster" and that  
which the Episcopal church should not  
be affiliated.

Mother of President's Fiancee  
Among Those Aroused in  
Apartment House.

ORDER ISSUED BY CORONER

Miss Louise Roberts Found  
Poisoned to Death in Bed.  
Inquest Tomorrow.

Hydrocyanic gas escaping from a  
basement room in the Cordova apart-  
ment, where it was being used as an  
insecticide, is believed by Coroner J.  
Ramsey Nevitt to be responsible for  
the death of Miss Louise Roberts, twen-  
ty-three years old, and on his orders  
more than 100 other occupants of the  
apartment house, including Mrs. S. W.  
Holling, mother of President Wilson's  
fiancee, and her son, J. Randolph  
Holling, were aroused from their beds  
at 2 o'clock this morning.

Coroner J. Ramsey Nevitt was called  
immediately after the death of Miss  
Roberts and ordered all persons in the  
building to be roused, in order to make  
certain that the fatal gas had not  
reached any other persons. Employees  
of the building went from door to door  
awakening every one, but no one was  
aroused except those who entered the  
Haldwin apartment.

Gas Affects Doctor.  
These latter included Dr. Ira W. Den-  
nison, who was called by Mrs. Haldwin  
and who was made sick by the gas be-  
fore he discovered his danger. Mrs. C.  
S. Houston, who lives in the Cordova,  
also entered the room and was com-  
pelled to retreat by the gas. Dr. J. C.  
Howard, of 125 H street, was called and  
was nearly asphyxiated by the gas.

An inquest over the body of Miss  
Roberts will be held at the District  
inquest tomorrow afternoon at 2:30  
o'clock. Dr. Nevitt has asked the police  
to remove the body of Miss Roberts  
from the apartment in which the gas was  
generated, and away from the body of  
the girl, to fix the responsibility for her  
death.

It was not until after Miss Roberts' death  
and the arrival of Dr. Nevitt that the  
source of the gas was discovered, and  
this, he says, accounts for the number  
which were affected, as they did not  
know what was affecting them.

Is Almost Odorless.  
The hydrocyanic acid gas, much like  
the deadly carbon monoxide gas, is  
almost odorless, and is easier to taste  
than to smell, tasting much like the  
kernel of a peach. The gas was gen-  
erated in the kitchen, but it was in the  
servants' quarters and extra precau-  
tions were taken to seal the doors and  
windows of the kitchen.

Miss Roberts and Mrs. Haldwin were  
sleeping in adjoining rooms and shortly  
after retiring the former complained of  
being sick. When she arose to go to  
the bathroom she was met by Dr. Den-  
nison and by the time he arrived Mrs. Hal-  
dwin was also very ill. He administered  
antidotes and Dr. Howard was called,  
but Miss Roberts grew steadily worse  
until her death.

The method used in generating the  
gas was to put a large earthenware  
crock with water, put in a specified  
amount of sulphuric acid and then add  
the cyanide of potassium. This method  
is recommended by the depart-  
ment of agriculture for exterminating  
insects, but the department has advised  
extreme precautions as the gas so gen-  
erated is very deadly.

## FINDS DYNAMITE AS FIRE DRAWS NEAR

NEW YORK, Oct. 31.—An attempt  
was made today to blow up the  
home of Jacob C. Vreeland, chief in-  
spector of the Bronx bridge depart-  
ment, at 291 East 129th street.

A stick of 90 per cent dynamite was  
found in the vestibule of the house, a  
three-story frame dwelling. The fuse  
had been cut and the dynamite was  
burning. Vreeland was at a  
meeting last night his wife and son  
heard an automobile stop in front of  
the house, she sent her son to investi-  
gate and he returned with the dynamite.

## Mother of Seventeen Sues for a Divorce

MILWAUKEE, Oct. 31.—After a hap-  
py voyage of thirty-one years in the  
land of matrimony, during which seven-  
teen children were born to her, Mrs.  
Anna Boerner seeks separation from  
August Boerner, sweater manufacturer.

Boerner's complaint chronicles  
the story of a lost love which she  
ascribes to another woman.

## Head of German Navy Reported in Disgrace

AMSTERDAM, Oct. 31.—The  
Kaiser has disgraced Admiral  
van Tirpitz, head of the Ger-  
man navy, and credited him  
with responsibility for Ger-  
man methods of submarine  
warfare, according to the  
newspaper Maasbode.

## POWERFUL AID FOR SERBIANS IS PROMISED

Roumania Reported to Have  
Agreed to Let Russians  
Cross Her Soil.

GREECE NEARLY WON OVER

Recapture of Veles by Bulgars  
Confirmed—British Troops  
Join Serbs.

LONDON, Oct. 31.—German, Austrian  
and Bulgarian invaders gaining  
more ground in Serbia, but there is  
promise that powerful help for the  
Serbs is near at hand.

Roumania is reported to have agreed  
to let Russian troops cross her soil to  
strike the Austro-Germans, left flank and  
invasion from the north. The  
Serbs are hopeful that the Roumanians  
will take an active part in the struggle,  
too, by sallying into Transylvania  
against the Austrians.

For her services, it is said Russia  
will cede Bessarabia to Roumania.  
Russian troops are also on their  
way from Odessa and Beograd to  
make a landing on the Bulgarian Black  
Sea coast, but this fleet has been at-  
tacked by Turkish warships and the  
fleet's outcome is unknown.

Accounts here are that Greece, as well  
as Roumania, has been nearly won over  
to the allies, and will help Serbia  
against Bulgaria.

Bulgars Recapture Veles.  
Greece cannot remain neutral much  
longer, in view of the vital Greek in-  
terests threatened by the Germanic al-  
lies, says a message from Athens. The  
arrival in time of enough of the enter-  
prise powers' troops, it is stated, will clear  
the situation. The message denies re-  
ports of a possible dissolution of the  
Greek parliament.

Recapture by the Bulgarians of Veles,  
Serbia, is confirmed. The allies are re-  
ported concentrating at strategic points  
to relieve the Serbs. Veles, also called  
Koupril, has been reported alternately  
in Bulgarian and Serbian hands for  
several days. It is an important Ser-  
bian town on the Nish-Saloniki railroad,  
Serbia, is confirmed. The allies are re-  
ported concentrating at strategic points  
to relieve the Serbs. Veles, also called  
Koupril, has been reported alternately  
in Bulgarian and Serbian hands for  
several days. It is an important Ser-  
bian town on the Nish-Saloniki railroad,  
Serbia, is confirmed. The allies are re-  
ported concentrating at strategic points  
to relieve the Serbs. Veles, also called
