

"UNCLE JOE" PLEADS TO SUPPORT NATION

Makes Patriotic Speech in "Come Back" Role at National Press Club.

"Uncle Joe" Cannon, "Nick" Longworth, William B. McKinley, Ebenezer Hill and W. A. Rodenberg last night explained to members of the National Press Club why and how they happened to "come back" to Congress, and Charles Curtis enlightened the newspaper men and their guests on the manner in which he persuaded the voters of Kansas to break a long established custom and return a man to the United States Senate.

Mr. Longworth attributed his return to favor to the fact that the "stamp of professional non-in-law" has worn off; Mr. Hill did not really want to "come back," but acquiesced on the invitation of "Democratic newspapers, a tender of nomination by the Bull Moose party and the insistence of Republicans, while Mr. McKinley confessed that he had succeeded in rebuilding the "first, second and third line of defense in his district which were demolished three years ago by the 12-centimeters of Kaiser Teddy."

Stirs His Audience. "Uncle Joe" indulged in reminiscences, explaining how he acquired an unfounded reputation as a story teller and for a too profuse indulgence in profanity. He stressed his remarks with a reference to the critical international situation now confronting the United States. He declared that the situation was such that the President and each member of the House and Senate should cast aside party bias and placing his hand over his heart, stand only that which he sincerely believed to be the right.

Missed U. S. Check. Mr. Rodenberg frankly acknowledged that the saddest day of his life was that April 4 on which he failed to receive a pay check as a member of Congress, and declared that he did not feel that he was making any sacrifice in bowing to the will of the people and returning to a seat in the House. Senator Curtis declared that he won because he stood for principles that meant something to the people of Kansas.

Gus J. Karger, as "manipulator of the sponge," introduced the speakers, and the Press Club Mandolin Club contributed a musical program.

DETECTIVE TALE IS ALL-STORY FEATURE

Frank Forest Weaves Romance Into Interesting Narrative.

"The Maelstrom," a story picturing the profession of the detective and weaving with the portrayal of a pretty love story, is the feature of this week's issue of the All-Story Weekly, which is to be found on newsstands today. Frank Forest, the author, has written several detective stories that have taken quite a new line in this class of work. As the superintendent of New Scotland Yard, the highest post in the English detective service, he pitted his wits against the keenest criminals in all parts of the world. Robert E. Pinkerton, in his charming novelette, "Lara of the Northland," will introduce a people who, while conversing on Shakespeare and Bacon, of Moliere and Rousseau, and evincing other signs of high culture, have never heard of wireless telegraphy or the graphophone, and look incredulous when you speak to them of aeroplanes or motor cars. The scene lies in the country west of Hudson Bay. "The Gift of Power," by E. K. Means; "Wild Lotus," by Elliot Balestier; and "The Spiced Queen," by Raymond S. Spears, are among other entertaining contributions submitted to the readers of All-Story.

The public schools committee of the Board of Trade will ask that organization at its next meeting to appeal to Congress for an increase of \$35,000 in the appropriation next year for night schools in the District. A resolution to this effect was adopted at a meeting of the schools committee late yesterday. The committee turned down a proposal of William McK. Clayton that Congress be asked to permit the residents of the District to elect the members of the school board.

SAVE YOUR HAIR!

25 CENT BOTTLE STOPS DANDRUFF

Every bit of dandruff disappears and hair stops coming out.

Try this! Your hair appears glossy, abundant, wavy and beautiful.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scourge. There is nothing so destructive to the hair as dandruff. It robs the hair of its luster, its strength and its very life; eventually producing a feverishness and itching of the scalp which if not remedied causes the hair roots to shrink, loosen, and die—then the hair falls out fast. A little Danderrine tonight—now—any time—will surely save your hair. Get a 25-cent bottle of Knowlton's Danderrine from any drug store or toilet counter, and after the first application your hair will take on that life, luster, and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance, an incomparable gloss and softness; but what will please you most will be after just a few weeks' use, when you will actually see lot of fine, downy hair—new hair—growing all over the scalp. Danderrine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating and life-producing properties cause the hair to grow long, strong and beautiful.—Adv't.

SEAMEN'S ACT IS IN EFFECT TOMORROW

Foreign Vessels Must Conform to U. S. Laws Before Gaining Clearance.

Provisions of the La Follette seamen's act, applying to foreign vessels entering American ports, become effective tomorrow.

One of its effects, in the opinion of its author, will be to raise wages for seamen the world over. It will, it is declared, place foreign ships on the same footing as American ships as respects personnel of crew, rights of individual seamen, and safety appliances.

The over of the United States to refuse clearance papers to such vessels as do not conform to the requirements of the law is ordered invoked by the terms of the act. Enforcement is in the hands of the Department of Commerce. Beginning tomorrow, foreign as well as American vessels, must live up to these requirements: No more passengers shall be carried than can be accommodated by the life-

boats and lifeboats. Seventy-five per cent of the crew must be able to understand the orders of the officers. Forty per cent must be able seamen—at least nineteen years old, and with three years' experience, except as they are qualified by special examination conducted by the Department of Commerce.

A sailor may leave his ship in port at will, and the provision of treaties and other international agreements that officers of the United States must aid in searching for him as a deserter and returning him to his vessel is repealed. He can collect, however, but a fractional part of his wages if he quits this way.

Senator La Follette believes that the law will not only increase wages, but will remove the high labor cost handicap of American ship owners. For instance, sailors shipped at Liverpool on entering American ports, become effective tomorrow. In quitting the ship in New York and refusing to re-ship except at the higher rate of American wages. Already, he says, the Seaman's Union is spreading this information among its men, and ship owners are considering methods of combating it.

The seamen's law went into effect for American ships on November 4, last.

Iron Is Greatest of All Strength Builders, Says Doctor

A Secret of the Great Endurance and Power of Athletes

Ordinary Nuxated Iron Will Make Delicate, Nervous, Run-down People 200 Per Cent Stronger in Two Weeks' Time in Many Cases. NEW YORK, N. Y.—Most people foolishly seem to think they are going to get renewed health and strength from some stimulating medicine, secret nostrum or narcotic drug, said Dr. Sauer, a specialist of this city, when as a matter of fact, real and true strength can only come from the food you eat. But people often fail to get the strength out of their food because they haven't enough iron in their blood to enable it to change food into living matter. From their weakened, nervous condition they know something is wrong, but they can't tell what, so they generally commence doctoring for stomach, liver or kidney trouble or symptoms of some other ailment caused by the lack of iron in the blood. This thing may go on for years, while the patient suffers untold agony. If you are not strong or well, you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next, take two five-grain tablets of ordinary nuxated iron three times, then rest your strength again and see for yourself how much you have gained. I have seen dozens of nervous, run-down people who were ailing all the while, double their strength and endurance and entirely get rid of all symptoms of dyspepsia, liver and other trouble in

from ten to fourteen days' time simply by taking iron in the proper form. And this after they had in some cases been doctoring for months without obtaining any benefit. But don't take the old forms of reduced iron, iron acetate or tincture of iron simply to save a few cents. You must take iron in a form that can be easily absorbed and assimilated like nuxated iron if you want it to do you any good, otherwise it may prove worse than useless. Many an athlete or prize-fighter has won the day simply because he knew the secret of great strength and endurance and filled his blood with iron before he went into the fray, while many another has gone down to inglorious defeat simply for the lack of iron. NOTE—Nuxated Iron recommended above by Dr. Sauer is not a patent medicine nor secret remedy, but one which is well known to druggists and whom iron constituents is widely prescribed by eminent physicians everywhere. Unlike the other inorganic iron products, it is easily assimilated, does not injure the teeth, make them black, nor upset the stomach; on the contrary, it is a most potent remedy in nearly all forms of indigestion, as well as for nervous, run-down conditions. The manufacturers have such great confidence in Nuxated Iron that they offer to forfeit \$100.00 to any charitable institution if they cannot take any man or woman under 60 who lacks iron and increase their strength 200 per cent or over in four weeks' time provided they have no serious organic trouble. They also offer to refund your money if it does not at least double your strength and endurance in ten days' time. It is dispensed in this city by Jas. O'Donnell's Drug Store, and all other druggists.—Adv't.
