

BETTERS REST BUT ODDS ON HUGHES HOLD

Republican Nominee 10 to 8 Favorite on Result in New York State.

EVEN MONEY ON OHIO VOTE

Whitman Is One to Two Choice. Numerous Other Side Wagers Are Made.

NEW YORK, Oct. 29.—This was a dull day in election betting, most of those holding money to be placed preferring to wait until over Sunday in the hope that news of advantage might come and so swing the odds.

Hughes continues to be the favorite at odds of 10 to 9 and 10 to 8, with little money placed. Edward McQuade, a curb commissioner, offered \$5,000 on Hughes against \$4,500 on Wilson, while another commissioner said that he had \$5,000 to place on Wilson against \$10,000 on Hughes.

A large percentage of the wagers now being made are reported to be "hedged" against longer odds secured earlier and by means of which the bettors will win, no matter who is victor.

Odds 10 to 8 on New York. The odds are 10 to 8 that Hughes will carry New York State.

Much money has been sent into Wall Street by supporters of President Wilson that he will carry Ohio, and, in fact, more interest is apparently being taken in this contest than in New York, if the amount of betting may be used as a barometer.

Even money is being offered on Ohio by Hughes supporters, with little being covered.

Governor Whitman continues a strong favorite, at 3 to 1, and there is little Seabury money even at those odds. The commissioners are willing to give almost any odds, they say, that the Republican candidate will be the victor in the Calder-McCombs Senatorial fight.

One bet of \$2,000 against \$1,000 was made that Congressman Murray Herbert, Democrat, will be re-elected in the Twenty-first district.

Some Side Bets. Besides bets for small amounts one was made at \$500 even that Wilson would carry Kings county. Another that Wilson's plurality in Kings county would be \$5,000 was made at the odds of \$500 to \$1,000, and an even bet of \$400 that Wilson would carry the greater city by 100,000.

A confident Democrat offered \$200 to \$1,000 that McCombs would defeat Calder for the United States Senatorship. This was also covered.

Whitman was favored over Seabury at the odds of 9 to 5. Calder is a 6 to 5 favorite over McCombs. Lewis is a slight favorite over O'Neill for the district attorneyship. One bet of \$500 even was made that Dr. Brennan would win over Justice Cropsy for the supreme court bench.

Considerable Ohio money is here to be wagered that Wilson will carry the State. It is the first time within the memory of bettors that such wagers have been offered.

At first 10 to 7 was offered that Hughes would carry the State. The odds quickly shortened until the Hughes men would not cover even money offers. It was asserted.

Saw Combles Fight From French Airship

Member of Morgan Firm Witnessed Battle From Mile in the Air.

NEW YORK, Oct. 29.—Henry P. Davidson, member of J. P. Morgan & Co., arrived here today on the Philadelphia with his wife and daughter.

He had the unique experience of witnessing the battle of Combles in a French government aeroplane from a mile height, but he was under honor to the French not to disclose what he had seen. He also visited the second line trenches.

He expects to give out in a few days a detailed statement regarding conferences with J. P. Morgan on munitions and finance.

On the Philadelphia also was Dr. Morton Prince, who rushed over from this country to see his nephew, Norman Prince, the American aviator, who was wounded after a valiant battle with a German machine.

Dr. Prince, who heads the Boston committee for Serbian relief, was hurried across a channel in a special destroyer, but he arrived too late to see the hero alive. The young man's body now lies in a tomb. It will be removed to this country after the war.

Plea to Wife Fails, Man Shoots Two, Kills Himself

WATERLOO, Iowa, Oct. 29.—Thomas Findley came here from Vinetion today to plead with his wife to return to him. W. J. Shaulls, proprietor of the Brevoort Hotel, where the woman was stopping, was present when she refused to be reconciled.

Findley thereupon shot and killed Shaulls, mortally wounded Mrs. Findley, and killed himself.

Billion Spent This Year for Building

NEW YORK, Oct. 29.—Official figures today showed a billion dollar outlay for building in the United States, this year, \$450,000,000 of which was expended for factory construction.

Hammond Torpedo Carefully Guarded

Cove Used for Radio Experiments Protected by Electrical Alarm System.

GLOUCESTER, Mass., Oct. 29.—To guard the secret of the radio-controlled torpedo, which he has sold to the United States Government, John Hays Hammond, Jr., has installed an electrical alarm system that will sound the moment an intruder enters the cove where the torpedo is being tested. Should anyone get past the guard who would respond to the alarm he would come in contact with a network of wires constantly carrying a current of 12,000 volts of electricity. The protection system has been extended even to the two wireless boats, the Natalia and H-4, which are used for experimental purposes.

CABRERA CHARGES MAY FORCE END OF MEXICO PARLEYS

U. S. Officials Believe Abandonment of Conferences Will Follow Statement.

Abandonment of the Mexican mediation conference at Atlantic City may be forced, many officials believed today, as a result of the statement of Luis Cabrera assailing the neutrality of the United States toward Mexico, and, inferentially, charging the United States with responsibility for continued lawlessness in that country.

Cabrera is minister of finance in Carranza's cabinet. He also is president of the Mexican commission participating in the joint conference at Atlantic City. The statement in which he was quoted as making vigorous attacks against the United States Government was given out at the Mexican embassy and marked "official."

State Department officials expressed the greatest astonishment when the criticisms were called to their attention. They were informed later that Ambassador-designate Arredondo had no knowledge of the issuance of the statement.

It was considered highly probable, however, the Mexican diplomat would be asked for an explanation by Secretary Lansing.

The impression was given at the State Department that had Arredondo, knowing of the statement, failed to stop its publication, he might have found himself persona grata here.

Irrespective of what official action may be taken, however, officials made no attempt to blink the fact that Cabrera's heretofore had faith in the United States, issued without the knowledge of the American commissioners with whom he was conducting mediation negotiations, may force abandonment of the conferences.

Any such complaints as those made (Continued on Fifth Page.)

New Dimes Shaped Just Like Buttons

Made Concave on One Side as Result of High Relief for Miss Liberty.

It'll be hard to tell a pocketful of dimes from a pocketful of buttons pretty soon. The new dimes which the government will begin introducing Monday to all persons who desire to meet them, will be concave on one side as a result of high relief on the other side. The relief is designed to increase the beauty of Miss Liberty, whose face still adorns the 10-cent piece, albeit she is wearing a winged cap and looks different in other respects.

STREET BEGGING TO STOP NOVEMBER 1

Pullman Issues Order to Keep Mendicants Off Streets.

Following announcement in The Times several weeks ago that Major Pullman was considering some action to stop street begging in the District, an order was issued to precinct captains yesterday notifying them that by Wednesday, November 1, all mendicants must be off the streets.

In carrying out the order, Major Pullman notified his men with the following circular, a copy of which is to be given each beggar and his name and address taken:

"You are hereby notified that there is no authority of law to permit begging on the streets without a permit. Persons who are cripples, blind or otherwise physically incapacitated and who are in need of assistance should apply to the Board of Charities."

SOUTHERNERS ORDER LABOR AGENTS AWAY

Three Prominent Men Held as Result of Controversy.

MERIDIAN, Miss., Oct. 29.—Three prominent men were under arrest and will be tried next Wednesday at Macon, and a committee appointed at a mass meeting of citizens is advising and warning labor agents to leave Noxubee county immediately.

Farmers of Noxubee county have held two mass meetings and are greatly excited over the order of labor, claiming agents from the Mississippi delta and Arkansas are urging the negroes to leave, in violation of the State law.
