LAUDER BUYS ESTATE

Invests American Money in 14,000-Acre Scotch Property. LONDON, Dec. 6.—Harry Lauder, who has amassed a fortune mostly by amusing the American public, and who never willingly lets any of it go, let loose a goodly sum today when he bought the famous estate of Glen Banter and the lands of Ballmore, comprising more than 14,000 acres. Glen Banter belonged to David MacBrayne, the ship owner of Glasgow.

CONGRESS HEARS LABOR'S RUMBLINGS

Unorganized Railroad Employees Petition Members For 8-Hour Law. The sinister rumbling of more than 400,000 dissatisfied railroad workers is rolling up to Congress today. Numbers of petitions from the great "unorganized majority" of railroad employes from all sections of the country, demanding that they be "included in any eight-hour legislation," were being received by various members and at the House Interstate Commerce Committee.

The unorganized men, including trainmen, yardmen, and other employees, are being organized together with several smaller "unions," such as the switchmen and telegraphers, and are expected to join in bringing pressure to bear on Congress.

Chip On Their Shoulder. The men are out with a chip on their shoulder against what they term the "class discrimination" of the eight-hour measure, but, with all are hopeful of "having their side heard" before the present session comes to a close.

Although no distinct lobby had manifested itself around the Capitol so far today, there were surface indications that one may soon develop.

Adamsman Not Interested. Judge Adams, chairman of the Interstate Commerce Committee of the House, in commenting on the "unrest" among the "manual labor" employes of the railroads, declared he was "not particularly interested in their effort. This committee is not investigating general labor troubles. If these men want relief they should go to the House Interstate Commerce Committee, and not come to us."

McDANIEL IS ACQUITTED. Missouri Prosecutor Freed of Charge of Murdering Wife. ST. JOSEPH, Mo., Dec. 6.—Oscar D. McDaniel, county prosecutor, today stands acquitted of the murder of his wife, the mother of his three children. The jury returned the verdict after a few hours' deliberation.

McDaniel, free today, said he would devote the remainder of his life, if necessary, to running down his wife's slayer.

"I have enough evidence," he said, "to make me feel sure I can convict the guilty parties."

McDaniel, before his own arrest, had carried on an investigation of his wife's murder, in his capacity of prosecuting attorney. He campaigned for re-election to the office of prosecutor against him, but was defeated.

TO TELL OF TRAVELS. The members of the Chevy Chase Citizens' Association will meet tonight in the Elizabeth V. Browne School. Frank S. Bright will speak of his experience on a recent trip to England and Scandinavia.

PAYS UP; NOW READY TO DIE. "An old man" in Chicago beat the Government out of \$200 during his lifetime. He wants to die with a clear conscience. He sent \$200 to the consolation fund today.

BEST FOR LIVER, BOWELS, STOMACH, HEADACHE, COLDS. They live the liver and bowels and straighten you right up. Don't be bilious, constipated, sick, with breath bad and stomach sour.

GAIN IN WEIGHT MADE BY DIETERS

After Two Weeks on Special Menu, Squad Gains Total of 45 Pounds. DAILY COST ONLY 31 CENTS. Test Accomplishes Purpose of Focusing Public Attention on Food Expenditures.

CHICAGO, Ill., Dec. 6.—Health Commissioner John Dill Robertson's "Diet Squad" of twelve finished its two weeks' test fat and happy last night. The squad made a net gain in weight of forty-five and three fourths pounds in the two weeks of its tests on an average expenditure of 31 cents a day for each person for food. Every member of the squad gained. These are the outstanding results of the experiment in more economical living made by Dr. Robertson for the purpose of demonstrating the practicability of healthfully feeding a grown person engaged in normal activities on an average of 40 cents a day or less.

The average cost for three meals a day for each of the twelve members of the squad was estimated at 33 1/2 cents for the first week and the second week the cost was 28 cents. "By this test," said Dr. Robertson,

"Housewives should hark back to the days of their mothers. Start the dinner when the breakfast is off the stove. We are too much of a nation of chop cooks. We slam chops and steaks on the stove when we should be eating stews and roasts."

"Too many women nowadays think that the kitchen work is undignified, but is really one of the greatest and most important of arts. It is important to the family than the work of filling prescriptions, for instance."

"We have accomplished the purpose of focusing public attention on the buying and preparing of foodstuffs. Letters which have poured into my office show that it has caused the public to think, and when you mix brains with your food, you save."

"The American people waste enough each day to feed another nation. The city of Chicago each individual throws into the garbage can daily one-half pound of food which proper buying and cooking would have saved."

"In our tests we economized by buying in the open market with a market basket on our arms, and a close eye on the grocer's scale. We didn't order things by telephone. When we bought a pound of anything we got sixteen ounces."
