TO BOSTON IN TEN HOURS. Completion of Hell's Gate Bridge Makes Through Service Possible.

Through train service between Washington and Boston, to cut the traveling time between the two cities ten hours, is announced.

This is made possible by completion of the Hell Gate bridge, connecting the Pennsylvania and New York, New Haven and Hartford lines, and by other extensions and improvements in and around New York, which are said to have cost the Pennsylvania railroad \$150,000,000.

The new service will eliminate delay and expense of crossing from the Pennsylvania Station in New York to the Grand Central Station, New England trains now run into the Grand Central Station and passengers for Washington and the South must cross New York to the Pennsylvania terminal. When baggage is being transported this often results in delay of several hours.

The new schedule will begin with at least two fast trains—the Federal Express and the Columbia Express. A few years ago these trains were run from Washington to Boston, being stopped around New York city on barges.

With direct connection over Hell Gate bridge, special summer trains for the Northern summer resorts may be started from this city.

The Hell's Gate bridge, completed last fall, cost the Pennsylvania and New Haven roads \$27,000,000. A. J. Cassat originated plans for the bridge sixteen years ago.

Local officials of the Pennsylvania railroad have received no details as to the schedule on which the trains will operate.

AVERTS MUNITION BLAST. Policeman Keeps Fire From Spreading to Shrapnel.

ELIZABETH, N. J., Feb. 23.—Gasoline poured into the tank of a motor truck flooded a hot muffler and exploded. The truck was laden with shrapnel to be shipped to Russia. A stream of fire trickled back beneath the vehicle toward the trailer and its load.

Fireman John Cochran, who had turned in a fire alarm at the explosion of the gasoline, snatched a fire extinguisher and played the stream on the blast. Then he pulled off his coat and beat at the flames, finally making a dam of the garment, which held the stream of fire until the firemen arrived.

LIBERAL THOUGHT TALKS. Woman's Alliance of Unitarian Church Hears Addresses.

"The Influence of Liberal Thought on American Life" was the subject of addresses made this morning before the Women's Alliance of All Souls' Unitarian Church by Miss Helen Nicolay and Miss Florence Spofford.

Miss Nicolay traced the progress of liberal thought from the time of Columbus to the present day. She said that religious thought in America "always has been as free as the wind in the grass—and sometimes as vitalizing."

"After the revolution," she said, "politics took on so stern an aspect that religion, which always had had a monopoly of sternness, lost some of its mysterious influence. At the present time public opinion is the real religion of America."

"The Liberal Movement in Art" will be discussed before the alliance March 9 by Miss Mary Kirkup and Miss Eleven Hale, on April 12 the Rev. Abraham M. Ribbans, an Armenian, will be pastor of the Unitarian Church of the Disciples in Boston, will make an address on "The Wise Men of the East and the Wise Men of the West."

SAVE BY GETTING SOUP POT. Expert Tells Americans to Follow Europeans' Example.

PITTSBURGH, Feb. 23.—That the disappearance of the soup pot in the American kitchen was one of the reasons for the present high cost of living, a statement made by Miss Pearl MacDonald, economic expert, in her address before prominent Pittsburgh women on home economics at the Pennsylvania State College today.

"The American housewife does not follow the example of her European sister," Miss MacDonald stated. "In the making of soups, meats and bones can be used which are not used at all by the American women. I also would recommend the making of clear soups only on rare occasions, as in the clear soups you remove substances which are highly nutritious and which possess food value."

Refraining from the use of expensive cuts and steaks also was recommended by the speaker. She said that the expensive cuts were more tender, but that the tougher meats contained more fiber, more flavor, and were more nutritious.
