This Will Make Millions Happy

Any corn will dry up and lift out, says a Cincinnati authority.

Let folks step on your feet hereafter; wear shoes a size smaller, if you like, for corns will never again send electric sparks of pain through you, according to this authority. He says that a few drops of a drug called frezone, applied directly upon a tender, aching corn, instantly relieves soreness, and soon the entire corn, root and all, lifts out without pain. This drug is sticky but dries at once and is said to simply shrivel up the corn without inflaming or even irritating the surrounding tissue. It is claimed that a quarter of an ounce obtained at any drug store will cost very little but is sufficient to remove every hard or soft corn or callus from one's feet. Cut this out, especially if you are a woman reader who wears high heels.—Adv.
