IRATE BRITISH ASK AIR RAID REPRISALS

Bombing of German Towns Demanded by Londoners.

NEW ATTITUDE IS SHOWN Hun War on Innocents Stirs Englishmen to White Heat Rage.

By JEDSON C. WELLIVER. [Special Cable to The Times.] LONDON, June 18.—Indignant citizens jammed the London Opera House last night to demand immediate reprisals upon Germany for the recent air raids over London and the coast towns.

The lord mayor of London, who presided, read a resolution voicing the general desire for retaliatory methods.

The spirit of the meeting was displayed in the rage against the Germans' war on innocents shown by the speakers who mentioned the death of little children in an East London school. Four members of Parliament, including N. Pemberton Billing, who has served in the British air service during the war, advocated reprisals.

Enormous Fleets Wanted. Commander Billing said that with the help of her allies Great Britain could send enormous fleets over German towns and bomb fifty of them every afternoon for a week—not only bomb, but destroy them.

Where heretofore England's spirit was to maintain the war on the principle of not allowing the enemy's most barbaric acts to bring forth similar tactics on the part of Great Britain, now the people all over the country want to make a practical lesson that will force the Hun to desist.

Feeling is General. The meeting undoubtedly was representative of feeling in London. It is doubtful, however, whether the government will adopt a campaign of reprisals to satisfy the popular demand in the southern part of England.

The gathering passed a resolution asking reprisals, and asked that a copy be sent to the King and Queen, Premier Lloyd George, and to other government leaders. The members of Parliament present promised action in that body.

A tremendous popular sentiment for a Franco-British raid on some such German city as Berlin or Frankfurt am Main, which would result in the death of women and children by German aeroplanes and Zeppelin piracy of the last week has developed.

SOON TO CLEAR SITE FOR CANTONMENT CAMP Work at Annapolis Junction, Md., to Begin Before Long.

Work of clearing the site at Annapolis Junction, Md., for the cantonment camp which will accommodate 40,000 members of the national army will begin as soon as Col. E. W. Littell gives the word. Colonel Littell and his force of men were busy today preparing plans for the cantonment camps throughout the country, including the one at Annapolis Junction.

Word was received from Annapolis today that Maryland would put a big force of men on the ground at Annapolis Junction to cut down trees, to clear the site and to remove the debris of the war.

Officials of the Washington, Baltimore and Annapolis Railway Company were busy today acquiring right of way over a small acreage for the construction of additional track facilities.

The company has signed agreements with a number of owners of land, providing that it will pay a rental of \$20 a year per acre for the first year, and \$7 for each year thereafter. Some of the farmers are reluctant to sign the agreement, fearing that the land would be used for other purposes.

BAKER APPROVES VAST AIR FLEET

Says War Department is Behind Program.

WILSON ALSO ENTHUSIASTIC Plans Would Not Interfere With Army Preparations.

"The War Department is behind the aircraft plans with every ounce of energy and enthusiasm at its command," said Secretary Baker today in a statement revealing in general way the plan to send thousands of aviators to the battlefields of Europe.

The aircraft program of which the Secretary speaks was agreed upon last week by officers of the army and navy, and the National Council of Defense and the Aircraft Production Board. It calls for an appropriation of \$600,000,000, to be used as rapidly as possible in putting into the air the greatest fleet of airplanes in history.

That the Administration had approved this enormous program, and that estimates would go to Congress this week, Secretary Baker said in the Times yesterday. The statement of Secretary Baker is understood to have the approval of the president. The scope of the Administration's aviation program is shown by the Secretary's statement:

"The aircraft program seems by all means the most effective way in which to exert America's force at once in telling fashion.

"We can train thousands of aviators and build thousands of machines without interfering in the slightest way with the plans for building up our armies and for supplying the army with food and munitions. To train and equip our armies and send them abroad will take time, however, and in the meantime we can be devoting to this most important task the vast quantities of productive machinery and skilled labor which otherwise could not be contributing to the nation's cause in full proportion to its capacity.

"The gathering passed a resolution asking reprisals, and asked that a copy be sent to the King and Queen, Premier Lloyd George, and to other government leaders. The members of Parliament present promised action in that body.

A tremendous popular sentiment for a Franco-British raid on some such German city as Berlin or Frankfurt am Main, which would result in the death of women and children by German aeroplanes and Zeppelin piracy of the last week has developed.

THE BELGIAN MISSION Baron Moncheur and Associates Make Round of Calls.

U. S. URGES RUSSIA TO CONTINUE WAR

Note Asks Continuance of Fight Against Foe.

EXPLAINS ROOT'S MISSION Says Envoys Are Empowered to Discuss Co-operation.

Russia, as a devotee of democracy and individual liberty, must continue to fight against German autocracy, the United States declares in substance in a note sent to the Russian government before the arrival of the American commission and made public today.

The note was sent to explain the aims of the Root commission, which was en route to Petrograd. It says the commission is empowered to confer with Russia with a view to bringing about effective co-operation between the two governments in prosecuting the war.

The note said: "The commission now on its way to this country to Russia is sent primarily to manifest to the Russian government and people the deep sympathetic feeling which exists among all classes in America for the adherence of Russia to the principle of democracy, which has been the foundation of the progress and prosperity of this country. The high commissioners go to convey the greetings of this republic to the new and powerful member which has joined the great family of democratic nations."

Many Elements Represented. "The commissioners, which will bear this fraternal message to the people of Russia, have been selected by the President with the special purpose of giving representation to the various elements which make up the American people, and to show that among them all there is the same love of country and the same devotion to liberty and justice as represent the constituted authority. The commission is not chosen from one political group, but from the various groups into which the American electorate is divided. United, therefore, the public. However much they may differ on public questions, they are one in support of democracy and in hope for the extension of democracy throughout the world."

"The commission is prepared, to confer upon the best ways and means to bring about effective co-operation between the two governments in the prosecution of the war against the German autocracy, which is today the greatest menace to all democratic governments."

HOOPER MAY OCCUPY FORMER BALTIC HOTEL Food Administration Quarters Are Sought on Vermont Avenue.

The old Department of Justice building, at one time the Baltic Hotel, may become the food administration building.

Herbert C. Hoover, whose headquarters in the Interior Department building must move because his expanding organization is being crowded out by the demands of the Interior Department, has been looking for suitable quarters. It is proposed to rent the old hotel and group of residences in K street at Vermont avenue.

Two new divisions of the Bureau of Foreign and Domestic Commerce will be organized at the new building.

FR. SCHMITT'S FUNERAL TO BE HELD WEDNESDAY

Cardinal Will Attend Rites for St. Joseph's Pastor.

Funeral services for the Rev. Valentin E. Schmitt, seventy-three years old, pastor of St. Joseph's Catholic Church, and for more than thirty years a resident of the District, who died yesterday at his home, St. Joseph's rectory, after an illness of ten days, will be held Wednesday morning at 10:30 o'clock.

The date and the time may be changed, however, for the convenience of Cardinal Gibbons, of Baltimore, who is expected to be present. Father Schmitt was born in Bavaria, came to this country in 1862, and enlisted as a private in the Union army with the 100th Pennsylvania regiment, Company B, which was better known as the "Roundheads."

He fought in twenty-three battles, the most important being at Gettysburg, second Bull Run, Antietam, East Tennessee, the Wilderness, and Appomattox. He was a member of the Union Veterans' Union.

After the war he resumed his ecclesiastical studies at St. Mary's Seminary, Baltimore, and was ordained a priest June 30, 1865, with the Rev. James P. Mackin, pastor of St. Paul's Church.

He was pastor of the St. Michael's Church at Frederick, Md., for nineteen years.

He had accomplished a great deal for St. Joseph's Church, and is beloved by his many parishioners. He built the only brownstone church of the Catholic faith in Washington, an edifice valued at \$100,000, and a school building worth \$30,000.

A special meeting of the men of the parish will be held this evening at 7:30 o'clock to take action on his death.

EX-KING OF GREEKS ARRIVES IN MESSINA

Constantine and Family Will Make Home in Switzerland.

ROME, June 18.—The former King of the Hellenes, his family and suite, have arrived at Messina and are expected to cross Italy today.

Constantine is en route to Switzerland, where he will live in seclusion.

PARIS, June 18.—The French government, through Premier Ribot, has sent the following message to Eleutherios Venizelos, ex-premier and head of the provisional government at Saloniki:

"In confiding to France the mission to take measures to facilitate the return by the Greek people to the unity they helped to found, the protecting powers desired to show that the principles which inspired them a century ago, have remained unaltered through the vicissitudes of history.

"Who could better appreciate the concern with which these protecting powers were animated and their firm resolution to assure the destinies of Greece in the traditional path that led to its grandeur than the eminent leader whose generous ardor and disinterested courage, no less than his political foresight, has been the inspiration of the Greek people and realized most of their legitimate desires for expansion?"
