

SET HIGH EXAMPLE, URGES COL. BRYAN

Tells Officers to Achieve a Moral Standard.

TALKS TO MEN IN CAMPS

Gives Dedicatory Address for Army Y. M. C. A. Building.

William Jennings Bryan, former Secretary of State, last night urged the student officers at Fort Myer to set a high moral standard for themselves and for the enlisted men they will command.

The lecture was heard by 2,000 or more soldiers, and was well received.

Following his address at Fort Myer, Colonel Bryan motored to the artillery training camp at St. Asaph's and made a dedicatory address at the army Y. M. C. A. building there.

He left Washington last night for Campbellsville, Ky., where he is scheduled to begin a series of Chautauque lectures.

Recalls His Army Life. In each of his addresses Colonel Bryan referred to his own services as the commander of a volunteer regiment in 1865, and said he cherished his memories of army life.

"We do not know how long this war is going to last," he said. "We do not know how many lives it is going to cost, but we do know that we are going to see it through."

"I would not say that an officer's life is more important than that of an enlisted man. You cannot compare two things that are priceless. I appeal to you to set the right sort of example to the men under your command."

"We know the temptations with which you will be surrounded, therefore the Y. M. C. A. is throwing its arm of protection around you. Our army is not going to be worth much unless it is organized on a high moral plane."

"It is not law nor prison walls that keep a man on the straight and narrow path, but the sense of responsibility and his conscience."

Praises Y. M. C. A. Service. Colonel Bryan paid high tribute to the Y. M. C. A. for its activities among the men in the army and the splendid service rendered by the secretaries of the association's buildings in the field with the soldiers. He urged the soldiers to make the Y. M. C. A. their club house, and to avail themselves of its many educational, intellectual, social, and moral benefits whenever possible.

A large portion of the population of Alexandria journeyed to St. Asaph's to hear Colonel Bryan's lecture there. At each place Colonel Bryan was presented by Chaplain Arthur Lewis Smith, of the Third Regiment, District National Guard, and secretary of the Y. M. C. A. buildings at the two camps. Colonel Bryan visited the two camps on invitation of William Knowles Cooper, secretary of the Washington Y. M. C. A.

FOOD SAVING URGED AS GIRL SCOUT DUTY

Mrs. Burleson and Lady Hewitt Speak at Park Rally.

The help of Girl Scouts for food conservation and the elimination of waste was enlisted by Mrs. Albert Sydney Burleson, wife of the Postmaster General, at the annual rally exercises of the twenty-eight companies of Girl Scouts of the District, at Zoological Park yesterday afternoon.

Mrs. Burleson, with Lady Copley Hewitt, who spoke for Mrs. J. Bonner Harrison, held the attention of the large audience.

Mrs. Burleson urged the Scouts to set a personal example in saving and to see that nothing was wasted in their own homes, and to urge their mothers to do so.

Lady Hewitt vividly portrayed what the Girl Scouts, or girl troops, of England were doing in defense of their country. She said the girls had taken the places of men and women in the delivery of telephone and telegraph messages, as drivers of milk carts, in train service, and in many other duties which men and women usually perform.

Food conservation was also advocated.

Resinol easily heals skin troubles. The moment that Resinol Ointment touches itching skin the itching usually stops and healing begins.

CAR WITH WORLD RECORD DUE HERE

"Hyatt Roller" Has Traveled 261,800 Miles.

AT LOCAL BUICK SALESROOMS

Car of Long Service on 15,000-Mile Jaunt Across Country.

The "Hyatt Roller," the veteran Buick which holds what is undoubtedly the world's record in its 261,800 miles of travel, is due to arrive at the local Buick salesrooms on Connecticut avenue this afternoon.

The Buick Company is extending a general invitation to local motorists to see this old war-horse during its brief stay. It is scheduled to leave tonight at 9 o'clock. The original bearings are still operating at points of several strain—rear hubs, pinion, and differential.

The present tour is being conducted by the Hyatt Company. Determined just what the limit of endurance of bearings really is. A distance equal to ten times around the world has not worn them perceptibly. Now 15,000 miles more are being added.

On 15,000-Mile Jaunt. The Hyatt Roller's trail started at Detroit on June 4, leading east to Boston, then through New York, Philadelphia, Baltimore, and Washington. The old car turns west, and passes through Pittsburgh, Cincinnati, Indianapolis, St. Louis, Kansas City, Denver, Salt Lake City, and on to Los Angeles. It will travel north through San Francisco and go up the coast to Seattle. Here the path leads east again through the great northwest to Omaha. The home stretch will take it through Minneapolis, St. Paul, Milwaukee, Chicago, and skirting Lake Michigan back to Detroit. Just a little 15,000

mile jaunt around the United States is the idea. The Hyatt Roller's home town is Plainville, Kan., and it is owned by F. E. Slason, the Buick distributor located there. Almost anyone in Kansas can tell about interesting things which the old model 16 has done. It has won over 300 titles, representing a money value of more than \$8,000. It has been used in every sort of motor car service, as a touring car, in motor livery service, in trucking, and hauling, and as a service station trouble car. It has won numerous stock car races at the county fairs, establishing a straight track record of seventy miles per hour.

At present the battered old car carries its new name on the radiator, and it may easily be distinguished by the large electric sign over the hood, announcing its mileage record. When it is considered that this car has passed through what would normally be over thirty years of service, there is just cause for the assertion that it is the most unusual automobile on the road today. Its record is a splendid testimonial, both to its sturdy construction and to the durability of the bearings upon which it still rides on its way around America.

BOMB NET FOR U-BOATS HELD TO BE FEASIBLE

Editor of Scientific American Makes Striking Suggestion.

J. Bernard Walker, editor of the Scientific American, has submitted plans to overcome the submarine menace. His plan is to build a barrier in the form of a great bomb-carrying net 200 feet deep and 250 miles long, to be planted in the Straits of Dover and across the North sea from Shetland Islands to the coast of Norway.

"This is a gigantic proposition, but we are in a gigantic war, where we have had to multiply our units and our measurements anywhere from 10 to 100 fold," says Walker. "Considered as a problem of engineering, the task is perfectly feasible, and it is certainly not beyond the resources of good seamanship."

"I speak advisedly, for during the few days I have been here I have seen in length with certain Government officials who are thoroughly expert in every question of tides and currents, and in the problem of buoying and mooring, which are the fundamental questions."

NORWAY MAY SEND SHIPS TO PACIFIC

Offers to Relieve British Need of Transportation.

Norway may send its merchant fleet to the Pacific, where it will be safe from the submarine menace. Great Britain has drawn a great proportion of her merchant tonnage to the Atlantic trade, leaving Japan mistress of the Pacific.

Norway has made a proposal to the British government that the Norwegian fleet take up the Australian and other Pacific routes, relieving all British tonnage to run the submarine zone in addition that Great Britain insure Norway's food supply. As yet no answer has been made to this proposal.

FRECKLES

Don't Hide Them With a Veil, Remove Them With the Othine Prescription.

This prescription for the removal of freckles was written by a prominent physician and is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold by any druggist under guarantee to refund the money if it fails.

Don't hide your freckles under a veil, get an ounce of Othine—double strength—and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely.

Be sure to ask the druggist for the double strength Othine. It is this that is sold on the money-back guarantee.

POSTAL WORKERS BUY LOAN BONDS HEAVILY

Returns Indicate Total Will Exceed Estimate of \$5,000,000.

Volunteer reports to the Post-office Department from postmasters throughout the country indicate that Postmaster General Burleson's original estimate of \$5,000,000 in subscriptions to the Liberty loan bonds by postal employees will be exceeded by 50 per cent and perhaps by 100 per cent.

A conservative estimate from figures at hand warrants the assertion that the subscriptions from postal employees will reach \$7,500,000, and it may go as high as \$10,000,000, which is double the sum at first calculated by the Postmaster General.

A skeleton report shows that out of approximately 2,500 first and second class postoffices, the employees in thirty-one first class offices and fifty-nine second-class offices subscribed

\$1,766,250. There are in all 508 first-class offices. The following are subscriptions from some of the larger offices from which reports have been received.

Table with 2 columns: Office Name, Subscription Amount. Includes New York City (\$539,700), Philadelphia (\$350,000), Boston (\$335,300), St. Louis (\$250,000), Brooklyn (\$250,000), Oakland, Cal. (\$17,700), New Haven, Conn. (\$16,000), Atlanta, Ga. (\$21,500), Des Moines, Iowa (\$12,000), Louisville, Ky. (\$26,350), New Orleans (\$22,500), Worcester, Mass. (\$18,000), Kansas City, Mo. (\$9,000), Omaha, Neb. (\$9,000), Newark, N. J. (\$3,000), Poughkeepsie, N. Y. (\$3,000), Nashville, Tenn. (\$15,000), Seattle, Wash. (\$10,000), Milwaukee (\$35,000).

The total amount subscribed by the Baltimore office was \$103,350. Many offices both of the first and second classes reported that every employee had purchased a bond. Others have reported from 90 to 100 per cent.

Austin, Tex., the home of the Postmaster General, reported that every employe had subscribed, the total being \$6,250.

Men—No Time Like the Present to Supply Summer Needs From This Semi-Annual Sale of Shirts Values \$1.00 to \$1.50, at ... 79c

New lots of shirts have been brought forward to fill in the gaps made by the last few days' selling. Equally as good assortments and values for those who come tomorrow. All are of the well known high standard always found in our half-yearly event—accurately sized and properly cut, carefully made and expertly laundered.

The materials are selected fabrics of absolutely fast color fabrics, and every shirt is PERFECT. Choose from Madras, Crepe, Duccetine, Rep, Poplin, Harmony Percal, and Cambric.

Large range of new, attractive patterns; made with soft or laundered cuffs; all sizes; every sleeve length. Men's 50c Sample Hosiery, 35c Pair With Every Half Dozen Pairs We Will Give ONE PAIR FREE!

Men's Sample Half Hose, including "Onyx" and other well known trade-mark brands; made of ribbed silk and fiber, fine lisle and mason cotton; seamless and full fashioned; in black, white, plain colors and striped effects.
