

**WAR PROFITTEERING MUST BE STOPPED, SAYS LABOR UNION**

A protest against war profiteering is contained in resolutions adopted by the Washington Central Labor Union.

The resolution explains that profiteering is preventing not only the purchase of Liberty bonds by working people, but is making a problem of getting even the necessities of life. Drastic action is demanded of Congress, and the union threatens to take the matter before the President if a remedy cannot be found in Congress. The resolution follows:

**Text of Resolutions.**  
Whereas, profiteering in all things necessary in the human family to maintain health, happiness, and efficiency has reached the stage where drastic action is vital, and restrictions to curb the greed of the rapacious must be inaugurated immediately for the welfare of the people and the maintenance of law and order; sooner or later rebellion against the robbers and profiteers must come, for the burden will become unbearable; and

Whereas, it seems proper to enumerate, and take stock, via—Food, clothing, medicines, 50 to 100 per cent, rents, have been increased outrageously, and when protest is entered, the tenant at once receives the legal thirty days notice to vacate; the real estate dealer or the owner, as the case may be, being well aware that owing to the large influx of Government employes it is next to impossible to secure other quarters, and consequently the renter must pay or leave; and

Therefore, be it resolved, that the Central Labor Union, representing the workmen and women of this city and the District of Columbia, hereby enters a solemn protest against the shameful exploitation of the people and the working people in particular, 90 per cent of whom are tenants or renters, and demands that a remedy be provided by the Congress of the United States to call a halt on the criminal practices of price advancing and the necessities of life, including rentals for houses; that the civil courts be directed to refuse to issue orders of ejectment for all who honestly and regularly pay their rents;

Resolved further, that when rents are advanced, no order of the court shall issue against those who decline to be robbed, and who will not pay the increased rentals either to owner or agents. Be it further

Resolved, that we demand the prosecution of those guilty of all forms of subterfuge to increase rents be the plan a pretense that the property has been sold, or that in reality it has not been conveyed to another by bonafide sale, or whether the pretext be to make repairs, and all other shams and frauds having for their intent and purpose to get possession of the premises and rent for a higher rental to a new tenant. Be it further

Resolved, that if no other remedy is forthcoming, the Central Labor Union petition the President of the United States to commandeer all necessary property in the District of Columbia, to appoint a committee to be charged with the administration of rents and in this manner protect the producers, the working people, from robbery, and thus enable them to devote a little of their earnings in buying Liberty bonds to help the government as they patriotically desire to do.

**BRITISH PREMIER SAYS TIME'S PAST FOR COMPROMISE**

LONDON, April 28.—There is no longer room for compromise. That is the keynote of the sentiments expressed by David Lloyd George, prime minister, in a special preface to a volume of his war speeches. The premier says in full:

"The events of the last few weeks must have made it plain to every thinking man that there is no longer room for compromise between the ideals for which we and our allies stand. Democracy and autonomy have come to the last crisis; one of the other will fasten its hold on mankind."

**COUNTRY GAINS MILLION HEAD SHEEP AND CATTLE**

To provide for the needs in this country and for the increasing demands made by the allied nations of Europe, half a million more sheep and as many more cattle will be taken care of this year in America than last year, according to announcement by the forest service. Under these figures the total number of stock to be grazed will be about 9,000,000 sheep and 2,300,000 head of cattle.

**LETTERS THAT SMILE NEEDED "OVER THERE"**

A plea has been made for more letters to be written in the army and navy, and make your letters smile," says Roger Daniels, of the army and navy department of the Brotherhood of St. Andrew. "Don't delay your letters, for there is an untold amount of cheer and comfort created by the word pictures in these home messages. When you write, smile, and keep on smiling."

**Editorial**

There is a Liberty Loan primer which you may have seen or heard about. It was written and illustrated by famous men.

On one of the pages there is a picture of a loaf of bread and a dollar bill. Here is the story that goes with it.

"This is a loaf of bread and a dollar bill. If you were alone on a desert island and starving to death, which would you rather have? The dollar would mean nothing to you then—the bread would mean everything."

"Which shows, dear children, that in the final analysis money is nothing. Only life really matters."

"Give your money NOW to save your life LATER."

Only the primer should have said, "LEND your money, now," instead of "give."

Your country needs your money now so much more than you can possibly need it.

Buy a bond—MORE bonds—NOW.
