Short lots and Odds and Ends that have come to light when taking stock. Hundreds of quantities too small to advertise also included. None of these items sent C. O. D. None exchangeable and no phone orders filled.

Lift Off Corns!

Doesn't hurt at all and costs only few cents

Magical! Just drop a little Freezone on that touchy corn. Instantly it stops aching, then you lift the corn off with the fingers. Truly! No humbug!

Try Freezone! Your druggist sells a tiny bottle for a few cents, sufficient to rid your feet of every hard corn, soft corn, or corn between the toes, and calluses, without one particle of pain, soreness or irritation. Freezone is the discovery of a noted Cincinnati genius.

TELLS DISPEPTICS WHAT TO EAT

Avoid Indigestion, Sour Acid Stomach, Heartburn, Gas on Stomach, Etc.

Indigestion and practically all forms of stomach trouble, say medical authorities, are due nine times out of ten to an excess of hydrochloric acid in the stomach. Chronic "acid stomach" is exceedingly dangerous and sufferers should take either one of two things.

Either they can go on a limited and often disagreeable diet, avoiding foods that disagree with them, that irritate the stomach and lead to excess acid secretion, or they can eat as they please in reason and make it practice to counteract the effect of the harmful acid and prevent the formation of gas, sourness or premature fermentation by the use of a little Bismarated Magnesia at their meals.

There is probably no better, safer or more reliable stomach antacid than Bismarated Magnesia and it is widely used for this purpose. It has no direct action on the stomach and is not a digestant. But a teaspoonful of the powder or a couple of five grain tablets taken in a little water with the food will neutralize the excess acidity which may be present and prevent its further formation. This removes the whole cause of the trouble and the meal digests naturally and healthfully without need of peppin pills or artificial digestants.

Get a few ounces of Bismarated Magnesia from any reliable druggist. Ask for either powder or tablets. It never comes as a liquid, milk or citrate and its action on the stomach is not a laxative. Try this plan and eat what you want at your next meal and see if this isn't the best advice you ever had on "what to eat."

To Help Make Strong, Keen Red-Blooded Americans

IRONED

Now

Being used by over three million people annually. It will increase the strength of weak, nervous, run-down folks in two weeks' time in many instances. Ask your Doctor or druggist about it.

TO WIDEN DRAFT AGES BEFORE FIRST CLASS IS DRAWN

Senate and House Military Committee members believed today Congress will pass draft age extension proposals, and that registration will be accomplished in time to avoid drawing upon classes 2, 3, and 4.

Opposition to lowering the age is gradually disappearing, but a House attempt to prevent men below twenty-one from being sent abroad is certain. Many members would be agreeable to some form of universal training for men below this age, making them available as trained soldiers when they come of age.

19 to 40 Expected.
Though no word has come from Secretary Baker to indicate what limits he will ask, there is a general feeling on the hill that he will request registration of men nineteen to forty, or possibly forty-five years of age. Men in touch with the War Department, however, incline to think the upper limit will more likely be around thirty-five.

In this connection, it is pointed out that for the older men the draft law would develop largely into a work-or-fight proposition, giving the War Department considerable control—without so labeling it—over the industrial disposition of available men. This the department is anxious to avoid. Secretary Baker has repeatedly said the department has no disposition to control labor except in so far as it is directly military.

Class 1 Near End.
The original Class 1 will be exhausted in September, but there are the 1918 twenty-one-year olds to draw upon, and it is expected that a new registration of twenty-one-year olds will be had in September, so that, all in all, it is likely that the nation will tide over until Congress acts without taking deferred class members.

This means, however, that passage of the extension must be made and registration done before the first of the year according to the views of many. Secretary Baker is still working on his survey of the industrial situation with a view to determining what effect age extensions would have on vital war plants. He will be ready with his conclusions by the time Congress returns.

PERSHING LIKELY TO PROMOTE NEW CHIEFS OF CORPS

In the Senate Military Committee it is expected that one or more of the new corps commanders of the American army in France will soon be designated as lieutenant general. Under the law, this can be done. General Pershing may not act immediately, however, but may conclude to wait and see whether the corps commanders "made good" in their new tasks.

The corps commanders are Maj. Gen. Hunter Liggett, Robert L. Bullard, William M. Wright, George W. Reed, and Omar Bundy.

When the war broke out, not one of these officers had ever commanded a corps or a division. In fact, there were few officers on the active list who had commanded a division, much less a corps. But in the new order of things, generals are becoming accustomed to larger commands, and the work in France in this regard alone is valuable to the army.

PLOWS TURN HYDE PARK INTO WAR GARDEN PLOT

LONDON, July 30.—The food production department estimates that there is under cultivation in Great Britain more than 200,000 acres of allotments. Some of this land under cultivation by individuals is in the great parks of London, even Hyde Park not being spared. In the city the individuals pay about twenty-five cents a year for plots from thirty to forty feet in length to fifteen to twenty feet in width.

Food officials say there are more than 1,400,000 allotments and that about 100,000 acres of potatoes are growing in allotted ground.
