

SUPPLY FRESH MILK

The establishment of a model dairy plant at the largest American army hospital in France, capable of producing enough milk to supply 20,000 injured fighting men daily, is announced by the American Red Cross. France has agreed to loan the plant 1,000 cows. It will be operated by convalescent soldiers. Lack of fresh milk, according to the army doctors, seriously retards the recovery of wounded and sick soldiers. At present only condensed milk shipped from the United States is obtainable in France.

NEED OFFICE MEN

So pressing has the need for skilled office men become that the War Department has asked manufacturers and business men to assist it in obtaining those with proper qualifications.

POPE FELICITATES CARDINAL.
