Every day, as old skin dies, new forms in its place. This is your opportunity to make this new skin as clear, radiant and fresh-looking as you have always wanted it. Finish by rubbing your face for thirty seconds with a piece of ice. Always be careful to dry the skin thoroughly. This treatment cleanses the skin and brings the blood to the surface, stimulating the small muscular fibres. AVIATORS CATCH TEXAS 'POSSUM. American aviators must have excitement, and if they are not in a position to harass the beebees, a young and elusive "possum" affords the next best entertainment. So thought Lieut. Harry McDonough, pilot, and Fred W. McConky, Jr., observer, of the second provisional wing, who recently flew into their camp at Park place, Houston, Tex., accompanied by a live opossum, hanging by his feet and tall over the rear cockpit of the airplane. Engine trouble had forced the two airmen to land the night before near Anderson, Tex. Being hungry, they went foraging and soon cornered the proverbial forest "sniacker." The animal was so "chummy," however, that they would not kill it, and it was locked up in the fuselage of the plane. Although the animal escaped from the fuselage during the flight, he would not risk the jump of thousands of feet. On arriving in camp he was made mascot and christened "Aero."
