

REAL CAUSE FACTOR IN ISHIDA TRIAL

(Continued from First Page.) normal, and in the next month or two will improve materially or may revert to an even worse paranoiac condition than before.

"It wasn't necessarily overwork that unhinged Dr. Ishida's mind, because overwork never made anybody crazy, but overstrain and worrying about work will do it. The persecuted person frequently becomes the persecutor, and this was so in Dr. Ishida's case. Apparently he bought the revolver, not to kill Dr. Wolff, but to protect himself, because again and again he had seen shadowy forms following him about the hospital.

That Prosecutor Hartman intends to argue that Dr. Ishida with his expert knowledge of mental diseases deliberately feigned insanity before and after the murder in order to escape the consequences of his crime, was shown in the cross-examination of Dr. Oliver. In reply to questions of this sort Dr. Oliver answered: "It is very difficult to feign insanity, and the most difficult form of insanity to simulate is paranoia. If Dr. Ishida attempted to feign insanity, he did a very bungling job, because in his right mind, as an alienist, he would have known better than to have gotten well, that is, as well as he is now. An insanity expert in his right mind would probably be clever enough not to leave a loophole, but Dr. Ishida has never been feigning. At the present time he is like a man coming out of a fog. His mind works like a rusty machine."

Prosecutor Hartman wanted to know if Dr. Oliver thought that Dr. Ishida would have known it was wrong if anyone else shot Dr. Wolff. "I believe he would have hated anyone who shot Dr. Wolff as a benefactor of the Japanese race," said Dr. Oliver. He carried in his mind the biased thought that Dr. Wolff must be gotten rid of. In his letters he frequently spoke of Dr. Wolff being discharged, or about to be discharged, from the hospital. There was no foundation, in fact, for this belief. It was simply a sick mind trying to believe Dr. Wolff was really to be discharged, a belief that finally terminated in the assassination of Dr. Wolff by murder.

Another Symptom. Dr. Oliver explained that Ishida's intentions of committing suicide was another symptom of his mental disturbance and not in conformity with the Japanese custom of hara-kiri. He explained that this custom is confined to the warrior class in Japan and is a privilege jealously guarded by them. Dr. Ishida, not being a member of the warrior class, would not be permitted to commit suicide after his discharge, nor would he presume to take the rights which belong to another class.

Dr. Oliver said that Dr. Ishida told him that he had an attack of delusion similar to that several years ago in Japan. Mr. Hartman wanted to know if Dr. Oliver would be greatly influenced by the opinions of Dr. Brush and Dr. Bunton, if those gentlemen who had had the opportunity of being so closely associated with Dr. Ishida for several months before the murder, said that Dr. Ishida did know the difference between right and wrong. Dr. Oliver answered:

"It has been my experience that persons suffering delusions of persecution (invariably) conceal them from all those with whom they live and with whom they are associated. I believe that more often than not the delusions of insane people are not known to their families. Again and again I have had cases of patients suffering hallucination and have told relatives that they were in a dangerous condition, only to be laughed at. It is then that crimes are committed, and relatives believe sometimes after it is too late."

Court Diary. At the opening of the defense submitted a long screed, written by Dr. Ishida in which the accused man had set down everything that had happened from the time when he entered the hospital to the day that he left it, a prisoner. In it he characterized the man he killed as the "Kaiser of the Hospital." He said he was a wolf by name and wolf by nature.

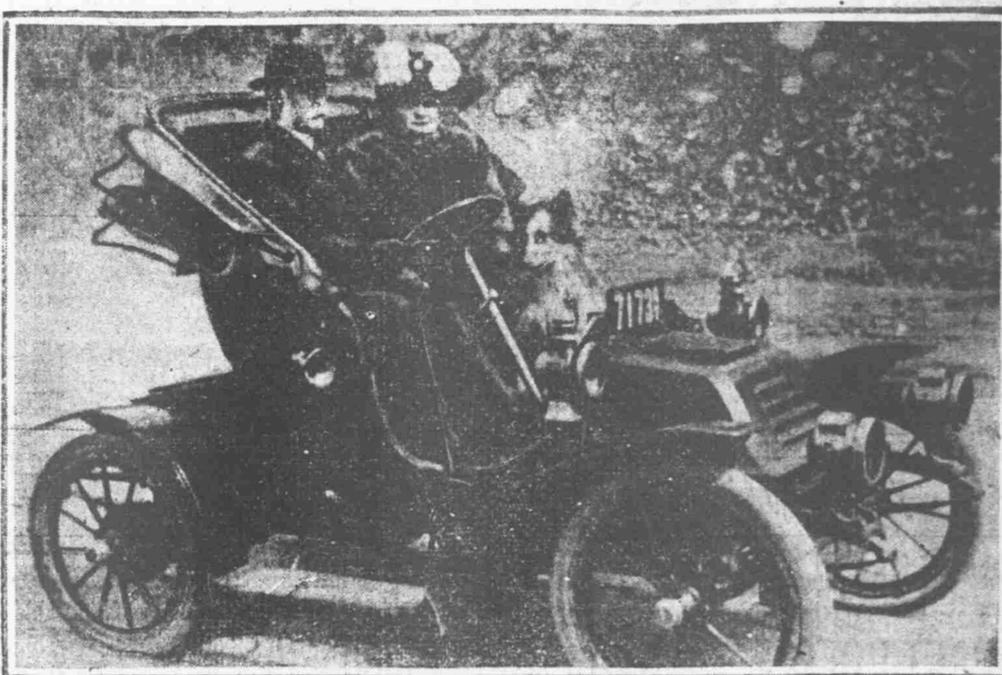

"Miss Boniface had her eyes on me," he wrote. "But was aware of her game and kept away from her. Then I fell in love with Miss Jacobs. It was not a blind love, but a love with reasoning. Miss Boniface became an obstacle with jealousy and went to Dr. Wolff. From that time on Dr. Wolff began to separate me from Miss Jacobs." Probably never before has such a contest of experts been staged in this little courtroom. State Attorney George Hartman is determined to break down the elaborate insanity defense built up by Attorneys Hallie and Grayson for Dr. Ishida. The defense, on the other hand, insists that they can prove a sufficient

Slain Woman and Her Husband Who Is Charged With Death

MRS. JULIA WILKINS.

Who was beaten to death with a hammer in the yard back of her summer home at Long Beach on the night of February 27 last.

DR. WALTER KEENE WILKINS AND HIS WIFE. The picture shown above was taken eight or nine years ago. In the old-fashioned automobile with the couple is the dog Duchess that figured in the Long Beach tragedy, which cost the life of Mrs. Wilkins. The picture was found in the Wilkins house.

NEUTRALS TO GET FINAL PACT DRAFT

(Continued from First Page.) United States—then the doctrine is strengthened by the league, since no action could be taken under its provisions without America's consent," he said.

Asked if insertion of a special paragraph to cover this point is possible, Cecil replied: "I doubt the advisability of putting any power in a special position in reference to the rest of the world."

In discussing Japan's contention for racial equality, he said: "However much we sympathize with the theory of racial equality we cannot insert such a provision in the covenant without infringing on the domestic rights of individual governments."

Noticed Change in Stayer. The warden said that he had never complained to him about his treatment in the jail, and said that all the things which Ishida had written down in his note book which told of the other prisoners taunting him and threatening him were purely imaginary. It was about February 5, Warden Price said, that he noticed a change in Dr. Ishida's manner. From that time he became brighter and was allowed to walk out on the corridor.

Dr. Marjui told of seeing a wound on Dr. Ishida's wrist at a time when he called on him in the jail. It appeared to Dr. Marjui that Ishida had tried to burn through to an artery, with a razor.

Dr. Marjui, of the Baltimore police, for whom Ishida was asking for a warrant for Dr. Wolff's arrest the day before the murder, told of Ishida's visit to him.

Dr. Marjui said, "and told me a nurse at his hospital was being annoyed by a resident physician at his hospital. As a man he said he thought he should get out a warrant because the lady herself was too embarrassed to come to the station. I explained that the hospital was not in our jurisdiction and that it was in the power of the authorities."

Enoch J. Fox, a nurse in the men's department at the hospital, who was placed in charge of Ishida after he had shot Dr. Wolff, told of a conversation with him.

"He said he was sorry," Fox testified, "that he had to shoot Dr. Wolff, because he had accused him of being a spy, but he had shot for the honor of both nations and the honor of the girl."

He said that she had been criminally assaulted on December 18, that everybody knew it, and that she cried for help and no help came. Later, when I was looking at Dr. Ishida very intently, he gave a short laugh and said: "Why do you look at me that way? Do you expect to find insanity in me?" He seemed rather amused that such a thing could really be thought of.

"Most Bright Lady." Lillie Jacobs, the pretty little nurse, who was the unwitting cause of this tragedy, remained in the court room after she herself had testified. Although she had paid her respects to Dr. Ishida in an unmistakable terms, she had the opportunity of knowing the one foreigner entertained a much higher opinion of her.

Sitting in his cell in the Towson jail, he had written in his notebook: "Miss Jacobs is the most beautiful noble lady I have ever seen. Let her enjoy her health and work for the patient."

SECRET AIRPLANE BUILT BY BRITISH

(Continued from First Page.) types of airships and planes before attempting the trans-Atlantic flight.

Lieut. Com. Patrick L. Bellinger, commanding the air station of the Fifth naval district at Norfolk, has been designated by the Navy Department, it is said, to pilot a seaplane across the Atlantic.

Bellinger will come to Washington today to receive final instructions. He was the first American to pilot a machine under fire in France.

In 1916, Bellinger flew over Vera Cruz while Mexican snipers tried to shoot him down. He has conducted long experimental flights to sea and holds the altitude record for sea flights.

It is unofficially reported that Bellinger expects to begin his flight from Hampton Roads within the next ten days.

A French Ace in Air, It Report. A report reaching the Treasury Department here led many to believe today that a French "ace" is en route to the United States by airplane.

The French government cabled yesterday it was sending "eight of the most distinguished French aces" to aid in the Liberty loan campaign. They sailed March 15. The names of only seven are given in the dispatch. It is said that the eighth is making a

FLY TO HAMPTON ROADS FROM NEW YORK IN 3 HOURS. NEWPORT NEWS, Va., March 19.—From New York to Hampton Roads naval base in three hours and seven minutes was accomplished by an airplane of the F-5 type No. 496. Driven by Ensigns Pulliam and Irvine, the No. 496, accompanied by No. 1090, a similar type machine, left New York on a special photographic mission. The 496 covered the 300 miles eleven minutes quicker than its companion. Both averaged about 100 miles an hour. The flight was a non-stop one.

BRITISH OFFICER FLIES 172 MILES IN 74 MINUTES. PARIS, March 19.—A new record

Let Cuticura Be Your Beauty Doctor. All drug stores. Soap 25c. Ointment 25c. 50c. Toilet Cream 25c. Samples each free of "Cuticura," Dept. 2, Boston.

Howells' LYMPHINE Tablets. Restores lost nerve force, creating new life. Improvement comes to day, guaranteed free from Chloral, Cocaine, Morphine or other narcotic drugs. Write for booklet. Each package contains 20 days' treatment by mail. Dr. C. H. Howells & Co., 64 Church St., New York. Sold by Peoples' & Drug Stores and other leading druggists.

Waist Line Suits for Young Men. THIS model is brimful of style. It is made of all wool-fabrics and tailored with a degree of care, which makes them clothes you can wear and enjoy. PRICES RANGE FROM \$30, \$35 and \$40. Parker-Bridget Co. The Avenue at Ninth.

4,000 GARMENT WORKERS STRIKE

CLEVELAND, Ohio, March 19.—Demanding recognition of the union and shorter working hours, 4,000 men's garment workers of Cleveland went on strike today.

The workers paraded through the principal streets of the city under strike banners.

At the request of the employees of the Pacific Electric Railway Company, Los Angeles, the Department of Labor today assigned a conciliator to a threatened dispute there. The men are planning to present a new schedule of working conditions and wages to the company. They have informed the Labor Department they feared the company will not confer with them.

LONDON, March 19.—While awaiting the report of the special parliamentary committee on its investigation of the mining situation, 40,000 coal miners in Nottinghamshire have gone on strike. It was announced today.

The walkout was unexpected, as the miners' officials had postponed the strike, recently voted by an overwhelming majority, until March 22, as the commission's report, scheduled to be presented tomorrow, could be debated.

Another reason for surprise at the Nottinghamshire miners' action was that the miners' representatives were confident the report would be favorable to them.

He declared the miners are bound to accept the commission's decision if the government approved it.

Officials of the Cleveland Street Railway Company may be called before the War Labor Board if they persist in their refusal to reinstate sixty-one discharged conductors as ordered by the board yesterday. Officials of the board, today, however, declined to make any formal comment on the reported refusal of J. J. Stanley, head of the company, until they had some official notification.

Representatives of 7,000 fishermen along the New England Coast today agreed with Labor Department officials to place their disputes with the fish between the hands of the War Labor Board. The Department of Labor conciliators to settle the dispute have failed. William Brown and John H. Madden, both of Boston, and Newman Shea, of Gloucester, representing the fishermen, conferred with Labor Department officials here today.

CUT BY DIVERTED BLADE. HARRISBURG, March 19.—Charles Fiesel of Gettysburg, is in a local hospital with a deep gash in his head as the result of a peculiar accident. Fiesel was swinging an ax and struck a clothesline. The diverted blade rebounded and struck him.
