**How American Women
May Keep Faces Young**

"The American smart woman ages early,
far earlier than the English woman," says
Christian Miller, F. C. I., the famous Eng-
lish health expert. She adds that our
climate "so exhausts that you over-exert
yourself and grow old before you know
it. That same exhilarating air dries the
skin. The skin that lacks moisture grows
pale and withers, looking and soon forms
wrinkles."
"The American complexion" is best
treated by applying pure, mercurized wax,
which causes the faded, lifeless cuticle to
flake off in minute particles, leaving each
day, until the fresh, young skin beneath is
wholly in evidence. Every druggist has
this wax, one ounce usually is sufficient.
Spread on at night like cold cream, wash-
ing it off next morning.

**Rupture Kills
7,000 Annually**

Seven thousand persons each year are
laid away—the burial certificate being
marked "Rupture." Why? Because the
unfortunate ones had neglected the trouble
or had been merely taking care of the sign
(swelling) of the affliction and paying no
attention to the cause. What are you
doing? Are you neglecting yourself by
wearing a truss, appliance, or whatever
name you choose to call it? At best, the
truss is only a makeshift—a false prop
against a collapsing wall and cannot be
expected to act as more than a mere me-
chanical support. The binding pressure
retards blood circulation, thus robbing the
weakened muscles of that which they need
most—nourishment.

But science has found a way, and every
truss sufferer in the land is invited to make
FREE test right in the privacy of their
own home. The PLAPAO method is un-
questionably the most scientific, logical and
successful self-treatment for rupture the
world has ever known.
The PLAPAO method adheres closely
to the body cannot possibly slip or shift
out of place, therefore, cannot chafe or
pinch. Soft as velvet—easy to apply—in-
expensive. To be used whilst you work
and whilst you sleep. No straps, buckles
or springs attached.
Learn how to close the hernial opening
nature intended so the rupture "CAN"
come down. Send your name today to
PLAPAO CO. 1163 1/2 St. Louis, Mo.
for FREE trial Plapao and the information
necessary.

WITH
THE TIMES?**

**TOWERS PREDICTS
BRIDGE OF BOATS**

By DOV CHAMBERLAIN.
(Copyright, 1919, by the United Press)
LONDON, June 8.—Commander J. H. Towers, skipper of the NC-3, and "admiral" of the fleet of three American seaplanes on the trans-Atlantic flight, predicts a permanent bridge of boats will connect America and Europe within five years. These boats, he said, would serve as an aid both to aerial and aquatic navigation. "A chain of light ships, each a floating meteorological station, will, within five years, mark the air routes to Europe," Towers declared. "These craft should be maintained internation-ally, perhaps by the League of Nations. The expenses would be heavy, but not prohibitive. Subsequent outlay would not compare with the benefits derived."
"I would suggest a lightsip every 300 miles. They could keep in touch with aerial craft, steamers, and sailing vessels by wireless. Supply ships could provision them periodically. The first chain probably would be estab-lished by way of the Azores, which is the easiest air route, but I believe another from Newfoundland to Ire-land would be practicable. They would place trans-Atlantic flying on a substantial basis."
The meteorological information is the most important phase of flying across the Atlantic. The NC-3 failed through lack of this. We unexpectedly en-countered storms in an area in which clear weather had been predicted. Each of the lightsips could be man-ued by a small crew and a radio operator. The meteorologist need not be extremely expert. The ships could also assist surface craft in distress.

**TRIES TO END LIFE,
GETS "COLD FEET"**

NEWARK, N. J., June 8.—"I tried to drown myself, but got cold feet. Will you let me stay here to dry my clothes?"
A middle aged man stood before Lieutenant McMahon in Newark police headquarters, water dripping from his clothes and oozing from his shoes. His hair was plastered over his eyes and there was blood on both hands.
He said his name was Carl Finn, and admitted that his only home since he arrived in Newark on Monday had been a box car and a park bench. He told how he tried to end his life by slashing his arm with a safety razor blade and then by jumping into the Morris canal.
"I was discharged from Bellevue Hospital, New York, about a month ago, where they gave me the drug cure," he said. "I was in good shape when I got out and worked in a New York restaurant. But that hard work began to get me, and one night I had to go back to the drugs. Couldn't stand it any longer and quit my job. I worked six hours and made enough money to buy a 'shot' last night. It was not the real stuff, and I was sick and ready to give up."
He is in the City Hospital, and will be held there for treatment.

**SWAT THE ROOSTER
TO SAVE MORE EGGS**

Roosters not needed as brooders should be put in the same class as flies when it comes to swatting, says the Department of Agriculture.
It is estimated, by the department, that \$15,000,000 worth of eggs spoil yearly simply because they are fer-tilized. Fertile eggs, when subjected to high summer temperature, it is stated, begin to hatch just as when placed in an incubator or under a hen, and even though the process continues but a short time, the egg becomes unfit for food.
This spoilage of eggs can be en-tirely prevented, says the department, by swatting or disposing of the rooster after the breeding season is over. The campaign for the production of infertile eggs has been waged several years by department poultry specialists, and is being taken up with renewed vigor in States where summer temperatures are highest and losses are greatest.
Certain weeks already have been designated "swat the Rooster," for the sale of surplus male birds. Enormous quantities of roosters, not needed and being fed needlessly, have been marketed in this manner.

**CHARGE FIRM ATTEMPTED
TO SWINDLE RUMANIA**

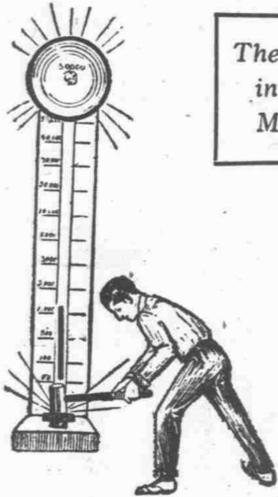

NEW HAVEN, Conn., June 8.—Warrants have been issued by John F. Crosby, United States district attorney for Connecticut, against George E. Mathies, of Seymour, a manufac-turer; William C. Huntoon, president of the Continental Metals Company, of Providence; Walter B. Hensley, Gil-berth J. Loomis, and Frederick White, managers, agents and brokers, of New York city, alleging use of the mails in a scheme to defraud the Rumanian government. It was an-nounced by Federal authorities today.
Mr. Mathies is owner and treasurer of the Seymour Manufacturing Com-pany, which concern made shells dur-ing the war.
The warrants charge also attempts to bribe a member of a Rumanian commission in this country which was procuring war materials. The con-tracts are said to have aggregated several million dollars, and the amount of money involved in the charges is said to be several hundred thousand dollars.

WANT WOMEN P. O. CLERKS.
An examination for women post-office clerks will be given on June 21 at 600 G street northwest. Ap-plicants must be over eighteen years to be eligible for the position. The en-trance salary of postoffice clerks is \$1,000 per annum.

The Wedding Decorations should be above criticism. Order flowers always please. 1214 F.—Adv.

A JUNE DRIVE FOR 50,000 NEW CUSTOMERS

The second week of this great Friend-Making Drive is ushered in with values equal to, if not better than, those of Last Monday. Unfortunately lots are limited in many instances.

Continuing the Sale of
**Specially Bought
Millinery**
Regular Values From \$5 to \$7.50
at **\$2.95** Each

The sale lot represents hats that were secured from an Eastern maker who gave us a marvelously low price because we took the entire lot. Of course some are better than others but not a hat in the lot would have sold for less than \$5.00 if bought in the regular way.

There are georgette, transparent crepe, navy taffeta and straw combined, milan hems faced with georgette, black maline, leghorn and white milan hats in the sale showing.

A few of the colors to choose from are navy, orchid, white, copen, green, tan and rose and black.

The greatest opportunity of the season to secure a beautiful hat to take with you on your vacation at a small price.

All Sales Final. None Laid Aside. None Exchanged.

Second Floor—Lansburgh & Bro.

Editorial

We have a good friend—newspaperman—whose pet saying is that "Tolerance is Next to Godliness."

At first we weren't much impressed when he said it, but of late the real meaning has come to us with a new force.

Tolerance means understanding. If we understood each other as we are we would be tolerant of those little faults that chafe and worry us.

Every man and woman has a dozen good qualities for every bad one. Very often the thing we notice in others as a fault is only a difference of opinion.

Faults are mostly a matter of interpretation and geogra-phy.

Let us cultivate tolerance by increasing our understand-ing. Understanding will come with searching for the good in the people we meet.

A SALE

1,000 Mendels House Dresses

**\$3.00 and \$4.00 Values
Tomorrow, Special, \$1.95**
**\$5.00 and \$6.00 Values,
Tomorrow, Special, \$2.95**

Another lot of these well-known dresses in the Billie Burke models. This sale includes odd lots and samples, made of fine percale or gingham. Some are in solid colors, while others are in checks of plaids or different color combinations. Third Floor.

Sale of Bungalow Aprons

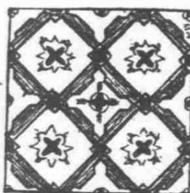

at **\$1.00** each

These bungalow aprons are well made, of good quality percale, in slip-over and middy yoke styles. A great assortment of stripes and figures are represented in the fabrics. You will probably need several of these aprons as they are so handy to slip over a dress while washing up the dishes, etc.

First Floor—Lansburgh & Bro.
