J. Ogden Armour, of Chicago,

recently said:

"The greatest asset in the commercial world today to a business man is credit."

In our business—banking—we have nothing to sell but credit. When a business man wants money to pay his bills he comes to the bank, explains his needs, and if he is recognized as a man of character and good business ability, his wants are usually supplied.

Submit your financial problems to us. We have over six millions in assets now to take care of our customers' needs.

TO MAP PRICE COURSE

He will call a meeting of the District Committee sometime this week, however, to map out a regular course for the investigation to follow. In the meantime he has paid considerable attention to local food prices; compiled figures showing comparisons between Washington and other nearby cities and is otherwise expediting the detailed work in order to have definite figures to submit to the committee when it begins its work. This week should witness definite progress in the shape of a resolution directing the committee to go ahead with its work.

KIDDIES' PENNIES MAKE \$5,000 FUND

By saving their pennies, nickels and dimes, earning 15 cents by running an errand or selling a bunch of wild flowers, denying themselves the luxuries of childhood—ice cream cones and all-day suckers—and by scraping together every cent of loose change papa or mama left laying carelessly about the house, little children of the Washington schools have contributed \$5,000 to the National Children's Fund, to be used in bringing cheer and comfort to their homeless little comrades of France, Belgium and other war-stricken countries.

NUXATED IRON A DRIVING FORCE

BEHIND KEEN SUCCESSFUL MEN AND WOMEN

When you think of the successful men and women you know—people who are doing things worth while—you will find that they possess force, vim and energy—the kind that simply brim over when the blood is filled with iron. Nuxated Iron by enriching the blood and creating new red blood cells, strengthens the nerves, rebuilds the weakened tissues and helps to instill renewed force and energy into the whole system. Three million people use it annually as a tonic, strength and blood-builder.

MAKE THIS TEST

See how long you can work or how far you can walk without becoming tired; next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. Numbers of nervous, run-down people who were ailing all the while have most astonishingly increased their strength and endurance simply by taking iron in the proper form.

WARN TAXPAYERS TO MAKE KNOWN MISTAKES IN TAXES

In the Chevy Chase kindergarten, for instance, the little children made a whole afghan, and others knitted sweaters, which they sent, along with the contribution, overseas. For the wounded soldiers in the hospitals, the children carried fudge once a week and kept them supplied with magazines and newspapers.

DEAR MRS. HOUSEKEEPER:

We wonder if you have realized how easily you can find relief from the summer heat!

Here is a suggestion: People used to think that summer hardships couldn't be avoided—that they had to be endured. Standing over a hot stove was considered a matter of course. So was the weary sweeping with the broom, and the back-breaking job of washing clothes.

But times have changed. The Electric Range has made the kitchen cool in summer. The Electric Cleaner has taken all the drudgery out of sweeping and dusting. The Electric Washer has banished the burden of the weekly wash. And there are other electrical helps that mean so much in health and comfort to the whole family.

We want to ask you to come down here to our Display Rooms and just look around and see the many things you can have to make the summer easier.

Look at all the different kinds of Electric Fans, especially. See what the many table-cookery appliances offer. Just look over our show of electrical helps from this point of view: "What can I do to make it easier throughout these sultry weeks to keep from getting worn out by the heat?"

We will be very much pleased to talk it over with you and find out just what will suit you best, with the idea of greatest comfort and economy.

Just come and see. You owe it to yourself and your family.

Come Tomorrow,
