

SQUIRRELS FISH FOR TINY TURTLES

BETHANY, W. Va., Sept. 24.—Squirrels that go fishing after turtles inhabit Hog Creek, near here. At least Jack Hurley, an oil driller, says they do.

"There are still some tricks left that the naturalists haven't discovered," said Hurley, "and the squirrel that goes fishing does one of them."

"I saw three or four tiny turtles leggin' it up the bank out of the water as if a platoon of Hunns was chasing them. Moving in that direction I saw a pine squirrel on the bank of the mother turtle. The sharp teeth of the squirrel were sunk into the hind part of the turtle's neck."

"As soon as the squirrel had finished the old turtle it made for the little ones. The small creeper just closed itself up in its shell, but the squirrel took it by the exposed meaty part of the rear leg and scooped up a tree with it."

All of which proves that squirrels sometimes get their minds off the cracking of nuts.

FAT COP STICKS IN CAR DOOR.
WEST ROXBURY, Mass., Sept. 24.—Car service here was delayed fifteen minutes while motorists and conductors "painfully" extricated a stout policeman who had become wedged in the door.

OLE HANSON NOT A 1920 ASPIRANT

"Better Man Than I Should Be Chosen for President," He Tells Vanderbilt.

NEW YORK, Sept. 24.—In a copyrighted article from Cornelius Vanderbilt, Jr., staff correspondent at Seattle, the New York Herald today prints the following:

"Are you considering being a candidate for the Presidency?" I asked Seattle, the New York Herald today prints the following:

"A better man than myself should be chosen as candidate for President—a man more fitted and with greater experience and greater ability. He should surround himself with the best men in our country, or else he will be, no matter what his particular abilities, only a 25 per cent President. He should be a nationalist and not an internationalist. The sentimental internationalist is a positive danger in times like these.

"We must preserve and develop our national morale or else we will not even be in a position to help internationally. The internationalist loves all countries but will fight for no country. A man cannot serve two masters. No one can love more than one country any more than he can love more than one woman. If he says he does, then his love is of the tepid, indiscriminate, skimmed-milk variety and is only skin-deep—thin skin at that.

"I am not a candidate for any office whatever. I do want to be a valuable and worthy private citizen. I want to serve in whatever capacity I can do most good. Any man who at the present time is giving thought to any personal ambition is not a good American. This is a time when every man and woman in the United States should be thinking about something else than personal aggrandizement."

PROFESSIONAL MAM TO LOOK AFTER BABIES URGED

NEW YORK, Sept. 24.—"Professional mothers" to care for babies in order to give the real mothers more time and freedom to pursue a career outside of the home was advocated by Mrs. Charlotte Perkins Gilman, famous suffragist leader, to the international conference of women physicians. Mrs. Gilman pointed out that there are 10,000,000 women in Europe who have been deprived of marriage by the war, and that many of them are fitted for the work of "professional mothers."

Argentina Attaché Named.
BUENOS AIRES, Sept. 24.—Col. J. Esteban Vaccarezza has been appointed military attaché at the Argentinian embassy in Washington.

SEARCH FOR BODY OF GIRL GIVEN UP

Student Companion Maintains Innocence of Tragedy in Canoe.

ITHACA, N. Y., Sept. 24.—Search for the body of Miss Hazel Crance, eighteen years of age, who was drowned the night of July 19 while canoeing on Seneca Lake in company with Donald W. Fether, a Cornell student, will be abandoned, it was announced by Sheriff Green, of Tompkins county.

Fether was charged with the murder of his youthful companion, and later released on habeas corpus proceedings, the court holding the evidence did not warrant his detention. A fund of \$1,000 was raised by popular subscription in this city, which has been expended in dragging the lake of the vicinity with improved grappling apparatus, all to no purpose.

Fether, who was held on the technical charge of having a quart of whisky in his possession on July 19, entered a plea of not guilty when his hearing took place. He is unable to enter the university till February 16, and has obtained leave of absence to that date. He stoutly maintained his innocence.

SHIP GOES ASHORE; CREW IS MISSING

OSWEGO, N. Y., Sept. 24.—No tidings of the J. T. Waffle and crew of six, including Capt. Charles Beaupre and M. Switzer, Kingston, Ontario, have been received and she is generally admitted to have foundered in Tuesday morning's gale. Wreckage in large quantities has been washed ashore.

The Waffle, 102 feet long, was owned by Swift & Son, Kingston. She was bound from Fairhaven to Kingston with soft coal.

DEMOCRATS CHOOSE LONG TO HEAD MASS. TICKET

BOSTON, Sept. 24.—Returns from the State primary indicated the nomination of Richard H. Long, of Framingham, by the Democrats for governor. Gov. Calvin Coolidge was opposed for re-nomination by the Republicans.

With the count in Boston complete and 172 out of 374 precincts outside of Boston, Long had 24,708 votes. His nearest competitor in the four-cornered contest, former Gov. Eugene S. Foss, had 4,115; George F. Monahan, 3,214, and former Congressman Frederick S. Delrick, 2,124.

Bourbon Prince to Wed.
PARIS, Sept. 24.—Announcement is made of the engagement of Hedwige de la Rochefoucauld, daughter of Duc de Doudeauville, to Prince Sixte of Bourbon-Parma. The latter is a brother of former Empress Zita of Austria, but in spite of this relationship fought during the war in the Belgian army.

Found—A Box You Can Strike a Safety Match On; Cheer Up, Smokers

Smokers, take heart! You who have had any experience with present-day safety matches may be interested to know that a coating for match boxes has been discovered upon which more than 500 matches can be successfully struck. It sounds like a wild tale, but is vouched for in a report received by the Department of Commerce today. It is called brilliant friction, and is manufactured in Slovakia.

Great quantities have been exported to European countries, and it is expected to hit America soon. So, cheer up.

PADEREWSKI DENIES HE WILL RESIGN

PARIS, Sept. 24.—A report that Premier Paderewski of Poland is thinking of resigning, was denounced as untrue by M. Paderewski himself today.

He declared that he has no intention of giving up his post, but expects to remain in power until Poland is well on her feet.

WARNS OF RED PACT IN BALTIC PROVINCE

NEW YORK, Sept. 24.—"It would be difficult to exaggerate the importance to Europe of the negotiations between the Russian Bolsheviks and the Baltic states," says a copyrighted dispatch from London to the New York World, quoting a Berlin dispatch to the Daily Telegraph.

"Should a treaty of peace result the road would be open for German industry into Red Russia, and there are many here who are eagerly waiting to take it. That the Soviet government attaches great weight to the negotiations is obvious from its choice of delegates, and especially from the appointment of Krassin, the people's commissioner for communications, to be its chief spokesman.

Krassin is, perhaps, the ablest man at present in the service of Russian Bolshevism. He is not, as was stated in the House of Commons, a German, but he has undoubtedly Teutonic sympathies. He dislikes terrorist methods and would probably be inclined to compromise; beyond any doubt, Krassin will be largely guided in the negotiations at Peking by the possibility of opening commercial connections with Germany."

Bells for City Dogs.
ASHEVILLE, N. C., Sept. 24.—As unreasonable as it sounds the city authorities have announced that every canine resident of this city must wear a bell during the next year, and to prove their earnestness they have purchased a large supply of the necessary ornaments for distribution among the owners of dogs here.

WOMEN "CUSSERS" MOST PROFICIENT

Language of English Girls More Vulgar Than That of Men, Says Preacher.

LONDON, Sept. 24.—A gloomy view of England's womanhood is taken by the Rev. F. B. Meyer, who has been preaching a series of sermons on the subject. In an interview printed in the Daily Express, he says:

"I do not fear a food shortage or labor troubles. But I do fear the consequences of lowering of women's modesty. The country is in real danger. The present fashions show a total disregard for everything that has previously looked on as noble in womanhood.

"Nor is it only in dress that women show a marked deterioration. They have become coarsened in their manners through their association with men workers. The language of the girls in the suburbs and on the omnibuses is becoming awful. They have not only adopted the manner and language of men, but have surpassed men in vulgarity.

"It seems that the women have developed among themselves a third sex, which is neither masculine nor feminine. It is composed of the worst elements of both."

Troops Deconcentrate.
PARIS, Sept. 24.—The deconcentration of the French army is now entirely completed, all troops except those on the Rhine having returned to their usual garrison posts.

The Upstairs Shop
Win Weinblatt, Inc.
2nd Floor, 503-7th St. N.W.

Choose from satins, tricotine, gabardine, georgette crepe, crepe de chine, serges and tricettes, handsomely trimmed with embroidery, beads and braid.

SERGE DRESSES \$9.75

BLACK CAT LIVES UP TO "REP" FOR BAD LUCK

ST. LOUIS, Mo., Sept. 24.—The black cat has carried an omen of ill-luck since the days of Noah, it is said. Edward U. Ricketts is more convinced of this now than he ever was before. His efforts to shoot a black cat caused him to be placed under arrest.

Ricketts fired at the cat with a rifle. The bullet cut some of the cat's fur, and, glancing, entered the home of Edward Hughes, striking Charles, a thirteen-year-old son, in the right

American Legion to Hunt Jobs for 20,000 Ex-Yanks Without Work

NEW YORK, Sept. 24.—Announcement that the American Legion is to adopt a permanent policy of re-employment assistance for discharged soldiers, 20,000 of whom two recent investigations show are still seeking jobs, was made here today by the national executive committee. The plan, which, it was said, contemplates the legion's carrying on in large measure the work undertaken by Col. Arthur Woods, of the United States Employment Service, will be submitted to the national convention of the veterans in Minneapolis November 10, 11, and 12.

Each post in every city is urged to appoint a strong employment committee and establish relationships with the Salvation Army, Knights of Columbus, Y. M. C. A. and kindred organizations for the purpose of co-operating with them in the work of placing their remaining idle comrades in positions.

For Sanitary Reasons.

We do not exchange Rubber Goods, Brushes or Combs, except in case of imperfection.

You may be sure when you purchase these goods at our stores that they have never been out of our possession, but are handed to you fresh and clean as received by us direct from the manufacturer.

The Bastinado was a form of punishment at one time common among the Turks and Chinese. It consisted in beating the offender on the soles of his feet with a light stick, or lath of bamboo.

"The terror of the punishment was not in the severity of the blows but in its long continuation."

You, too, receive blows that exhaust you - every day of your life

EVERY day that you pound nail-studded leather heels on hard, unyielding pavements, you are inflicting upon yourself punishment like that of the Bastinado.

The average man takes 8,000 steps a day. If you wear old-fashioned leather heels, studded with nails, you give your nervous system 8,000 jolts and jars. The constant repetition of these shocks exhausts your energy just as the Bastinado sapped the strength of its victims. Chronic over-fatigue, with its ever-present threat of serious illness, often results.

You can protect yourself from the dangers of over-fatigue. You can remove one of the commonest causes of fatigue. Replace your hard, unyielding heels with O'Sullivan's Heels of live, resilient rubber. O'Sullivan's Heels absorb the shocks that tire you out. They relieve the jolts and jars that make a burden of walking.

What gives a rubber heel "life"? It is not just the rubber that gives O'Sullivan's Heels their springiness and wearing qualities. Rubber, as you know, can be made

hard and brittle as in fountain pens, or soft and crumbly as in pencil erasers. To secure the resiliency and durability of O'Sullivan's Heels, the highest grades of rubber are "compounded" with the best toughening agents known.

The "compound" is then "cured" or baked under high pressure.

By this special process the greatest resiliency is combined with the utmost durability.

It is this special process that has, since the making of the first rubber heel, established O'Sullivan's Heels as the standard of rubber heel quality.

Guaranteed to outlast any other heels

O'Sullivan's Heels are guaranteed to wear twice as long as ordinary rubber heels; and will outlast three pairs of leather heels.

Go to your shoe repairer today and have O'Sullivan's Heels put on your shoes.

O'Sullivan's Heels are furnished in black, white or tan; for men, women and children. Specify O'Sullivan's Heels, and be sure that you get O'Sullivan's—avoid the disappointment of substitutes.

O'Sullivan's Heels

Absorb the shocks that tire you out.

When you try your first O'Sullivan's Heels note their great resiliency. It is this resiliency that prevents you from pounding away your energy
