HOW DOCTORS TREAT COLDS AND THE FLU

First Step in Treatment Is a Bristle Purgative With Calomel, the Purified and Refined Calomel Tablets That Are Nausealess, Safe and Sure.

Doctors have found by experience that no medicine for colds and influenza can be depended upon for full effectiveness until the liver is made thoroughly active. That is why the first step in the treatment is the new, nausealess calomel tablet called Calotabs, and which are free from the sickening and weakening effects of the old style calomel. Doctors also point out the fact that an active liver may go a long way toward preventing influenza and is one of the most important factors in enabling the patient to successfully withstand an attack and ward off pneumonia. One Calotab on the tongue at bedtime, with a swallow of water—that's all. No salts, no nausea nor the slightest interference with your eating, pleasure or work. Next morning your cold has vanished, your liver is active, your system is purified, and your appetite for breakfast. Druggists sell Calotabs only in original sealed packages, price thirty-five cents. Your money will be cheerfully refunded if you do not find them delightful.
