Thin, Nervous People Need Bitro-Phosphate

Weak, thin people—men or women—are nearly always nervous wrecks; thus conclusively proving that thinness, weakness, debility and neurasthenia are almost invariably due to nerve starvation. Feed your nerves and all these symptoms due to nerve starvation will disappear.

Eminent specialists state that one of the best things for the nerves is an organic phosphate known among druggists as Bitro-Phosphate. The grain tablet of Bitro-Phosphate is a safe, reliable, being a genuine nerve builder and not a stimulant or habit-forming drug. Bitro-Phosphate can be safely taken by the weakest and most delicate sufferer, and the results following its use are often simply astonishing.

By strengthening the nerves, weak, thin people regain energy and vigor; thinness and angularity give way to plumpness; confidence and cheerfulness to peace of mind and contentment; dull eyes become bright and pale, sunken cheeks regain the pink glow of health. It is sold by the Peoples Drug Store, Washington, D. C., and all good druggists everywhere.

CAUTION—Bitro-Phosphate, the use of which is recommended so carefully, promotes the assimilation of food, so much so that many people report marked gains of weight in a few weeks. It is a fact that who do not desire to put on flesh, should use extra care in avoiding fat-producing
