

81-Year-Old Miner Active.
 PITTSBURGH, Jan. 31.—Davy James, a little, old Welshman, is the youngest old man in Clearfield county. Davy learned to mine coal in Wales many years before he came to America. Despite his years, he never lost a day the mine worked during the last summer and fall, and his pay checks for each two weeks during the entire summer and fall have averaged not less than \$170 and from that up to \$180.

 Red-Blooded Men and Women Get Things Done. Rich Blood Means Vitality
 THIN BLOOD MAKES YOU LAZY
 Strengthen and Build Up Your Blood With Pepto-Mangan

Men and women who are on the road to big success are not lagging on the way. They are bright and cheerful because their systems are fed with rich, red blood. Weak blood, thin and sluggish, will never get you anywhere. You would be surprised how many people are just drifting along half alive. They never want to do anything—never get anywhere—all because their blood is in bad condition. The sensible thing to do is to keep the blood pure and full of red corpuscles. Pepto-Mangan will do that for you the way it has for millions of men and women in the past thirty years. Notice the difference after your blood gets plenty of red corpuscles in it. See how you'll pop out of bed early, refreshed and ready to do big things. But be sure you get the genuine Pepto-Mangan. Ask for "Gude" and be sure that the name is on the package. If you prefer tablets, take them. If not, ask for the liquid. Both have the same medicinal value.
