Poisoned by Thousands

Backache of any kind is often caused by kidney disorder. Poisonous matter and uric acid accumulate within the body in excess, overworking the sick kidneys, hence the congestion of blood causes backache in the same manner as a similar congestion in the head causes headache.

What is ALCORUB?

ALCORUB is the same pure alcohol you used to buy for bathing and massage, with no poisonous, irritating additions. It has all the anti-septic properties of alcohol combined with softening and curative agents that make ALCORUB most soothing and invigorating for the skin.

FOR years people have always had a bottle of alcohol handy to use for rubbing down after bathing, for bathing children and invalids when they were feverish or nervous, for rub down after exercising and for many other purposes which the toilet or health required.

Since Prohibition has been in force, however, all such alcohol is medicated and known to be poisonous; in fact a big red poison label is on every bottle.

Realizing this, our laboratories have been busy for several months in perfecting an alcohol preparation that is positively not drinkable and yet is not poisonous and does not have that irritating, drying, burning, itching effect on the skin that ordinary medicated alcohol has.

We present to you ALCORUB which is U. S. P. alcohol, combined with softening and curative principles which make it ideal for the skin. It has the agreeable odor, the cooling and invigorating sensation that alcohol gives, really is alcohol and yet non-poisonous and non-drinkable. It is equally good for bathing children, invalids and athletes.

The U. S. Industrial Alcohol Co., is the largest manufacturer of alcohol in the world and its prestige backs the guarantee that you need have no fear in using ALCORUB for any toilet or external health purpose for which you were accustomed to use pure alcohol.

There is no embarrassment in buying it, as ALCORUB is guaranteed by us under the National Food and Drugs Act. All you have to do is to step into the drug store and ask for a bottle of ALCORUB as you would ask for a bottle of any other toilet preparation; no further questioning or formalities.

ALCORUB is positively guaranteed by us, not to contain any Wood Alcohol, nor any of the poisons that are required by the U. S. Government, in the formulas for medicating alcohol. These poisons are: Bichloride of Mercury (Corrosive Sublimate), Carbolic Acid, Hydrochloric Acid, Formaldehyde and Creosol.

Go to your druggist and purchase a bottle of ALCORUB, and again experience the pleasant invigorating sensation of a safe alcohol rub. ALCORUB is never sold in bulk, but comes to you in a pint sealed bottle, direct from our Research Laboratories. As to price, you get a full pint (16 ounce) bottle for \$1.00.

ALCORUB is such a recent discovery that a few druggists may not yet have it. Wherever this advertisement appears, distribution has been provided and you should have no difficulty in securing ALCORUB. If you have any trouble in getting it, please advise our nearest office.

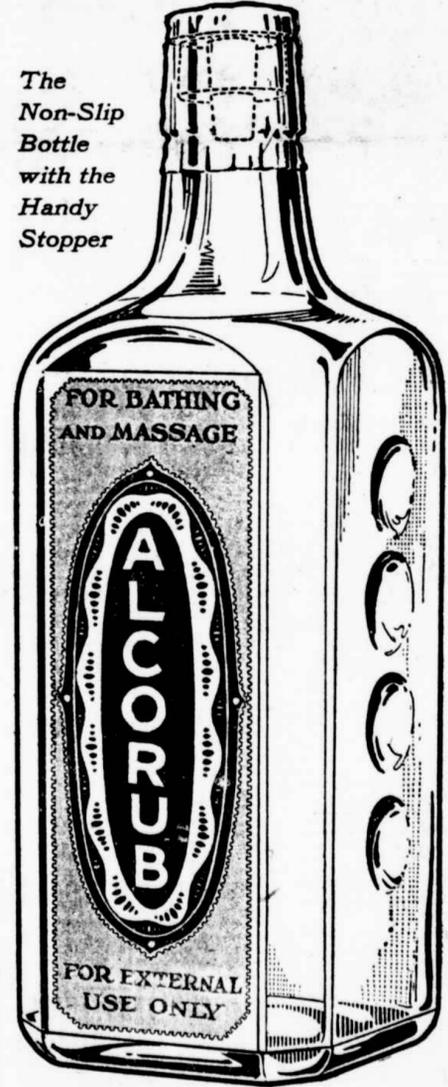

- Non-poisonous, Non-drinkable. -Contains no Formaldehyde, Carbolic Acid, Bichloride of Mercury, Hydrochloric Acid, Wood Alcohol, Creosol or other poisonous ingredients. -Does not irritate the skin nor hands. -Full pint (16 ozs.) for a dollar. Never sold in bulk. -No prescription, no "red tape" no trouble to buy. -Guaranteed by us under the National Food and Drugs Act. -All ingredients used in ALCORUB are of United States Pharmacopoeia Standard.

Note to Physicians: ALCORUB is 73% U. S. P. 95% alcohol, combined with other U. S. P. ingredients which make it soothing and invigorating for the skin.
