

DENIES SHE IS BLUEBEARD

Police Trace Career of Woman Accused of Killing Her Four Husbands.

LOS ANGELES, May 14.—Looking into the career of Mrs. Lyda T. Southard, twenty-seven, suspected of having murdered four husbands, her brother-in-law and her baby, Los Angeles and Idaho authorities today sought trace of other victims.

SEARCH IS MADE OF RECORDS. Insurance companies throughout the West were asked to search their records to determine if she had been paid on policies of husbands other than those now known.

In the first direct statement made since her arrest in Honolulu, Mrs. Southard, the Los Angeles sheriff was informed, vigorously denied charges that she poisoned the five men and her baby.

"I never poisoned anyone. I can prove my innocence and am ready to return at once to face the charges," she said in going back on the alleged "poison trail." It was learned that the woman made every possible effort to keep one of her marriages secret.

This marriage was that of Harlan C. Lewis, who lived formerly in Stockton, Cal.

GAVE NAME OF NO. 2. When she returned to her home at Twin Falls, Idaho, after Lewis' death, it is said she never mentioned her marriage to him. When she was married to her fourth husband, it is alleged, she gave her name as that of her second husband.

This discovery caused the authorities to suspect today that she may have been married more than five times and that she has kept the other weddings secret.

Deputy Sheriff Fox and Nolan say they were informed today that the police have taken precautions to prevent an attempt at suicide by Mrs. Southard. They did this on a warning from Prosecutor Stephan of Twin Falls, where she will be taken for trial on a charge of having murdered Edward E. Meyer, her fourth husband.

BEAUVAIS HAD 'FIF' JOIN INDIAN TRIBE

NEW YORK, May 14.—Dressed in full regulation costume of the Indian Iroquois tribe, from headband down to dainty moccasins, Mrs. "Fif" Potter Stillman, wife of the multi-millionaire ex-banker, who is suing her for divorce, became a full-fledged member of the same branch of that tribe to which Fred K. Beauvais, half-breed guide and co-respondent in the suit, is a member, it became known today.

It happened in the fall of 1917 at a festival near Lake Dawson, in the Grand Anse district of Quebec, Beauvais and about a half hundred other members of the tribe were present.

In accordance with the ancient Indian custom, after she had taken the oath of allegiance, her wrists were slashed and her blood was sucked from them by other members of the tribe.

Then followed the usual solemn vow by all others participating in the ceremony, to avenge any harm that might come to the new member.

The new member, Mrs. Stillman, in accordance with the principle of "an eye for an eye and a tooth for a tooth."

Beauvais, according to lawyers in the case, who made this information public today, acted as sponsor for Mrs. Stillman. The banker's wife is said to be the only white member of the organization.

A further interesting revelation today was the news that Dr. Hugh L. Russell, of Buffalo, N. Y., had for some time a student of works on hypnotism. The osteopath, who swore last week that Mrs. Stillman had told him little Guy was the son of Beauvais, is expected to be cross-examined by her lawyers on the subject of hypnotism.

Come See the Benzol Girls

Invitations Out for Unveiling of Dupont Circle Nymphs.

Three nymphs will be unveiled Tuesday.

Right on in the open. If you've seen 'em you probably think they've been unveiled as far as possible. But you are wrong. They've been all dolled up in a form-fitting sheet of water.

Now you know the nymphs. They are the three sisters of the Benzol group who disport themselves on the moment that you go to Rear Admiral DuPont in DuPont Circle, Yee, Benzol. You know, T.N.T., dynamite, and nitroglycerine. They're members of the Benzol group.

The War Department announced officially today that the young ladies would be "unveiled" at 2:30 o'clock Tuesday afternoon.

Which probably means that they will turn off the water.

Girls! Girls!! Save Your Hair With Cuticura

Established 55 Years. Would be purchased from diamond experts. Diamonds, gold, silver, platinum. Purchased for manufacturing purposes. Burnstines.

MICHAEL SOLSO, of New Haven, Conn., and the four babies recently presented to him by his wife, who is twenty-six years old. The children, three boys and a girl, are fine, healthy specimens. Mrs. Solso will be able to leave her bed shortly. Since the birth of the infants the proud father has stayed home from work to aid in caring for them. James weighs 5 1/2 pounds, Michael, 4 1/2; Salvator, 5, and Angelina, 5 pounds.

EDISON HAS A NEW LIST OF PUZZLERS

Resents Charge That He is an Opponent of College Education.

NEW YORK, May 14.—Thomas A. Edison let it be known today that he has compiled a new questionnaire for applicants seeking positions in his organization. Too much publicity interfered with the effectiveness of the old list, in the inventor's opinion, without the least lessening his faith in the system. He is ill

WILSON'S CASE SEEN WARNING

Haggood Reviews Condition to Emphasize Need of Harding Keeping Health.

By NORMAN HAGGOOD.

Recently I promulgated some wisdom on the relation of exercise to President Harding's chance of coming out ahead of him. Today I want to draw the lesson from the history of Woodrow Wilson.

Mr. Wilson, let be prefaced, is in much better condition than medical men ever expected him to get into again. Sleep has always been a test with him.

Now SLEEPS WELL. New for the first time since his breakdown, he is able to sleep well. At the height of the controversies of his first term, he was always able to go directly to sleep and wake up strong after a sound sleep.

Throughout his first term Mr. Wilson never forgot the connection between his condition and his judgment, or between his condition and the general value of his work.

In the very first hour of his active Presidency, that is to say, between nine and ten in the morning of March 5, 1913, he explained to a friend his intention of keeping his judgment untroubled by a multitude of exactions, in order to put the best of himself into his work.

This detachment was easier in the old days. Thomas Jefferson was a student, as well as a statesman, but there was no relentless pressure by visit, mail, telephone, telegraph from every quarter of the globe.

GET OUT OF CONDITION. Such lessons were on Mr. Wilson's mind, but one element of judgment, of the best work, he left slip away from him in 1919. He let himself get out of condition.

Just as soon as he got out of condition his judgment became less sure. His judgment that took possession of his whole spirit in 1918 and 1919, was to forge a League of Nations and bring this country into its membership.

Judgment became, by the fall of 1919, almost the only test of importance, and by that time his physical condition had deteriorated to such an extent that it finally compelled him to hold his office nevertheless, although the wisest and boldest of his advisers believed he should at once turn over power and responsibility to the Vice President.

That was the widely circulated report today, a rumor that appeared strengthened by an unexpected move in his now famous suit.

BANKER STILL FIRM. On excellent authority, however, it was learned that the Wall Street banker is just as determined now to drive his fight through as he was to day he launched his charge against his wife and declared that Baby Guy was not his son.

Late yesterday afternoon the "move to drop" was taken. George Coghill, of Cadwallader, Wickersham and Taft, arranged with members of the firm of Nichols, Annable, Fuller and Sullivan's counsel for the banker, for a postponement of the divorce hearings scheduled for next Thursday and Friday.

Over the telephone to Daniel J. Gleason, surrogate of Dutchess county, referee in the case, Coghill suggested a delay until May 25 and 26. Surrogate Gleason got in touch with all of the counsellors and found everybody willing to postpone the hearings.

REPORT SPREADS. Up to the time the postponement was granted there had been no indication by either side that a delay would be acceptable. Both were ready to go on the "ring line," and the lawyer on the other side sent the report of Stillman's desire to quit into being in a hundred quarters.

With the prompt denial that he had any such intention came word that the postponed hearings would be held in the chambers of Surrogate Gleason at Poughkeepsie.

CAT IN COFFIN LAID IN TOMB, WITH FLOWERS

BRIDGETON, N. J., May 14.—There was a novel funeral ceremony here when a pet cat was sent down from Philadelphia, forty miles, in a coffin by a railroad train, and duly consigned to a tomb in the family plot of its owner in Broad Street Cemetery.

Flowers were furnished by a Bridgeton florist and the sexton of the cemetery had charge of the interment. The cat belonged to Miss Hannah Beebe, formerly a resident of Bridgeton.

rather high average for college men. Edison reads four newspapers daily. He had a Hearst paper before him when interviewed and was reading it as part of his journalistic routine. He said: "The young man who does not read the newspapers intelligently has little interest in things worth while. This failure to be interested indicates that the mind is not functioning properly, that the brain is atrophied." The inventor emphasized the moving picture as a medium for the dissemination of news, which is only partly utilized. He said: "Forty thousand subjects are waiting to be filmed. I am too old to pioneer in this work now, but I would like to see some younger men take hold of it."

FRENCH FORCES CLASH WITH ARABS IN SYRIA

NEW YORK, May 14.—Hostilities have again broken out in Syria between French and Arab forces, it was disclosed here today, or the first time through a report received by the Near East relief from its Syrian representatives.

A new massacre of Armenians was averted only by the plea of certain Turks at Aintab, the reports states. Two thousand orphans cared for by the Near East relief in that area are to be removed to Constantinople.

During the month of April \$519,733.88 was contributed to the committee. It was announced at today's monthly meeting. Greeks in the United States gave nearly \$130,000 of the total for the relief of their countrymen in the fighting zone.

MISS LILLIAN DE RICHELIEU and her father, Admiral Andrew de Richelieu, who recently arrived in New York from Europe, will tour the country. The admiral who owes his title to Siam instead of Denmark, was born in the Danish Antilles, and married Eleanor Douglas Wise, of Baltimore. He founded the Siamese navy.

STILLMAN TO PRESS FIGHT

Divorce Hearings Postponed, But Banker Will Not Drop Suit Against Wife.

NEW YORK, May 14.—James A. Stillman, recently resigned president of the National City Bank, plans to drop his divorce suit and seek surcease from publicity abroad.

That was the widely circulated report today, a rumor that appeared strengthened by an unexpected move in his now famous suit.

BANKER STILL FIRM. On excellent authority, however, it was learned that the Wall Street banker is just as determined now to drive his fight through as he was to day he launched his charge against his wife and declared that Baby Guy was not his son.

Late yesterday afternoon the "move to drop" was taken. George Coghill, of Cadwallader, Wickersham and Taft, arranged with members of the firm of Nichols, Annable, Fuller and Sullivan's counsel for the banker, for a postponement of the divorce hearings scheduled for next Thursday and Friday.

Over the telephone to Daniel J. Gleason, surrogate of Dutchess county, referee in the case, Coghill suggested a delay until May 25 and 26. Surrogate Gleason got in touch with all of the counsellors and found everybody willing to postpone the hearings.

REPORT SPREADS. Up to the time the postponement was granted there had been no indication by either side that a delay would be acceptable. Both were ready to go on the "ring line," and the lawyer on the other side sent the report of Stillman's desire to quit into being in a hundred quarters.

With the prompt denial that he had any such intention came word that the postponed hearings would be held in the chambers of Surrogate Gleason at Poughkeepsie.

RAPS MAN WHO TOLD ON 'FIF'

Phelps Clawson, Friend of Stillmans, Says Divorce Case Is "Frame-up."

BUFFALO, N. Y., May 14.—"Not what he told, but WHY he told it—that is the question!" H. Phelps Clawson thus summed up today his comment on the remarkable testimony given at the referee's hearing in the Stillman divorce case last week by Dr. Hugh Russell, Buffalo osteopath.

"FRAME-UP," HE SAYS. Clawson, for years an intimate friend of the Stillman family, continued today his public efforts to show that the whole case against Mrs. Stillman is a "frame-up." He hinted at a mysterious motive on the part of Dr. Russell for telling under oath "something that no power on earth could have forced him to tell," though he hesitated to add that he did not mean to insinuate that the doctor was bribed.

As to the osteopath's testimony itself, the crux of which was that the multi-millionaire's wife had come to him and told him little Guy was the child of Fred K. Beauvais, half-breed Indian, guide, Clawson not only tried to disprove by pointing to the "utter lack of resemblance" between the child and Beauvais, but he dismissed the very idea contemptuously by saying:

"The woman of Mrs. Stillman's refinement, character, and position would have gone abroad and chosen some lord or earl if she wanted a lover. It is outrageous to suppose she would choose a man of the type of Beauvais."

"But why did Dr. Russell give such testimony?" Clawson reiterated several times.

"Well, I'll bite; why did he?" asked the reporter, but Clawson could not answer the question himself, except to say there must have been some remarkable motive.

RIDICULES BEAUVAIS' LETTERS. "Maybe, when he is cross-examined, Mrs. Stillman will ask him some pertinent questions about his past experiences," he added significantly. "But that was as far as he would go on the 'motive question.'"

"Beauvais' Guy's father? Why, it's absurd," Clawson continued. "Look here: Guy has light hair and blue eyes, hasn't he? Certainly he has. Now the Indian guide has a swarthy complexion and black hair, hasn't he? Certainly he has. Furthermore, both Mrs. Stillman and her husband are light-haired. So there you are!"

"And, anyway, Mrs. Stillman could have had duker, an earl and lords and the like, had she wanted a lover," repeated her staunch defender.

Whereupon he produced a book in which was an autograph of Beauvais, and compared it with the handwriting alleged to be the Indian guide's, on photographic copies of alleged love notes to Mrs. Stillman. There was, indeed, a marked difference in the penmanship.

"They've even misspelled Beauvais' Indian name on this one," exclaimed Clawson, pointing to one of the alleged letters. "With 'they,' he meant 'you,' he believed, for that the letters to frame the case against the banker's wife."
