

CATHOLIC MEN TO ORGANIZE BRANCH OF COUNCIL HERE

Convention Friday Night Will Have Delegates From Twenty-five Parishes.

Organization of a district council of the National Council of Catholic Men will be completed at a convention to be held next Tuesday at the Catholic Community House, 601 E street northwest. Final arrangements for this convention were made at a meeting of 211 delegates, representing twenty-five parishes of Washington, Friday night.

Senator Joseph E. Randall of Louisiana and Admiral W. E. Benson, of the United States Shipping Board, both of whom are members of the men's council, attended and addressed Friday night's meeting. They urged the need of participation by Catholic men in the attempt being made to solve social and industrial problems.

At the convention next Tuesday night officers of the District Council will be nominated, and plans for the national gathering of the men's council in Washington, during the last week of September, will be adopted. This convention will be held concurrently with the annual meeting of the archbishops and bishops, who will hold their three days' session at the Catholic University. It is expected that every one of the 101 dioceses will be represented at the national convention of the men's council.

White Marshall Foch, of France, is in Washington during his visit to the United States next October, he will be the guest of the District Council of the National Council of Catholic Men. Marshall Foch will spend about two weeks in this country, and is to be formally received in New York, on his arrival from France, in Washington, Boston and Chicago. It is likely that he will include other cities of the United States and at least two Canadian cities in his itinerary, but this has not been definitely determined.

The Rev. John J. Burke, C. S. F., general secretary of the National Catholic Welfare Council, of which the men's council is an agency, spoke at the gathering of delegates Friday evening. He declared that the Catholic Church must make a contribution to the social and moral life of the country. Catholic men, he said, must not be content with going to church and receiving the sacraments, but should make service to their country part of their service to God.

CHARGES W. VA. STRIKE WAS COAL BARONS' PLOT

The coal strike in the Williamson fields, in West Virginia, has been promoted by coal operators in the States of Illinois, Indiana, Ohio, and Western Pennsylvania, acting in conjunction with the United Mine Workers, asserted Harry Olmsted, chairman of the labor committee of the Williamson operators, in discussing yesterday the forthcoming resolution of the strike committee by a committee of the Senate.

"The trouble in the Williamson field goes back for twenty years," said Mr. Olmsted. "We propose to show that the recent trouble has been the result of an agreement between the owners of unmined mines and union officials to drive West Virginia coal from the Western markets, and that the campaign has been directed against the West Virginia miners and operators alike."

CENSUS OF JAPANESE INCORRECT, IS CHARGE

A telegram protesting against the Census Bureau's computation of the Japanese population of California was received yesterday by Senator Hiram Johnson, in which it was pointed out that while the bureau's estimate is approximately 71,000, the State bureau of vital statistics estimates there are 109,000 Japanese in California. Johnson said he intended to take the matter up with the Census Bureau.

FISH AND FISHERMEN

By R. A. ANGLER
Address All Communications to Fish and Fishermen Editor, Washington Times

Many Thrills Await Local Anglers on the Potomac

Having heard so much about the catches of big rockfish in the Potomac, we decided to give them a trial.

With tackle in tip-top shape and a good supply of bait, we pushed off from the shore just as Old Sol was making his appearance.

Selecting a spot where the water was deep and swift we cast anchor. After a wait of about half an hour my companion's reel started to hum, and after a fight lasting three or four minutes he landed a beauty, weighing four pounds.

Similar thrills were experienced several times during the course of the morning and by 10 o'clock we were on our way home with four rock totaling ten pounds.

If you, fellow anglers, have not experienced the thrill this year, give them a trial while weather and water conditions are just right and the run of rock the best in years.

Feline Nimrod Uses Breadcrumbs To Lure Goldfish

CUMBERLAND, Md., June 25.—Recently "Uneda" and "Quicida," two large fantail Japanese goldfish, disappeared from the fountain in City Hall Plaza.

Janitor George Douglas, custodian of the fish, had his suspicions. The fish were tame and would come to the top of the water when Douglas whistled it was meal time.

At 9 o'clock at night the janitor saw a black cat slinking toward the fountain and Douglas took a position nearby with several firemen from Central Fire Station and watched.

The black cat had breadcrumbs in his paw which he dropped in the water, and bending low over the coping of the fountain, soon was making quick sweeps with one paw at the elusive fish as they came to the top to eat.

The fishing cat was so interested he failed to see Douglas come from behind and he was given a slap that sent him away to his lair.

Received a postal this week from one of Washington's famous anglers. On one side of the card is pictured a black bass weighing 436 pounds, caught at Catalina Islands, Calif., and on the other side the fine lines that follow:

"Long Beach, Calif. June 20, 1921.
"Hello, R. A. Angler:
"I did not catch any this big, but you ought to be here and get your all of fishing. Expect to see me in Washington early in September and give the bass a trial.
"Regards to all the boys.
"DALE SHERIFF."

"The Men Who Turned Red" would have been a very fitting title for the happy group of sun-blistered anglers on their return from Rock Point Wednesday evening after a successful day's fishing. The party included Harry Knapp, "Cy" Burris, George Clements, Frank Hughes and Ben McAlwae.

MINERS CLAIM BIG WAGE LOSSES DUE TO BAD WEIGHING

CUMBERLAND, Md., June 25.—Argument of the demurrer filed by the defendant in the suit of Roy Anderson and 110 miners living at Frostburg, Hoffman, Vale Summit and Eckhart, against the Consolidation Coal Company, for alleged improper mine weightings, was heard before Judge Robert R. Henderson in the circuit court. The suit involves a sum of money approximating three quarters of a million dollars, and is considered one of the most peculiar cases from a legal standpoint ever heard in a local court of equity.

Following the argument, in which the defendant company through A. Taylor Smith and W. Atsworth Parker, of Baltimore, contended that the grounds for equity were not shown, and that the plaintiff had an adequate remedy at law, Judge Henderson announced that on account of the multitude and intricate questions of law, the court would not render a decision until after August 1, and instructed the counsel on both sides to file briefs with him before that date.

The most recent case from a legal standpoint ever heard in a local court of equity.

BOUGHT LARGE FARM

Several years ago he bought the Peter Royer farm of 500 acres and on that portion of the farm in the vicinity of Puffery run is the location of his beautiful mountain lake.

Last autumn Mr. Todd had 5,000 trout placed in the lake which is equipped with every device to protect the trout from the larger ones. There is a mesh over the spillway to keep the fish from escaping.

Mr. Todd spends his week-ends on the lake, bringing friends from Pittsburgh and vicinity. The trip may be made by a delegation from Cumberland and Frostburg headed by Clerk of the County Lloyd L. Shafer.

WORK WILL BEGIN

A group of Frostburgers, who believe that this lake furnishes an object lesson of what can be done by building a dam across to obtain a larger water supply for Frostburg, planning to visit the lake during the next ten days. The trip may be arranged by Secretary Todd, of the Commercial Club, who is not connected with the lake, but who thinks a lake along Savage river would be a fine thing.

NINE VIOLENT DEATHS AT LYNCHBURG IN MAY

LYNCHBURG, Va., June 25.—The health report here for May shows there were nine violent deaths during the period, three of which were suicides, one from accidental shooting, one from electric shock and two from homicide.

The cases of communicable diseases reported to the health department numbered 278, which, with 1,004 cases already reported, shows about one case for every twenty-five residents of the city. An epidemic of measles caused 245 reports, which resulted in one death. The department has under attention 763 victims of social diseases, or about one for every forty residents.

Of two cases of typhoid fever reported, one was clearly traced to infection outside the city and the other probably was infected out of town.

The department shows that impure sanitary conditions and a general enlightenment of the people has caused a reduction of flies about 75 per cent.

Hurt by Runaway Horse.

KEEDYSVILLE, Md., June 25.—David C. Snyder, a farmer living near here, was badly injured when a wagon on which he was driving upset and the horse ran away. The horse ran into town, dragging Snyder for some distance.

RESEARCH UNIV. GRANTS DEGREES TO FIRST CLASS BE BUILT IN SEPT.

Institution of Higher Learning Proud of Record and Advanced Students.

Research University, the only co-operative university in the world, held its first convocation last night in the auditorium of the Women's City Club, in Jackson place northwest.

Candidates for degrees were presented by Dr. Newton Dennison Mereness and Dr. Edson Leona Whitney. The bachelor's degree was conferred upon the following:

Benjamin Edwin Ruente, Alice Margaret Hopkins, and J. Clarence Voorhies.

The degree of master of commercial science was given Philip Edward Bunker. The highest degree, doctor of philosophy, was conferred on Samuel Henry DeVault, and Charles Homer Lane, both of whom are in the Government service. Dr. Edson Whitney was given the honorary degree of doctor of law.

DR. McELWEE SPEAKER

Dr. Roy S. McElwee, chairman of the board of trustees, and Congressman Horace Mann Tower were the principal speakers. Dr. McElwee recounted the history of the institution.

He said Research University is the only institution of higher learning in the United States which "subsists without begging, either from legislatures or from private individuals."

"The university was organized to provide night classes for day workers," the speaker said, "and to make it possible for anyone to obtain his higher education while carrying on his daily work. The summer quarter will open on July 4."

Congressman Tower made a plea for proper recognition of education in this country. Miss Rena Greenberg played a violin solo.

HODGKINS WINS HONORS

Following the speech making it was announced that Alton Ross Hodgkins was awarded the annual Fellowship Fellowship of the most intelligent student as determined by standard psychological tests and scholarship.

Six other students were granted complete scholarships for the year. They are Elizabeth N. Barlow, Lucille Crescentia Brunner, Wayne Vernon Pettit, Edwin Carson Toothman, Ruth Stevens, and Marjorie Van de Water.

A hundred subject scholarships are to be awarded during the summer quarter.

The Rev. Walter Amos Morgan, of the Mount Pleasant Congregational Church, made the invocation, and Monsignor Cornelius F. Thomas, of St. Patrick's Church, pronounced the benediction.

BOOSTS AND DEMOTIONS ARE ANNOUNCED IN G. P. O.

Ten appointments, twelve promotions, and twelve separations are announced today by the Government Printing Office, which ended Wednesday, as follows:

APPOINTMENTS.
Edward J. Clark, unskilled laborer; Cingus Nutt, unskilled laborer; Daniel R. Bell, unskilled laborer; Joseph F. Crump, unskilled laborer; Chastine Kennedy, unskilled laborer; Francis K. O'Brien, professional messenger boy; David R. Campbell, professional messenger boy; Albert R. Snyder, professional messenger boy; Crandal P. McClure, professional messenger boy; Miss Estelle W. Bakersmith, probational clerk-typist.

SEPARATIONS.

Robert R. Hurdle, probational messenger boy; Mrs. Mattie B. Russell, sewing machine operator, resigned; Mrs. Helen E. Jefferies, skilled laborer (f), resigned; Mrs. Mae C. Bowman, skilled laborer (f), resigned; Miss Grace Thomas, skilled laborer (f), resigned; Henry R. Schaack, probational pressman, resigned; Alonso A. Schreckengost, compositor, resigned; Louis H. Williams, unskilled laborer, resigned; Robert W. Burgess, monotone keyboard operator, resigned; Mrs. Anna M. Lyons, pressfeeder, resigned; Miss Maude E. McIntosh, pressfeeder, resigned; Albert J. Buehler, bookbinder, resigned.

PROMOTIONS, ETC.

Ernest E. Whitaker, linotype operator@75c per hour; linotype operator in charge@80c per hour; Augustus C. Mellinckamp, linotype operator@75c per hour; George W. Gemberger, messenger boy@20 per annum to skilled laborer@35c per hour; James E. Maynard, referee@80c per hour to acting assistant foreman@2,200 per annum; John A. 427-429 7th St. N. W.

RABBI WISE, OPERATED ON IN N. Y., IS RECOVERING

NEW YORK, June 25.—After five days of anxiety, relatives of Rabbi Stephen S. Wise disclosed yesterday that he underwent a serious operation in Mt. Sinai Hospital last Friday. He was reported last night to be out of danger and resting comfortably.

The operation followed a breakdown on June 16, the culmination of overwork. At the hospital it was stated he was resting comfortably last evening, and improving nicely. He is expected to leave the hospital in a few days.

It is the movement of the air and not any chemical property which enables a wind to impart a tracing effect.

DRY DOCK RECEIVER MUST PAY \$60,000

George H. Price, receiver of the Rocky River Dry Dock Company, which defaulted on a contract to build five tugboats for the Government, was directed yesterday by Justice Hitts in Equity Court to pay the Fidelity and Deposit Company of Maryland \$60,000 out of the funds in his care.

The dock company, whose main office was in Cleveland, Ohio, went into the hands of a receiver on September 9, 1919, leaving it in alleged unpaid claims against it amounting to \$178,000. The deposit company was then forced, as underwriter, to have another contractor build the tugs.

PUEBLO FLOOD DAMAGE PUT AT \$16,784,638

PUEBLO, Colo., June 25.—The financial loss resulting from the Pueblo flood amounts to \$16,784,638, according to a report made public by the committee named to supply data on damages to the United States Reclamation Service.

The damage reported on includes that of real estate, personal property, merchandise, irrigation ditches and to crops in the entire devastated district, the report says. The damage to real property in Pueblo, including the damage to railroad property within the city limits, is estimated by the committee as \$10,025,000.

More people die of extreme cold than of extreme cold.
