

A. F. L. LEADERS MEET TODAY ON COURT DECISION

Executive Council to Shape Federation Policies on Ruling in Coronado Case.

By ROBERT G. MORRIS.

CINCINNATI, June 10.—One of the most important of the pre-convention meetings of the executive council of the American Federation of Labor was scheduled for today when the council will take up the recent decision of the United States Supreme Court in the Coronado case.

Plans will be prepared as to the course of action the federation proposes to take. Whatever action is decided upon will be presented to the convention which will be called to order Monday.

The Coronado decision held that union leaders can be held liable for damages resulting from a strike, provided the international union has sanctioned the walkout. This decision and the recent Taft decision, which also held that a union could be subjected to damages, are the same as a corporation under the Sherman anti-trust law, has much to do with solidifying the ranks of the American Federation of Labor.

The Russian question, which has been used as a political football by the different factions in the federation is not expected to come up at the convention. The only resolution affecting Russia that has been adopted so far is that of the International Ladies' Garment Workers' Union, whose executive council last night drew up one calling upon Premier Lenin to free the political prisoners of Russia.

An important decision reached today was that of the board of governors of the Allied Printing Trades, which has decided to join the joint committee for the promotion of art and literature, the purpose of which is to combat the political censorship of the motion picture industry, the stage and the press. The board of governors also decided to join the American Publishers' Association in the fight for the reduction of postal rates.

Senator LaFollette of Wisconsin will address the convention. It is believed he will offer his assistance to the American Federation of Labor's fight to abolish child labor.

ONE of the most striking mantles of the season is a circular one of black velvet embroidered in gold in a striped design. It is not quite so long as one might expect it to be in this summer of extreme lengths, and Patou has given it an engaging gathered collar that stands as a background for the wearer's throat and shoulders.

EX-SEN. DICK TO MAKE RACE FOR PLACE IN OHIO

Old Friend of Mark Hanna to Seek Upper House Nomination on G. O. P. Ticket.

After an absence of fifteen years, Charles Dick, former Congressman and Senator from Ohio and intimate of Mark Hanna, re-entered the lists of political office seekers today. Dick, who has practiced law in the District since he left Congress in 1904, has filed his petition of candidacy for the Republican nomination for Senator from the Buckeye State with the secretary of state at Columbus. His opponents are Congressman Simeon D. Fess and John H. Arnold.

It was just after the Spanish war that Dick was elected Congressman from the Nineteenth district. He served until the death of Mark Hanna, whom he succeeded as Senator, sitting in the Fifty-fifth and Fifty-eighth Congresses, inclusive. In the interim he has been active in Republican circles, managing nearly twenty Ohio campaigns.

He had previously been secretary of the Republican national committee in both of McKinley's campaigns. Dick's platform adheres strictly to the conservative wing of the party headed by President Harding. He declares he will limit his campaign expenses strictly, publishing receipts and expenditures at frequent intervals.

U. S. MINE BOARD TO CURB STRIKE MAY BE FORMED

Administration Sees Formation of Body as Solution of Problem.

By WILLIAM K. HUTCHINSON. International News Service.

Creation of a Federal Mine Labor Board by Congress to arbitrate all disputes in the coal fields loomed today as a possible solution of the nation-wide mine strike.

With Senatorial critics of the cabinet threatening to invoke Governmental seizure of the mines as a means of ending the strike, Administration leaders rallied to the compulsory arbitration plan as a more acceptable method of bringing peace to the warring mine factions.

President Harding was reported to be opposed to taking over the mines even temporarily, and his views were shared by most Administration leaders in both branches of Congress. The compulsory arbitration plan would meet greater favor from the executive, it was said, as a means of establishing a truce in the mine clash.
