

For the Farmer.

Now for a General Clearing up. Commence about the buildings. There may be neglected stables which have been used, while vacant in summer, as receptacles for loose straw, empty barrels, broken implements, and all sorts of rubbish stored there amid the haste of the season's work to get them off from the barn floor and "out of the way for the present."

The poultry house may need cleansing. If the deposits have not been removed, add them to the compost heap. Thoroughly cleanse the roosts, and give the whole apartment a good whitewashing as the best preventive of vermin.

The barn-yard should never become the dismal swamp too often witnessed toward spring. Arrange drains to quickly carry off falling rain, provide eaves-troughs and leaders to conduct the water from the buildings away from the yard.

Many meadows are disfigured and the ground worse than wasted by scattering thickets, bushes, and stumps. These and hedge-rows along the fences and in the corners are the magazines of weeds which send out their marauding forces yearly.

In short, let there be a general clearing up of the premises, so that winter may find everything prepared for its coming, and the farmer may have the comfortable feeling that all is snug.

The Egg Plant.—One of the greatest acquisitions to the list of culinary vegetables, which has, so far as relates to this country, been made within a few years, is the egg-plant. It is a very palatable and nutritious article. There are several kinds, though that which has hitherto been most common is known as the purple egg plant.

A cheap and durable label is a great desideratum. There are some good patent labels, but their cost prevents their general use; besides this, many of them must be purchased with the name already on them. If these points are no objection, the labels possess the other requisites to a considerable degree. A zinc label, written on with prepared ink, is both durable. It will last for many years if the ink is good.

Look out for Weeds.—What, now, when the growing season is nearly over? Yes, now, emphatically NOW. Just at this season, especially in the potato-

fields and gardens, and by the sides of fences everywhere, weeds are ripening their seeds and scattering them far and wide over the surrounding land. In former days, when the potato held its leaves fresh and green through the entire summer, weeds were smothered out, and the grounds nicely cleaned for the next crop. But of late years, since the blast has set in, the tops die early, and weeds spring up and get vigorous possession of the land. Special care is needed, therefore to subdue these interlopers.

Mason County-Classification of Justices. AT A COURT continued and held for the county of Mason, at the Court-House thereof, on Tuesday the 8th day of July, 1862. The following classification of Justices was adopted by the Court, viz:

LEWIS WETZEL, Presiding Justice. FIRST CLASS.—George Stephenson, J. H. Miller, Jacob P. Kester and Lewis Bangerter. SECOND CLASS.—B. J. Rollins, John McCullach, Sr., Reuben Harrison and Eugene B. Davis.

TESTE: GEO. R. MONTAGUE, Clerk. March, 1862.

A PRACTICAL GUIDE TO HEALTH AND VIGOR.

THE NEW GYMNASTICS.

For Men, Women, and Children. With a translation of Prof. Kloss's Dumb Bell Instructor and Prof. Schreiber's Pongymnastik. BY DIO LEWIS, M. D., Proprietor of the Essex Street Gymnasium, Boston. With Three Hundred Illustrations. One volume 12mo. Price \$1.00.

PROSPECTUS OF THE ATLANTIC MONTHLY.

For 1862.

THE January number will commence the Ninth Volume of this Magazine. Its very large and still increasing circulation, is a gratifying evidence of public approval, and no industry will be spared to render the forthcoming volume adequate to the requirements of times so pregnant with great events as those of to-day. The life of the Republic, the best interests of the nation, demand of literature a more elevated and generous action, and the conductors of this journal will remit no efforts in enlisting the best talent of the country to support with vigor and eloquence those opinions and principles which brace the great public heart to stand firm on the side of Freedom and Right.

Among the contributions already in hand for 1862, the following will commend themselves as sufficient inducements for every family to provide the forthcoming numbers for household reading:

Professor Agassiz will begin in the January number a series of articles on Natural History, and other kindred topics, to be continued from month throughout the year. The name of so distinguished a man of science in connection with this announcement, is a sufficient guarantee of the great benefit to be derived from his monthly contributions.

A new Romance by Nathaniel Hawthorne, will appear in the pages of the Atlantic Monthly early in the year.

A New Story by late Theodore Winthrop, author of "Cecil Dreeme," will be commenced in the January number.

Dr. Geo. B. Whipple, well known for his remarkable experiments in Gymnastic, has written for the Atlantic Monthly, "The Antiquity of a strength Seeker," giving an account of his method of training for feats of strength, with advice on matters of health.

The author of "Life in the Iron Mills," and "A Story of To-day," will contribute a series of Tales during the year.

Articles by Prof. James Russell Lowell, on topics of national interest, will appear frequently.

Bayard Taylor has written a story which will be printed in the February number.

The Staff of Writers, in Prose and Poetry contribute regularly to the Atlantic Monthly, comprising, among its popular names, the following:

James Russell Lowell, Charles E. Norton, Henry W. Longfellow, George S. Hillard, Ralph Waldo Emerson, Henry Giles, Nathaniel Hawthorne, Rev. Walter Mitchell, C. C. Hazard, Mrs. H. B. Stowe, T. W. Higginson, Harriet Martineau, Author of "Life in the Glass, Bread and Iron Mills," and "Story of the Country Parson," of To-day, Rose Terry, Oliver Wendell Holmes, Harriet E. Prescott, John G. Whittier, Rev. Robert T. S. Lowell, E. P. Whipple, J. T. Rowbridge, Bayard Taylor.

TERMS: Three dollars per annum, or Twenty-Five cents a number. Upon the receipt of the subscription price, the publishers will mail the work to any part of the United States, prepaid.

Subscriptions may begin with either the first, or any subsequent number. The prices of the Atlantic are stereotyped, and back numbers can be supplied.

CLUBBING ARRANGEMENTS. Subscribers to pay their own postage. Two copies for Five dollars; Five copies for Ten dollars; Eleven copies for Twenty Dollars. Postage 56 cents a year.

Inducements for subscribers. Lists of Premiums, etc., furnished on application to TICKNOR & FIELDS, Publishers, 135 Washington St., Boston.

WAVERLEY MAGAZINE.—For Family Amusement and Instruction. Edited by Moses A. Dow. This paper is the largest Weekly ever published in this country. Its contents are such as will be approved in the most fastidious circles—nothing immoral being admitted into its pages. It will furnish much reading matter almost any one can find time to peruse, consisting of Tales, History, Biography, together with Music and poetry.

The paper contains no ultra sentiments, and meddles neither with politics nor religion, but it is characterized by a high moral tone. It circulates all over the country, from Maine to California.

TERMS.—The Waverley Magazine is published weekly by Moses A. Dow, 5 Liberty Street, Boston, Mass. Two editions are printed, one on thick paper for Periodical Dealers at 6 cents a copy, and an edition for mail subscribers (on a little thinner paper, so as to come within the low postage law) at 29 cents, or \$1.00 for six months, payable in advance. Clubs, by mail, six papers six months, \$5.00. Paper stopped when the last number paid for is sent; a new volume commences every July and January. But if a person commences at any number in any volume, and pays for six months, he will have a complete book, with a title page, as every paper is complete in itself.

When a subscriber orders a renewal of his subscription he should tell us what was the last number he received, then we shall know what number to renew at without hunting over our books. Otherwise we shall begin when the money is received. Persons writing for the paper must write their name, post office, county and state very distinctly. Those who wish their papers charged should tell where they have previously been sent. Postage on this paper is twenty-six cents a year, payable in advance at the office where taken out.

Clubs must always be sent at one time to get the benefit of the low price. We cannot send them at the club price unless received all together, as it is too much trouble to look over our books or keep an account with each one getting them up.

Any one sending us \$3.95 in advance, can have a copy of the "Waverley Magazine," and either of the following papers for one year by mail: "True Flag," "American Union," "Olive Branch," "Yankee Privateer."

All orders and communications concerning the paper should be addressed to the publisher, The Way to Success. The proper mode to subscribe for a year is to enclose the money in a letter and address the publisher direct, giving individual name with the post-office, county and state very plainly written, as post-marks are often illegible.

HOWARD ASSOCIATION, Philadelphia. A Benevolent Institution established by special Endowment, for the Relief of the Sick and Distressed, afflicted with Virulent and Epidemic Diseases, and especially for the Cure of Diseases of the Sexual Organs. Medical advice given gratis, by the Acting Surgeon, to all who apply by letter, with a description of their condition, (age, occupation, habits of life, &c.) and in cases of extreme poverty, Medicines furnished free of charge.

VALUABLE REPORTS on Spinastriches, and other Diseases of the Sexual Organs, and on the new remedies employed in the Dispensary, sent to the afflicted in sealed letter envelopes, free of charge. Two or three Stamps for postage will be acceptable.

Address, Dr. J. SKILLIN HOUGHTON, Acting Surgeon, Howard Association, No. 2 South Ninth Street, Philadelphia, Pa. By order of the Directors.

EZRA B. HARTWELL, President. GEO. FAIRCHILD, Secretary.

AYER'S

Ague Cure,

FOR THE SPEEDY CURE OF

Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, or Bilious Headache, and Bilious Fevers, indeed for the whole class of diseases originating in Biliary derangement, caused by the Malaria of malarious countries.

No one remedy is better called for by the necessities of the American people than a sure and safe cure for Fever and Ague. Such we are now enabled to offer, with a perfect certainty that it will eradicate the disease, and with assurance, founded on proof, that no harm can arise from its use in any quantity.

That which protects from or prevents this disorder must be of immense service in the country where it prevails. Prevention is better than cure, for the patient escapes the risk which must run in violent attacks of this baneful disease. This "Cure" expels the miasmatic poison of Fever and Ague from the system and prevents the development of the disease, if taken on the first approach of its ordinary symptoms. It is not only the best remedy ever yet discovered for this class of ailments, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body, and in billions of districts, where Fever and Ague prevails, every body should have it and use it freely both for extra and protection. It is hoped this price will place it within the reach of all—the poor as well as the rich. A great superiority of this remedy over any other ever discovered for the species, and a certain cure of Intermittents, is that it contains no Quinine or mineral, consequently it produces no quinism or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the malarious poison. A great variety of disorders arise from its irritation, among which are Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitation, Painful Affection of the Spleen, Hysteria, Pain in the Bowels, Colic, Paralysis, and Derangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "Cure" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to immigrants and persons traveling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the infection, that will be exerted from a system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure, and few will ever suffer from Intermittents, if they avail themselves of the protection this remedy affords.

AYER'S Cathartic Pills, FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the inner of their action can rarely withstand or evade them.

Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitality. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy so simple and unobtrusive.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Constipation, Headache, Rheumatism arising from indigestion, Stomach, Nausea, Indigestion, Flatulency, and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions. They are an excellent alternative for the restoration of the blood and the restoration of tone and strength to the system debilitated by disease.

AYER'S Cherry Pectoral, FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to require observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, and continues on the afflicted they can never forget and proved cures too numerous and too remarkable to be forgotten.

PREPARED BY DR. J. C. AYER & CO. LOWELL, MASS.

For sale by Beale, Setszer & Co.
