Charles C. Mellor,

SOLE AGENT FOR

Chickering & Son's

PIANOS!

WAREROOMS:

79 1-2 and 81 Wood Street.

THE PIANOS MANUFACTURED NOW by CHICKERING & SON'S, of Boston, are pronounced by the leading artists superior to any others. Any unprejudiced person who will give them a careful examination will come to the same conclusions.

The fact that Messrs. CHICKERING & SON'S dispose of more instruments than any other factory in the world, is itself one of the strongest arguments in their favor, inasmuch as their facilities for manufacture and ready demand enable them to sell at

Lower Rates Than Other Makers.

It is unnecessary to speak of the material used by Chickering & Sons to produce as durable an instrument and as elegant in its exterior as they do. No such qualities can be produced without the BEST and the first of workmen.

EVERY INSTRUMENT FULLY GUARANTEED.

☞ Descriptive Catalogues furnished on application.

Instruments of other makers, and different styles, always in my present extensive warerooms.

Prof. JOS. EBERT,

My authorized Traveling Agent, will visit this locality from time to time and cheerfully communicate all desired information.

GREAT REDUCTION

In the Expense of Drilling Oil Wells.

G. WHITTIER & CO., OF PORTSMOUTH, Ohio, are manufacturing the best, cheapest and speediest Drilling Machines in the world for boring Oil, Salt or Artesian wells. They have been thoroughly and successfully tested for eight years, in boring through the hardest flint and lime rocks. By the peculiar construction of the tools, no reamer is required, and if kept in order cannot stick fast, therefore require no jars. The arrangement for hoisting tools and sand pumping are perfect. The expense of engine is dispensed with, one horse and two men being all that is necessary for drilling from twenty to thirty feet per day, through ordinary rock. All necessary tools and 600 feet of rope are furnished with the machines. Total weight of machines, near 2500 pounds. They are easily transported, and can be set up in an hour. The price, with everything complete, and full instructions, is $800, delivered on boat or cars. These machines are simple in their construction, durable in their use, scientific in their operations, and easily attended and kept orderer, and must therefore very soon supersede all other machines for drilling deep wells, as all who use them testify.

The Latest News.

BY TELEGRAPH.

By the Union Line:
Office, corner of Main and Monroe streets

Miscellaneous News.

NEW YORK, Feb. 28.—The Tribune's Washington special says: There was a protracted session of the Cabinet yesterday, at which all the members were present. Rumors are in circulation that a serious difference of opinion exists between the Secretary of the Treasury and the Comptroller of the currency, both in respect to financial policy and the new political phases.

The statement which has gained currency that the St. Louis Postmaster was refused confirmation on account of an unfriendly feeling toward the President and that his rejection was intended as a rebuke to the President, is untrue. It was ascertained that the gentleman nominated for that office was personally hostile to both of the Missouri Senators, and in accordance with a long established usage of that body he was rejected upon that circumstance and none other, and the President was so informed.

The World's Washington special says: A bill prepared in accordance with suggestions of the Secretary of the Navy to regulate the appointment of certain volunteer officers in the Navy, has been considered. The House Naval Committee agreed to report it to the House. It provides that in time of peace the number of Rear Admirals of the active list of the Navy shall be reduced whenever any officer of that grade shall be removed by death or resignation, or otherwise, and such removal shall not create any vacancy to be filled so long as peace continues. That promotion to the grade of Rear Admiral on the retired list shall be made by the selection by a board of Rear Admirals of three commodores from the retired list as most worthy in point of character, ability and honorable service, one of whom shall be selected by the President and sent to the Senate for confirmation. That of the number of line officers of the Navy on active service, five Lieut. Commodores, twenty Lieutenants, fifty Masters and seventy-five Ensigns shall be appointed from those officers who have served in the volunteer Naval service for ten years. A board of officers is to examine and select the candidates. Any officer who has served for two years has the right to appear before the board and be examined for appointment in the regular navy.

After the constitutional amendment is disposed of to-day the House will take up the loan bill, and will probably pass the substitue offered by Mr. Stevens for the regular bill from the ways and means committee. The substitute restricts the the discretion of the Secretary of the Treasury and omits the foreign loan clause.

The Times' Washington special dispatch says:

Next Sunday will complete one year since the Senators from Tennessee, Messrs. Fowler and Patterson, were elected to their seats in the United States Senate. It is hardly possible that these gentlemen will be permitted to take their seats before their first Senatorial year shall have expired. The indications are that three-fourths of the Senators will vote in favor of admitting the Tennessee members when the motion comes up.

NEW YORK, Feb. 28.—Wm. Lloyd Garrison delivered an address in Brooklyn last evening. He denounced the President's policy in severe terms. He thought that Secretary Seward might better have fallen under the hand of the assassin Payne than to have participated in last Thursday evening's meeting at Cooper's Institute.

The Herald's Washington special says the streets are full of rumors of cabinet changes. Gen'l Butler's arrival at this particular juncture was surmised by some to have been determined by the late break between the President and his cabinet, and not a few believes he confidently expects a place should any vacancies occur. His real business here is to defend the government in one or more suits brought up from Indiana for doubtful or illegal exercise of authority and power.

The Herald's Washington special says: Some time ago a board of officers was appointed to examine applicants for the vacancies among officers of the regular army as it now exists. There were about four hundred and fifty places, for which 8,000 applications were made. Something like 280 deserving soldiers, many of whom had served years in the army, passed examination before this board. It is stated, however, that the real nominations for the places have been made from among candidates presented by Congressmen, and who have not passed the board. These nominations were sent to the Senate yesterday for confirmation.

WASHINGTON, Feb. 28.—The Ways and Means Committee have agreed to report a bill providing for a tax of five cents a pound on cotton, and allowing a drawback on manufactured goods exported; also a bill exempting from taxation all incomes under $1000 dollars, and taxing all above that amount at a uniform rate of 5 per cent.

The Commercial's special says:

If Mr. Bingham presses the constitutional amendment to a vote it will be defeated.

Alex. H. Stephens is expected at Washington this week.

NEW YORK, Feb. 28.—The bank commissioners have returned from Washington, having accomplished the object of their mission to the Secretary of the Treasury and Treasurer. The average deposits of banks are to be taxed after the amount of checks drawn against account each day is deducted. The gross deposits will be retained and a separate account of uncollected checks will be kept, placed to the credit of the banks.

NEW YORK, Feb. 28.—The Herald's Washington correspondent writes:

It is understood that during the late excursion of Secretary Seward to the West Indies, he selected a harbor in the island of St. Thomas to form a rendezvous for our National vessels, and that negotiations with the Danish authorities have resulted in securing us the same, which will be of immense value to our government in case of a foreign war.

ALBANY, Feb. 28.—The stove founders of Albany, Troy, and Buffalo held a meeting at Troy last evening, for the purpose of taking initiatory steps toward a national organization for the purpose of resisting the demands of the iron moulders of the nation, and taking such steps as shall protect their mutual interest. The meeting was fully attended.

LOUISVILLE, Feb. 27.—The Fenians had an imposing torch-light procession to-night and an enthusiastic meeting at the court house. Some $4,000 were collected. Judge Johnson presided. Speeches were made by Daly, Fitzgerald and Brennan.

ST. LOUIS, Feb. 28.—The loss by the burning of Obermyer's mill yesterday morning was $75,000 instead of $35,000, as previously reported, and insured for $28,500.

The President and Col. Forney.

Special to the New York Commercial.

WASHINGTON, Feb. 27.

The President's interview with Governor Cox is regarded as displaying his desire to remain in allegiance with the Republican party.

His views will be met by a working majority of Republican members in both Houses of Congress.

A much better feeling prevails to-day. A breach will be avoided between the radical and conservative elements of the Republican party and the President, and the unity of the party will be preserved.

Forney is out in the *Chronicle* with a furious article against the President, but he does not reflect the policy of the majority in Congress.
