The Intelligencer

WHEELING, W. VA. TUESDAY MORNING, MARCH 19, 1872. NO. 176.

BY TELEGRAPH. ASSOCIATED PRESS REPORT.

42d CONGRESS.

WASHINGTON, March 18.

HOUSE.

Under the call of States several bills were introduced.

By Mr. DUNNELL, concerning the lands granted for a railroad from St. Croix to Lake Superior, allowing settlers who paid two dollars and fifty cents per acre to the government for land under sections to enter equal quantities in old numbered sections without cash.

Mr. HOOPER's supplementary civil rights bill came up, but so much time was consumed on dilatory motions, the bill went over.

Mr. WOOD, of N. Y., offered a resolution for the disbursement of the treasury balance.

Mr. KELLEY, of Pa., moved to suspend the rules and read the report of the Select Committee on the bill to contract with the proprietors of the Congressional Globe for reporting and publishing the long debates in Congress for two years.

Mr. BEATTY opposed the motion, but the rules were suspended and the bill taken up—yes; yeas 63.

After some discussion and several votes the bill was passed.

SENATE.

Bills were introduced: by Mr. HITCHCOCK, authorizing the construction of a bridge at Nebraska City; also, granting Ft. Kearney as a military reservation to Nebraska, for the benefit of the State debt and fund and insane asylum; by Mr. KELLOGG, to aid in rebuilding levees on the Mississippi river; by Mr. PERRY, providing that the States of Indiana, Illinois and Ohio shall have their accounts settled in regard to the loss of their March 30, 1867.

Mr. CARPENTER presented a memorial from 1,500 officers and soldiers of Wisconsin regiments, asking for the modification of the land laws in favor of the soldiers.

Mr. MORRILL, of Vermont, from the Committee on Public Buildings and Grounds, reported and asked to be discharged from the further consideration of the resolution of the Legislature of New Jersey, proposing that the United States purchase Independence Hall, and that the purchase money be used by Philadelphia to erect buildings for the centennial anniversary.

The nomination of Parker to succeed Longstreet as Surveyor of the port of New Orleans, is not to be acted on for several days.

The committee in opposition to Parker have arrived, and will have interview with the President this afternoon.

Mr. CONKLING called up his resolution asking the President for a statement of the recommendations to office made by the Senators of New York, Illinois, Missouri and Nebraska.

Mr. FENNER said he would vote for it as his colleague thought it necessary for his vindication, and he would vote also for the amendment offered by Mr. TYRON, extending the inquiry to all Senators.

Mr. TYRON's amendment was rejected. Yeas 34; nays 29.

Mr. CONKLING said he would modify his resolution in accordance with Mr. TRUMBULL's amendment offered some days since.

Mr. TRUMBULL said the resolution was unworthy of the Senate and was a slur on his enemies' words, that he was too proud to put his recommendations on paper, that he made them orally to the President or to his family.

Mr. CONKLING said the resolution as modified would call for information on that subject too.

Mr. TYRON said it was not to be expected that the administration would give a list of his family.

Mr. HILL moved to lay the resolution on the table. Lost, 22 yeas, 24 nays.

Mr. TRUMBULL offered amendments asking the departments to distinguish between recommendations and newspaper applications for relief of applicants.

The Senate then took up the Chicago bill. Mr. WADSWORTH advocated it, and said he believed it to be constitutional.

Mr. FERRY, of Mich., opposed it.

Mr. CARPENTER supposed the bill was unconstitutional, and that if passed it would not benefit the poor, but only the nabobs of Chicago.

Mr. LOUGHRAN argued that the bill was constitutional. He said that this talk about the nabobs of Chicago arose from the prejudice of small towns like Milwaukee, against that great city. [Laughter.] The Senate went into executive session and soon after adjourned.

Desperate Fight on a Mississippi Island.

MEMPHIS, TENN., March 18.—A desperate fight occurred on President's Island, a few miles below this city, yesterday. Deputy Sheriff Rodegan went there for a negro woman, who had been arrested for a crime. She was met by a large body of negroes who were armed and proposed to assist in the arrest, but they stated that White had harassed their cabin and would make a desperate fight. Rodegan approached the cabin and demanded the surrender of White, who refused, saying he would be murdered by the negroes if he did. After some further parleying one negro approached the cabin and was shot dead by White. In a few minutes he shot another, and also secured his gun, but was wounded. He retreated to his cabin, from which he opened a sharp fire, wounding four others. Rodegan, seeing that it was impossible to dislodge him, sent to the city for assistance. Deputy Sheriff Mike Pyle summoned a posse, went over and proceeded to take means to burn White's cabin, on seeing which he surrendered. After his arrest it was with great difficulty that the negroes were kept from shooting him, even threatening to shoot the officers if he was not delivered to them. White was brought to this city and jailed. He has served a regular term in the Third Cavalry, and it is said he killed several men before this.

Wilson, of Iowa, for Vice President.

NEW YORK, March 18.—A special from Washington to the Times says the friends of James F. Wilson, of Iowa, are very active in a movement to secure his nomination for Vice President at St. Louis. A prominent Iowa politician stated recently in this city that he was positive President Grant favored the nomination of Mr. Wilson for the position.

CINCINNATI.

The Redistributing Controversy.

CINCINNATI, March 18.—The case of contempt of the Mayor and the redistributing commission before Judge Cox, was today postponed until Friday, on account of the absence of counsel for the plaintiff.

Terrible Boiler Explosion—Three Men Killed and a Distance of Half a Mile.

CINCINNATI, March 18.—At half-past two o'clock this morning a fire bell rang from Liberty street, and it was not long till the whole city was shocked by the intelligence of the most terrible boiler explosion ever experienced; perhaps in the most singular in the history of casualties. The battery of two steam boilers in the soap and candle factory of Messrs. C. & C. occupying the large front at No. 408 Central avenue, exploded with an unheard-of violence. In the factory there were about eighty persons. Two of these were horribly mangled and two more slightly wounded, but all the others escaped. On Baymler street, over a half mile distant by measurement on a line, lies a little girl in a front yard were jumping over a six-foot high wall. She was hurled all that distance over the house-tops on her head. Two were killed instantly, the third is mortally wounded, but is not yet dead. This piece of the boiler is a cylinder of 14 feet 4 inches long and 4 inches in diameter. It weighs about a ton. Persons who saw it looked like a hot iron ball, and it was hurled all that distance over the house-tops on her head. Two were killed instantly, the third is mortally wounded, but is not yet dead. This piece of the boiler is a cylinder of 14 feet 4 inches long and 4 inches in diameter. It weighs about a ton. Persons who saw it looked like a hot iron ball, and it was hurled all that distance over the house-tops on her head. Two were killed instantly, the third is mortally wounded, but is not yet dead. This piece of the boiler is a cylinder of 14 feet 4 inches long and 4 inches in diameter. It weighs about a ton.
