

speaking for Grant Thursday Night. It will be seen by advertisement elsewhere that the people of Wheeling are to be addressed Thursday evening on the political issues involved in the Presidential campaign, by Ex-Gov. W. E. STEVENSON, of Parkersburg, and Hon. JOHN S. CANLIS, of Harrison. Our people have not been harassed much this season by political meetings or party demonstrations, and they might afford to turn out and have one rousing meeting before the election, which is now only one week distant.

The Parkersburg Times noticing the recent announcement that several thousand Frenchmen from the recently Germanized provinces of Alsace and Lorraine were about to settle in Virginia, expresses a well founded disgust at the stupid, Japanese policy of exclusiveness that has characterized the authorities of this State up to the present time in respect to immigration. The Times is caustic on the Charleston Courier, for its pretentious utterances on the subject last winter, and concludes as follows:

"When we look back at the history of this question in this State for the last eight or nine years, we think that it is almost time for common decency's sake, that the matter was at last dropped and the word immigration finally stricken from the catchword of our State policy. Nobody in the State was ever in true earnest about it, except our adopted citizens themselves, and we are prepared to meet any contradiction of this statement with an array of facts that will forever silence such tardy hypocritical professions as have lately gushed from the incontinent of the most sincere and constitutionally inveterate foes the cause of immigration ever had in the State."

There are sad down in Greentree, as we learn from the Independent. That journal regrets to know that a number of good and true men are hesitating in regard to their duty, in the matter of voting for President. "We still more deeply lament to know," continues the Independent, "that there are a few among us who openly say that they prefer GRANT to GARFIELD." This, as we interpret it, means that a good many Democrats in Greentree will not vote for GARFIELD. We have reason to believe that a similar state of affairs exists in all the counties of the State.

The Register proposes to carry this State for GARFIELD and DOWN by twenty thousand majority. If we remember correctly, the Register's majority for CAMDEN before the election was just twenty thousand. We shall be content if West Virginia gives GRANT the same majority it gave Jacob, but should not be surprised if it does better. You see, in the language of the Greentree Independent, "good and true men [Democrats] are hesitating in regard to their duty," and good and true Democrats who hesitate in political matters are lost. That may be set down by our neighbor as an axiom worthy of confidence.

The Register don't know anything it can do with our legal correspondence who writes about the Congressional complication but to sneer at him. If it could answer his argument the Register would find it necessary to sneer at him.

We would not be surprised to find the Intelligencer insisting that the 5th of November is not the proper day for the choice of Presidential electors in this State.—Register.

Yes, if our candidate should be beaten, we shall insist that the fifth was not the right day, just as you did in the matter of the August election for a Congressman in this district.

At DeKalb, Ills., Friday, an aeronaut had a balloon ready to ascend, when he had entered the car, it broke loose and flew upward. A hanging rope caught around the leg of a man named McMan, and carried him up a height of about a hundred feet, when he managed to climb into the basket. When the balloon had reached a distance of four hundred feet from the earth, McMan deliberately jumped out and was picked up dead.

The Parkersburg Journal reports that Hon. JOHN J. DAVIS is expected to make an O'Connor speech there before the election.

COMPOSERS ON LIBERTY PAPERS say they make two thirds more wages per week since the election. They have the word "Frank" stereotyped, and as half the reading matter in Greeley papers is now made up of that word, the printers set up a column in less than no time. It is ill-will, etc.

A MAN recently broke off a marriage because the lady did not possess good conversational powers. A wicked friend commenting on the fact, says: "He should have married her, and then refused her a new bonnet, to have developed her power of talk."

"If apples are worms this year, and grapes mildew, and ducks' eggs addled and bladed corn be lodged, it may all be ascribed to the unwholesome influence of Mr. Titton's 'Life of Victoria Woodville.'"—Tribune, September 11, 1871.

Temperance Movement in Jefferson County.

A temperance meeting was held at Charleston, Jefferson county, on the evening of the 23d, which was addressed by Rev. Dr. ANDREWS and C. T. BUTLER, of Shepherdstown, who have been holding meetings in other parts of the county. The Free Press says of Dr. ANDREWS' remarks: "He denounced the present license system as false in principle and a failure in practice—therefore abortive in its object. The only way to stop the traffic was in favor of a more stringent license law, such as has been adopted in Ohio and Illinois, the gist of which system makes the liquor seller responsible for the evil growing out of his traffic. He is put under a very heavy bond, made sure by ample security that he will not break the law, and if by the sale of his liquor a husband, child, ward, etc., is injured in any way, damages can be recovered from him by proper process in a court of justice; for which damages his bondsmen, and even his property in which he sells is made liable.

The following resolutions were adopted by the meeting: "Whereas, There are now licensed within the county of Jefferson 97 persons for selling intoxicating liquors, besides Druggists who can sell for medicinal purposes without license. And whereas, It is manifest that the multiplication of groggeries is never contemplated by the Legislature, and is obviously a nuisance which ought to be abated. Resolved, That the County Court of Jefferson, about to be inaugurated, be respectfully but earnestly requested to reduce the number of such licenses at least to one for each Township, and that said Court see to the execution of existing laws intended to regulate the sale of liquors, whether by licensed dealers or by Druggists as prescribed for the Court and Grand Jury by the law itself.

The following petition is circulating in the county, and has received about a thousand signatures: "To the Honorable 'The Legislature of West Virginia'—A Petition: The undersigned citizens of West Virginia, respectfully but earnestly request, and petition your honorable body to take into consideration the laws relating to the sale of intoxicating liquors, together with the fact of their notorious and utter inefficiency. These laws are violated daily and openly, while no single prosecution therefor, within our knowledge, has ever taken place or from the case is probable notwithstanding the penalties suffered by the community in health and life, and fortune, and morals.

Touching the question of "rights" your honorable body are probably aware that it has been ruled by the Supreme Court of the United States, every Judge delivering an opinion to the same effect, that no man has a "right" to sell intoxicating liquors. It is a "privilege" which may be regulated, restrained or "entirely prohibited," as it may deem best for the good of the community. The old license system has utterly failed. The prohibitory system, though much better, has but partially succeeded. We, therefore, pray your honorable body to enact a law similar in substance to those enacted in the States of Ohio and Illinois, copies of which in detail are herewith communicated.

It will be observed that the special features of these laws, as also their distinguishing excellency above all laws heretofore enacted for that purpose, are the liabilities which they fix upon the seller of intoxicating liquors, to the parties injured thereby, and the ease and certainty with which they may and will be enforced without either any new judicial machinery or social or political disturbance. In view of the unmitigated nuisance of these grogeries, their terror to the parents of rising families and the untold miseries which they inflict upon the community, too well known to need recital, we think we have a right to look to the Legislature as our hope for protection. To you, therefore, in the name of humanity, we look, asking your favorable consideration of the documents herewith communicated, as also of this, our appeal, petition and request, and your petitioners will ever pray for the prosperity of the State of West Virginia.

ASSOCIATED PRESS REPORT.

Exclusively to the Intelligencer. (By the Western Union Line. Office Northwest cor. of Main and Monroe sts.)

The New York Tammany Ring Trials. NEW YORK, Oct. 28.—In the Hall trial to-day, Garvey's testimony was continued. He did not find a note from the Mayor acknowledging the presents of silver pieces and the figure of the fox and the grapes; and as the witness recollected, the Mayor said he looked less at the fox and more at the grapes. In the cross examination he said he could not remember telling the Mayor that his accounts were corrupt; he did not refer to the Mayor in using the words "the rest of them" in the former examination. The witness left the city September 21st, in his own name; he did not then know he was under indictment; he had heard of the civil suits; he and the Mayor never had any discussion or investigation of his accounts.

The master mason testified to the actual cost of Garvey's plastering. The Judge, however, excluded the testimony, saying the enlargement of Garvey's bills was conceded. A lawyer testified to bringing suit for Garvey's bills, July 11. In an interview with the Mayor the latter said he could do nothing for Garvey, and the suit must go on. Garvey did not want the failure of the Mayor to help him to interfere with their relations in the suit now pending.

Ex-Deputy Collector Storrs testified to the Mayor's signing all warrants for the Court House work. The prosecuting Attorney's question as to the Mayor's knowing the bills were excessive, was excluded, the Judge holding that after the accounts were passed on by another board, the Mayor had only to sign the warrants. The teller of the Broadway Bank was called to testify as to the deposits by Tweed, but after some discussion, as the prosecution said the testimony was very important, Judge Brady said he would exclude it. Counsel then proposed that Tweed and Connelly be called to the stand, but this was excluded.

This closed the case for the prosecution. Hall's counsel then asked if, after such showing, it was proposed to prosecute the case. The prosecution replied, "Yes, on certain conditions." The remainder of the day was occupied in consultation by counsel.

Socialism in Germany.—A New School Started. NEW YORK, Oct. 28.—Mail advices say that a new school of political economists called Cathedra Socialists by their opponents, had a session. Eisenach, Germany, October 18. This clique consists mainly of professors, lawyers and merchants. There were also among them editors, members of the Chamber of Deputies and delegates from the Trades Union and Workmen's Association. After two days' discussion moderate resolutions were passed recommending that the factory laws be properly carried out; that the hours for work for children be further reduced; and that special laws be passed for married women. They insisted that the right of workmen to combine for their own aggrandizement should be recognized; that the Trades Unions should be legalized; and that boards of arbitration should be established.

Mysterious Suicide at Erie. ERIE, Pa., October 23.—A stranger, registering his name as Louis Patterson, of Baltimore, died this morning at the Ellsworth House, in this city, from an overdose of morphia, administered by himself. He leaves nothing by which to identify him, the name upon his clothing having been carefully blotted out. A quantity of laudanum and a considerable quantity of morphia were found in his room. The suicide is supposed to have been premeditated. He was tall, muscular, well formed and finely dressed, and about 28 years old. The letters "L. P." were found in a letter in each room. He came to the hotel on Thursday last, seemed in perfect health and exhibited no symptoms of insanity. His condition was discovered two hours after his death.

The Mexican Border Troubles. HEAD OF TEXAS RUFFIANS INTO MEXICO. NEW YORK, Oct. 28.—A special from Washington says that telegraphic news has been received there of a raid along the Mexican border a few days ago by a gang of American marauders living along the Rio Grande, on the Texas side. The sole object of the raid seemed to be to plunder, and when the Mexican officers attempted to impede their progress, the ruffians murdered Alcaide and several Mexicans, and set fire to and completely destroyed all the houses in the town. During a fight which ensued, two of the Americans were killed. Steps have been taken by the military authorities along the border to arrest the entire gang, in order that their lawlessness shall not go unpunished.

At a meeting of the Deputies constituting a majority of the Cortes, it was resolved that Senor Becarria's motion for the abolition of the death penalty for political crimes should be withdrawn. A proposition was also introduced in the Cortes to permit the use of cipher words in telegraphic dispatches, which has hitherto been forbidden under the censorship.

GERMANY. BERLIN, October 28.—There is a conflict between the Upper and Lower Houses of the Prussian Diet on the return bill, which provides for local self-government in the rural districts. The bill which was adopted by the Chamber of Deputies in the last session, came before the House of Lords at the present session, and has met since with determined opposition. The majority of the Deputies threaten to resign if the Upper House refuses to pass the bill, and the Emperor has declared in favor of the present bill.

McWilliams testified that since the trial had commenced a person named John Saunders had been to him and informed him that he (Saunders) had sent Doyle to see Mrs. Devereux to obtain information which would lead to the arrest of Chamberlain, who is said to have participated in the bank robbery. McWilliams gave his reason for going away that he did not want to be locked up in jail, and that he was going to Montreal to get evidence which would clear himself. On arriving at Fort Henry he changed his mind and returned.
