

The Intelligencer.

THE Kanawha Chronicle calls attention to the fact that the (so-called) Board of Public Works, created by the Legislature in violation of the State constitution, has appointed five members of that body as directors of the Hospital for the Insane, and made other similar appointments, among which it might have mentioned a superintendent of the Penitentiary. The Chronicle remarks that the constitution having provided that officers shall not be elected or appointed by the Legislature, it would seem that this provision should be construed to mean, in connection with other provisions, that the Legislature should not, directly by its own vote, or indirectly by a board created, like the Board of Public Works, by its own vote, elect its own members to office. It is not to be presumed, of course, that these appointments by the Board were the result of any corrupt understanding between those made to compose it, and those members of the Legislature by whose votes the Board was created; but the gross impropriety of such appointments, or their acceptance, under such circumstances, is too obvious to need special explanation. If the Legislature may usurp the powers of the Executive by taking the appointments from him and absorbing them itself by the use of an agency of its own creation, it may in this way absorb all the patronage of the State either by the direct appointment of its members to office by its agent (which is in reality by itself) or by the appointment of persons who will make the places entirely subservient to their uses. It was to prevent just this dangerous and corrupting state of affairs that the Convention inserted a special prohibition in the constitution against the exercise of any such appointing power by the Legislature.

"WEST VIRGINIA gone to the Devil" is the startling headline of an editorial in the Moundsville National, and the editor explains in a column article how it has happened. We have room for only a single paragraph, which the National prints in italics: Robbery is encouraged, thievery provoked, no man can feel secure as to the safety of his property or the results of his labor. Free speech is muzzled, the press is hand-cuffed and plundered, the right to buy and sell is destroyed. From time immemorial in a Republic, the press has been free from all such encroachments. Not so under the oligarchy of traitors and despots. This is a pretty bad state of affairs; and it is high time something was done to rescue the young and growing commonwealth.

The third number of a neat, sharp little paper called The Green Brier has been issued at Lewisburg by B. Burke & Co. Mr. Burke is editor of the Monroe Register. The Green Brier is Republican in politics. The editor says he does not belong to the Republican party any more than the party belongs to him; but he agrees with it and therefore supports it.

PRESIDENT PENDLETON, of Bethany, is out in an able article in the Wellsburg papers, urging unwavering reasons why the people of Brooke county should vote the \$15,000 requisite for the completion of the P., W. & K. Railroad. The election will occur on the 12th.

The corner stone of the Moundsville Hoisting Mill was laid with appropriate ceremonies last Tuesday, and the people there are now confident the enterprise will be speedily completed.

Our old friend, Ex-Judge McWhorter, has been appointed County Superintendent of schools in Greenbrier.

PRECEPT AND PRACTICE BY VASSAR.—The correspondent of the New York Times, who is attending the commencement exercises at Vassar College for young ladies, writes:

In the Vassar catalogue, under the head of "Social and Domestic Regulations," it says: "It is especially desired that the use of the initials shall be simple and inexpensive. That is all very nice, but when one considers the fact that to-day several of the graduating class wear dresses which could not have cost less than \$300 or \$500 each, the desire of the college authorities seems not to have been recognized, and it is especially regrettable that the use of denying the fact that it requires at least \$1,000 per year for four years to put one's daughter through this institution, and this fact associates many who come here, and it also places an insurmountable barrier before the daughters of parents of limited means.

HUN INTO THE "ARITH."—The continuation of quips, quarks and quiddities about the "good Deacon Quirk Smith" as published in the New York Sun and republished in the Cincinnati Commercial is becoming very tiresome, and it is time that the editor of the Sun should stop it. The editor of the Commercial may experience some gratification in coming to any definite terms. Mr. Keyser, one of the Vice Presidents of the Company, stated to the Commissioners that they were anxious to make some arrangements whereby all litigation in the future between the Company and the county will be avoided, but that they were not prepared at this time to make or consider any proposition without an attorney. Mr. Keyser will judge Lee, their counsel. Mr. Keyser is in Moundsville inside of twenty days, when we think it likely that an amicable settlement will be effected.

ASSOCIATED PRESS REPORT. Exclusively to the Intelligencer. (By the Western Union Line. Office Northwest cor. of Main and Monroe sts.)

THE EXPLOSION AT VIRGINIA CITY.

Full Particulars of the Terrible Affair.

SAN FRANCISCO, June 30.—The officers of the Giant Powder Company of this city have been ascertained definitely that the terrible disaster at Virginia City was not caused by the explosion of Giant powder, but by nitro glycerine which they think Van Bakker and others were experimenting at the time of the explosion. The following particulars of the explosion at Virginia City, Nevada, were received last night: A terrible explosion of nitro glycerine and Giant powder, occurred near the corner of Taylor and B streets, killing ten persons and wounding many others. A number of persons are missing and are probably buried beneath the debris. The explosion is supposed to have been caused by a can of nitro glycerine exploding without any apparent cause, and the concussion, exploded fifty pounds of Giant powder, which was stored beneath the room of Gen. Van Bakker, the agent for the Giant powder. The following buildings were shattered and thrown to the ground: Bank of California building; Kennedy building, upper apartment used as a lodging house; Dalley's saloon and Armory hall. The number of persons known to be killed are ten, among whom are Major Gen. Jacob T. Van Bakker; J. P. Smith, hardware merchant; W. M. Davis, clerk with J. F. Smith; Ben. Mendel, grocery merchant; Charles H. Knox, San Francisco; John Devine and Mrs. Emily Conner, formerly of the International Hotel of this city; Mr. Edward D. Hill and daughter 8 years of age, Gold Hill. The body of Gen. Van Bakker was found in the corner of his room, his features so bruised and charred as to be hardly recognizable. J. P. Smith and his former clerk were found in Taylor street between B and C streets, about fifty feet from the room occupied by them, both their bodies covered with debris and fallen timber and not got out till this afternoon. Some firemen saw Mr. Knox last night and spoke to him. He asked for water and said: "Bring it to me; you can't save me." The body, with the exception of his head, was entirely covered by a distance of about one hundred feet. A large number of workmen are now engaged removing the debris and timber. Some of the bodies of the remaining seven known to be beneath them, and are working with almost superhuman efforts. The buildings in all directions are shattered, and many escapes were truly miraculous. Sam Doak and Charles Higgins were thrown down from their room in the Douglas building, by the explosion, and were got out with difficulty, both slightly injured. D. L. Blanchard was thrown from his room to another several yards distant escaped with slight injury. Great excitement was caused last night by the screaming women on top of the Douglas building, which was at that time in flames. They were finally rescued by Gen. Frank Asbury, assisted by the firemen. Another explosion took place this morning at 10:30, in the rear of Kennedy & Malone's store, but no person was injured. The body of Chas. H. Knox has just been taken from the timber, and is horribly charred and mangled. The city is all excitement. Business is suspended and all the schools are dismissed. The streets are crowded with women and children. Ropes were drawn across the streets, as the buildings are considered dangerous. The vault of the Bank of California is cracked in several places, the business is moved to Driscoll & Trindle's banking house. It is now understood that there will not be any celebration on the Fourth of July and that the money collected for that purpose will be expended in burying the unfortunate and the remainder to be distributed among the different companies. The city will go into mourning, all the flags are now at half-mast. Joseph Shannon, Dan Lyon, Charles Van Gorder and Senator Hobart, who were reported killed, are all safe. It is now ascertained that Van Bakker had stored beneath his room six cans of nitro glycerine, 250 pounds of Giant powder and 200 pounds of rock blasting powder. SAN FRANCISCO, June 30.—The officers of the Giant Powder Company to-day, have ascertained definitely that the terrible disaster at Virginia City was not caused by the explosion of the Giant powder, but by nitro glycerine which they think Van Bakker was experimenting at the time of the explosion.

APRAGED FOR WIFE MURDER.

CHICAGO, June 30.—A farmer named Wendell Dallon, on the Illinois Central Railroad, sixteen miles from Chicago, is under arrest for the supposed murder of his wife. He says that she got up on Sunday night to drive some cows out of the garden, and not returning, he went in search of her. Being unable to find her, he thought he would find her dead in the house, and he was held to await the coroner's verdict.

THE NEW YORK BILLIARD TOURNAMENT.

NEW YORK, June 30.—The first of the games in the Billiard Tournament was played this afternoon, resulting as follows: Garnier 300, average 7.84. Day 257, average 6.57. Time of game, one hour and forty-five minutes. The game started between Cyril and Dion Garnier, and will close with a score of 1000. Dion's 148, average for Garnier 10.29, Dion 5.7.

Three Men Drowned.

EVANVILLE, June 30.—Charles Martin and George Precepts fell overboard from the steamer Mary Ament, at the mouth of Green river, to-day, and were drowned. A man named Lynch got into a fight with one named Murray on a wharf boat at this city, to-day, when they both went overboard and Lynch was drowned. Lynch was a steamboat hand and came here from Pittsburgh. Murray is in prison.

A Murderer Returns to Jail.

PORTSMOUTH, June 30.—Wagner, the late of Shulls murderer returned to jail this morning.

Schenck's Mandrake Pills.

These pills are composed exclusively of vegetable ingredients, although they entirely supersede the use of mercury, do not leave any of its injurious effects. They act directly upon the liver, and are a valuable remedy in all cases of derangement resulting from a disordered state of that organ, Liver Complaint, Bilious Disorders, Indigestion, Sick Headache, Typhoid Fevers, &c., &c., all succumb to the free use of Schenck's Mandrake Pills. For sale by all Druggists and Dealers.

NEW YORK CITY.

NEW YORK, June 30.—Frank Haverstraw, the German so brutally beaten on the evening of June 29, died Saturday night.

FOREIGN.

ITALY. Severe Earthquake in Northern Italy. Loss of Life and Great Destruction of Property. FLORENCE, June 30.—The violence of the earthquake yesterday morning was concentrated in the country north of Venice, where its effects were terrible both in loss of life and ruin of property. At Belluno, four persons were killed and many injured; at Fieve d'Alpago, several injured; at Torviscosa, two were killed; at Carago four; at Visnago two; at Casavalle one. Several churches are in ruins, many were badly shattered, and hundreds of houses have been levelled with the ground. The inhabitants have not yet recovered from their terror, and thousands are encamped in the fields, but there has been no recurrence of the shocks.

THE MINISTRIAL CRISIS CONTINUED.

ROME, June 30.—The ministerial crisis continues. The negotiations between Minghetti and Depietis have been broken off, and Minghetti will attempt the creation of a new cabinet out of the old majority in Parliament.

SPAIN.

MADRID, June 30.—A dispatch from the commander of the government troops at Seville announces that he has withdrawn his forces from the city to prevent a conflict between them and the citizens.

REMOVED NEW ORLEANS DUEL.

NEW ORLEANS, June 30.—A rumor is current here that Col. R. B. Rhet, Jr., chief editor of the Picayune and ex-Judge Cooley, have gone to Mississippi City to fight a duel. Cooley was counsel for the plaintiff in the recent suit.

THE YEAR'S INTERNAL REVENUE.

WASHINGTON, June 30.—The receipts from Internal Revenue for the fiscal year ending to-day were \$110,037,737; the estimate was \$110,000,000. Receipts for June, \$9,051,505.

FRANCE.

PARIS, June 30.—M. Jules Ferry, Minister at Athens, is recalled, and Gobrecht succeeds him.

PARIS, June 30.—President McMahon intends to ask the Commissioner of Pardons to remit the sentences of those Communists prisoners whose behavior has been unexceptionable since their conviction.

SIR SAMUEL BAKER'S EXPEDITION.

LONDON, June 30.—The government has received a dispatch from Sir Samuel Baker, dated Khartoum, May 29th, where he had safely arrived with the other Europeans in his command. He reports that the country as far south as the equator has been annexed to Egypt. The slave trade has been suppressed, and all rebellious movements and serious intrigues checked. The country is orderly, and its government is perfectly organized. A road has been opened to Zanzibar free from interruption. He won a victory on the 6th of May with only one hundred and five men over the army of the African Chief Onko. His mission has been perfectly successful.

WEATHER REPORT.

W. VA. DEPARTMENT. OFFICE OF THE CHIEF SIGNAL OFFICER. WASHINGTON, D. C., June 30.—8:07 P. M. PROBABILITY. For New England on Tuesday, fresh and brisk southerly to southwesterly winds, cloudy weather and rain are probable. For the Middle States, fresh and brisk winds veering to southerly and westerly, generally cloudy weather and rain with clearing weather over the western portion during the day and over the eastern portion during the evening. For the lower lake region, winds veering to the north westerly, with clearing, but with partly cloudy weather during Tuesday. For the South Atlantic States, winds veering to the southwesterly and westerly, with clearing weather. For the Gulf States east of the Mississippi and northward to Ohio, Indiana and Illinois, gentle to fresh southerly to westerly winds and partly cloudy weather. For the upper lake region, southwesterly to northwesterly winds and partly cloudy weather.

THE DEATH OF PRESIDENT GRANT'S FATHER.

CINCINNATI, O., June 30.—President Grant arrived early this morning, accompanied by his private secretary, General Babcock, and Thompson Dean, and proceeded at once to Lovington, where his father lies, and partly cloudy weather. The body will be interred at Spring Grove Cemetery.

BOILER EXPLOSION AT RICHMOND.

RICHMOND, June 30.—This morning one of the boilers in the drying kiln of the Tredegar Works exploded, killing Earl H. Sanders, fireman, and doing considerable damage to the building.

FATAL EXPLOSION IN HOOSAC TUNNEL.

NEW YORK, June 30.—An explosion of a box of powder in Hoosac tunnel, Sunday, killed four men, fatally wounded one and seriously another.

STEAMER NEWS.

RIVER AND WEATHER.

PITTSBURGH, June 30.—Heavy rain last night; rain steadily since 3 P. M. to-day. Monongahela 3 feet 3 inches and rising. Allegheny rising above.

Gen. Howard and the Freedmen's Bureau.

WASHINGTON, June 30.—The Attorney General has not yet prepared his opinion on the question submitted to him by Secretary Belknap as to the responsibility of General Howard, Commissioner of the Freedmen's Bureau. The question submitted by Secretary Belknap is whether General Howard as Commissioner of the Freedmen's Bureau is liable for the acts of his subordinates. Secretary Belknap has the utmost confidence in Gen. Howard, and believes him to be thoroughly honest, and expresses his opinion that he was surrounded by dishonest men and deceived by them; while he thus believes in the integrity of Gen. Howard, he was cautioned about them.

THE EXPLOSION AT VIRGINIA CITY.

SAN FRANCISCO, June 30.—The officers of the Giant Powder Company of this city have been ascertained definitely that the terrible disaster at Virginia City was not caused by the explosion of Giant powder, but by nitro glycerine which they think Van Bakker and others were experimenting at the time of the explosion. The following particulars of the explosion at Virginia City, Nevada, were received last night: A terrible explosion of nitro glycerine and Giant powder, occurred near the corner of Taylor and B streets, killing ten persons and wounding many others. A number of persons are missing and are probably buried beneath the debris.
