Many valuable discoveries and much useful knowledge is kept from the world, because of the immense expense in making them known to the people. This is not the case with Boschler's German Syrur, although but a few years introduced into this country its sale now reaches in every town and village in the United States. Its wonderful success in curing Consumption, severe Coughs, Asthma, and all other discases of the throat and lungs, was first made known by distributing every year, for three years, over 400,000 bottles to the afflicted, free of charge, by Druggists. No such a test of merit was ever given before to any other preparation. Could you ask more? Go to your Druggist and get a bottle for 75 cents and try it. Sample bottles 10 cents.
