

ESTABLISHED AUGUST 24, 1852.

The Intelligencer.

On Friday night last Weston was visited with a fearful storm of rain and hail, inflicting vast injury to corn, grapes and vegetables.

Pittsburgh is threatened with a water famine by the breakage of the valve chamber of the pumping engine on 13th street. It is feared that the damage is so great it will take three months to repair it.

We learn from the Moundsville Reporter that Mr. Lott H. Joy, Manager of the Ohio Valley Iron Works, while adjusting some wheels about the mill a few days ago, had the second finger on his left hand crushed almost entirely off. The accident was a most painful one.

The grocery firm of R. M. Bishop & Co., Cincinnati, suspended on Saturday. The cause of the suspension is attributed to shrinkage in real estate and merchandise, and the failure of smaller firms throughout the west and south to meet their engagements. The liabilities of the firm are \$360,000. A meeting of the creditors will be held in New York to-day.

The Baltimore Gazette says that the financial disaster that has overtaken Mr. J. H. McVicker, of Chicago, leaves Mr. John T. Ford, of Baltimore, the only solvent legitimate manager who has run an uninterrupted course in this country for a period of twenty-five years. All the old managers who were in the field when Mr. Ford began his career are either dead or are financially ruined.

DEATH OF LAFAYETTE DEVENY.—Mr. Lafayette Deveny, died at Cincinnati on Friday, and was buried at Spring Grove Cemetery at that place yesterday afternoon. Mr. Deveny was a native of Steubenville, and at the age of fourteen years was clerk on the steamer Mingo Chief, of which his father was Captain, running between Pittsburgh and Cincinnati. He afterwards ran on the North Carolina, Winfield Scott and other steamers. In 1854 he left the river and engaged in the railroad business and at the breaking out of the war moved to Cincinnati, where he became a successful cotton speculator. He was also prominently connected with the insurance business, and was at one time a member of the Cincinnati Board of Aldermen. At the time of his death he was manager of the freight pool of the Cincinnati, Hamilton & Dayton, and Indianapolis, Cincinnati and Lafayette roads.

NATIONAL BANK TAXATION. A correspondent of the Chicago Tribune, writing from Long Point, Ill., asks the editor of that paper the following questions:

Do the National Banks pay any tax or revenue to the Government? If so, what would a bank having a circulation of \$500,000 pay per year to the Government? Is there any nation having a circulating medium based on the proposition set forth by the "Brick" Pomeroy Greenbacks?

To which the editor of said paper replies as follows:

(1) The National Banks paid to the Federal Government in the year of 1877, \$6,998,926, of in round numbers some millions of dollars of taxes, and of State, county, township, and city taxes some think over six millions, or rather more than thirteen millions in all, which amounts to about four per cent on their circulation. (2) A bank having a circulation of \$500,000 of notes at a fair average amount of deposits and business, would pay about \$11,000 of Federal and \$9,000 of State and local taxes, or \$20,000 in all, or more than twice as much as farmers, manufacturers, stores, mills, houses, goods, and chattels, except whiskey and tobacco. (3) No nation in the world has a circulating medium of the kind advocated by the Sam Cary, Dan Voorhes, or Alexander Campbell "Greenbackers." The nearest approach ever made to the peculiar "wild currency" were the French assignats and the Confederate graybacks.

R. M. BISHOP & CO. SUSPENDED. Liabilities \$360,000.—Interview With the Governor.—Creditors Mostly Eastern People.

The news that the great wholesale grocery firm of R. M. Bishop & Co. had suspended spread swiftly over the city yesterday. On Change, on the streets, in stores, and everywhere, it was discussed by all sorts of people. Expressions of surprise and regret were general. There were some who had looked for it, but the majority of people seemed to be taken by surprise at the announcement and circulated that the liabilities were large, and that the creditors to considerable amounts were in the East.

The Commercial, in order to obtain as many facts as possible, in the most reliable shape, dispatched a reporter to the store on Race street. He found Governor or Bishop in his private office in consultation with his attorney, Mr. Sirmal, Hinson, Wm. T. Bishop, a member of the firm, was found to be absent in New York in consultation with creditors. An audience with the Governor was soon obtained. He was evidently feeling the situation keenly. There was perceptible, at times, a tremor in his voice as he conversed.

Reporter.—Governor, I have called to get such facts as you can give me on this subject to communicate. We, of the Commercial, do not desire to be sensational, but we want all the facts you will give.

Governor Bishop.—It is bad news to give, such as I never had to give out before.

Reporter.—You have suspended? Governor Bishop.—We go to protest to-day on \$150. It could have been paid, but under the advice of our attorneys we have suspended. Our firm has been in business in the city of Cincinnati over thirty years, commencing with but little if any capital. Through industry and attention to business we built up one of the largest wholesale grocery businesses in the city. Our sales for several years amounted to over three million dollars per annum. During all this period of thirty years we have never failed to meet an obligation, and have never suffered a single protest.

Reporter.—How has your trouble come about? Governor Bishop.—Our misfortunes are attributable to shrinkage in real estate and merchandise, and failures of customers to meet their engagements with us. I can give you an idea of how shrinkage in real estate has affected us. Several

BY TELEGRAPH.

ASSOCIATED PRESS REPORT.

TO THE DAILY INTELLIGENCER.

BOSTON.

Another of Boston's Best Citizens Falls,

And the Eliot Bank the Sufferer to the Extent of \$70,000.

Spoulation in California Mining Stocks and Assiduous Attention to a Ballet Dancer's Cause.

BOSTON, August 3.—The developments of the day in the shape of defaulters, embezzlers and the like, are not yet over it seems, and the last few days have brought still another to light, the individual in the case being R. B. Conant, Cashier of the Eliot National Bank of this city. Officially the bank discovered recently that matters were in a very irregular shape, and no minute investigation shows that Conant has been following the example of Hathaway, Chase, Tappan, & de Goozoo, and in a similar manner quite as heinous. Conant has hitherto sustained the best reputation for business integrity, but it is now discovered that he has a strong propensity to indulge in outside speculations, and it is through these that he has become a defaulter. The Directors of the bank, after a full investigation, have decided to resign his office as Cashier, and the office is now vacant, Conant having a day or two since handed in his resignation, as requested by the Directors.

It is thought that the bank may not be seriously affected, as Conant had given bonds to the amount of \$25,000, and his bondsmen are able to make the bonds good. Further investigation into the affairs of the bank, with special reference to the manner in which it is affected by the financial irregularities of Conant, develops the following particulars. The embezzlement here became a systematic overdraining on his account to meet increasing demands of outside speculations, which have been mainly confined to California stocks, in which he has been for some years largely interested. The recent rapid and material decline in these securities caused him to take advantage of his easy access to the funds of the bank, to which he helped himself to the extent of about \$70,000.

There are doubtless other methods than merely overdraining by which he has succeeded in victimizing the bank, as a recent agent, as the defalcation does not cover a period of more than a few months. Finding he had lost so heavily as to be unable to extricate himself from the predicament in which he had placed himself, he, in the vain hope of a lucky turn in the tide, voluntarily confessed his crime to the officers of the bank on Wednesday morning. He acknowledged that he had lost all, and expressed the deepest humiliation and penitence at the result of his unfortunate error.

The bank officials are satisfied that his crime was not premeditated, and that he threw into this whirlpool of ruin in the vain hope of saving himself from loss on the Western stocks. A glance at the books of the bank indicate that they were all right, and that Conant's speculations will be easily traced.

The United States Bank Examiner Billings was at once sent for, and is busy presenting his investigation. A detailed report will be made public early next week.

There is no doubt in the minds of parties most interested that the estimate given by Conant is substantially correct, and that the defalcation will not exceed the figures above quoted.

Conant is a young man, forty-six years of age, and has been in the employ of the bank for the past ten years as Cashier at a salary of \$4,500, which has recently been reduced to \$4,200. The compensation is \$1,200 more than is paid to the President of the same bank, the Directors having frequently expressed a desire to pay him so ample a salary as to preclude the possibility of his income falling short of his expenses. He had previously been clerk in the bank, and was highly esteemed and respected and has always enjoyed the fullest confidence of his employers. He owns his house and lot in Neponset, valued at \$4,000, and has in his possession a certain amount of California stock, which he has spent in loans to the bank. He has a wife and two children. The latest developments go to give the impression that Conant's fall was due to fast living, which was known to few of his most intimate friends. It is claimed on good authority here that a little over a year ago, Conant was introduced with a ballet dancer named Stella La Grille, whose real name is Ida G. Hastings, but who is known under many aliases. She made her debut at the Boylston Museum here, and traveled about in a quiet way with Conant, who spent money lavishly on her. Conant at one time presented her with a costly set of diamonds, and at any time, it is claimed, she could draw on him for \$500.

Conant's spendthrift ways and actions at the time struck a certain detective as rather queer, and the Chief of Police, O. C. Carpenter, Director of the Eliot Bank, it is said, were found irregular, but he promised to drop La Grille and would reform. Owing to his family and previous good character, the bank overlooked his misdoings and he was retained.

La Grille then went to Philadelphia, where she appeared on the stage as a ballet-dancer, but, subsequently, last summer went to Old Orchard Beach, near Haverhill, in Grand Isle, having a lady nurse and negress with her. Who paid the bills is a query. It is said Conant has been in the habit of seeing La Grille lately, and that she has not suffered pecuniarily at his hands. La Grille is about twenty-one, petite and attractive, plump and very pretty, and is now living at Providence, Rhode Island.

East St. Louis Unhappiness. ST. LOUIS, August 3.—The Application by the charter of Wider City Council of East St. Louis, for an injunction to restrain Mayor Bowman and all the members of the Council, and the city officers, from exercising the functions of their various offices, came before Judge Snyder, of the Circuit Court at Belleville, to-day, and a change of venue was taken by the Bowmanites.

The case will probably come up before Judge Wats, of the Circuit Court at Nashville, at the next term. Mayor Bowman, a relation, filed information in the nature of quo warranto against the Metropolitan Police Commissioners of East St. Louis, in Judge Snyder's Court, at Belleville, to-day. The case will be heard at the September term.

Swindler of a Song and Dance Man. ST. JOHN, N. B., August 3.—Law Davis, a song and dance man with the California Minstrels, cut his throat, in the dressing room of Dockrill's Opera Hall, just before the commencement of the performance this evening.

CRIMINAL MATTERS.

Outrage by Tramps.

CHICAGO, August 3.—The Tribune's Burlington (Iowa) special says: On Thursday afternoon two tramps stopped at a farmer's house near Iron, Henry county, and after getting a good dinner from the farmer's wife, and leaving most of the evening, suddenly seized her, outraged her person, and left her insensible. They had stopped the cries of the farmer's little daughter by rolling her up tightly in a blanket. When unrolled the child was nearly suffocated, and died in an hour. The neighbors are scouring the country for the fiends, but at last accounts had not found them.

SUICIDE OF A CRIMINAL.

ST. LOUIS, August 3.—Adolphus A. Perrell, in jail on the charge of obtaining money under false pretenses, jumped from the upper balcony of the prison to the stone pavement below, a distance of over 20 feet, about 2 o'clock this afternoon. West Twenty-fourth street, which he had both of his legs fractured above the knees, the bones of one foot fractured and the skull indented. He will die.

SUICIDE OF A DOG CATCHER.

AT THE SAME TIME last night Charles Wagmann, formerly a dog catcher, and a man of brutal instincts and passions, blew his brains out at the dog pound, in the lower part of the city. He used an old horse pistol loaded with wadding, and the entire upper part of his head was blown off.

MURDER AND SUICIDE.

NEW YORK, August 3.—John Christopher probably fatally shot his wife to-night, and then himself.

DAYLIGHT ROBBERY.

C. H. Stone, while returning to Hale's piano factory from the bank, with \$2,500 to pay the workers, was garrotted in West Twenty-fourth street, and robbed of the money, by two men, who escaped in a butcher cart.

STABBED.

ST. PAUL, MINN., August 3.—P. Wood, a prominent citizen of Rochester, Minn., was stabbed by a tramp named Crowley this afternoon. The murderer was arrested. The victim will probably die.

SHOOTING HIS MISTRESS.

A special says Edgar Van Decar shot his mistress, named Frankie Clarke, in a bawdy in Moorehead to-day, and attempted to shoot the Sheriff who arrested him, but the pistol snapped. The girl is in a dangerous condition. She is the daughter of a soldier in the Twentieth Infantry, Jefferston, was the motive.

WESTERN CROP STOPPED.

CHRYSTIAN, WY., August 3.—The south-bound coach was again stopped four miles south of Jenny's stockade, yesterday afternoon about 5 o'clock; by six armed men. As the coach was empty they did not attempt any interference, but inquired of the driver as to the movements of the horse party, which they are evidently waiting for.

VICTIM OF LABOR REGULATORS.

SAN FRANCISCO, August 3.—Tullis, the rancher on Grand Island, murdered Thursday, is believed to have been killed by some member of the labor organization. Tullis had received threats by letter that if he did not discharge his Chinese men, whom he employed in large numbers, he would be murdered.

ARRESTED FOR MISAPPROPRIATION OF FUNDS.

MONTECAL, August 3.—Charles Griffin, of the firm of O. G. Holton & Co., stock brokers, was arrested on the charge of misappropriating \$21,000 belonging to Rev. James H. Webster, of Green Castle, South Carolina. Griffin paid the clergyman \$5,000 in advance from the time the money was received.

HOMICIDE CASE.

MILWAUKEE, August 3.—The jury in the Wheeler-Henderson murder trial retired at noon to-day, but up to a late hour nothing has been heard from them. Considerable surprise is expressed at the failure to agree, as it was supposed the defense had presented a very strong case of justifiable homicide.

ARRESTED.

NEW YORK, August 3.—Michael Hahn, Secretary and Financial Secretary of the defunct Teutonic Savings Bank was arrested to-day and held in \$5,000 bail, on the charge of swearing falsely to the financial condition of the bank.

DEATH WARRANTS FOR CRIMINALS.

NEW ORLEANS, August 3.—Governor Nichols to-day signed the death warrants of Donald Childers, Fountain Bank clerk, and James Carter, to be hung at Donaldsonville, August 14.

ACQUITTED OF A CHARGE OF MURDER.

CHICAGO, August 3.—The jury to-night rendered a verdict of not guilty in the trial of Rosco for murder. The accused proved an alibi, and the evidence against him was considered very weak.

MURDER AND SUICIDE.

WEST RANDOLPH, Vt., August 3.—Michael Winn, early this morning, probably fatally shot his wife and babe while she was in bed, and then killed himself to avoid arrest.

LITTLE ROCK, ARK., August 3.—J. B. McLaughlin, who was shot a few days ago by Orr, is improving, and there are strong hopes of his recovery.

YELLOW FEVER REPORT.

NEW ORLEANS, August 4.—Number of cases 29, deaths 11. Rainy weather the past 24 hours. Yesterday the mercury fell about 10 degrees, unfavorable for the sick.

CAIRO, August 4.—On the arrival of the steamer Golden Cross last evening the Quarantine office found 11 cases of yellow fever, which is said to have been introduced by Dr. Danning, the Quarantine physician here pronounced yellow fever and the boat was not permitted to land. An authenticated rumor comes from Alexandria, that a lady died after leaving her boat, and was buried at Alexandria. As a further precaution against yellow fever, after to-morrow the passenger coaches from below will not be transferred across the river, but the passengers will change cars at the transfer steamer.

TOWNS AND CITIES QUARANTINED.

ST. LOUIS, August 4.—A dispatch from Texas shows that quite a number of railroad towns and cities in that State are thoroughly quarantined against New Orleans, and that it is the determination to keep the yellow fever out of Texas if possible. The International and Great Northern Railroad Company refuses to take any passengers, freight, express matter or mails from New Orleans over their road.

RAILWAY MATTERS.

Rates of the Philadelphia and Reading.

PHILADELPHIA, August 3.—The Philadelphia and Reading Railroad Company has issued circulars to-day to the effect that on and after Monday next, and until further notice, the drawback of 35 cents in addition to those provided by the existing circulars, will be paid on all anthracite coal shipped by the way of the Schuylkill Canal, or from Port Richmond to Philadelphia, through the Delaware and Harlan Canal.

This change is made to equalize rates to New York, with those on the Lehigh Valley Railroad. This does not influence the price of coal in New York.

THE TURF.

Goldsmith Maid's Wonderful Time Beaten at Last.

Rarus Crowned Monarch of the Turf World Saturday.

After Trotting a Mile in the Unprecedented Time of 2:13 1-4.

The Half-Mile Pole Reached at a 2:11 1-2 Gait.

BEPPAHO, N. Y., August 3.—It was a great day for Buffalo and the trotting world, that afternoon in August, 1867, eleven years ago, when Dexter trotted the Goldsmith Maid in 2:13 1/4, eclipsing the 2:19 of Flora Temple, which for eight years had stood at the head of the record and the only performance by a trotter in harness better than 2:20. To-day was equally memorable, however, Rarus having trotted a mile in 2:13, the fastest time ever made in the world.

It was 4:45 when Rarus appeared for the contest against time. Louis, Great Eastern and Hanns, who had been entered for the event, were drawn. When the great flyer came out with Splan behind him, he was greeted with rousing applause. A running horse was provided to accompany and stimulate him.

After a rough warming up, to satisfy Splan, the horse came down flying. The word was nodded for and given, and off he started on his first mile, and came out in 2:13 1/4. The mare started with him from the score, and kept close up. On he flew, but just before reaching the quarter-pole he left his feet. He was going again, and when he came home watches in the judges' stand marked 2:50. The \$1,000 main purse, with \$500 in addition, was offered to the winner, and the prospect for dividends (other things being equal) would be materially enhanced.

Immediately stocks sold down below any former quotations. The wheat corner was correspondingly strengthened, and the syndicate went on raking in the profit. It is estimated that the syndicate has made \$500,000 in profit, and the syndicate has made \$500,000 in profit, and the syndicate has made \$500,000 in profit.

It is thought that the syndicate has made \$500,000 in profit, and the syndicate has made \$500,000 in profit, and the syndicate has made \$500,000 in profit.

SMITH'S MURDER.

No New Developments in the Case.

The Policeman's Wife and Her Paramour Believed to be Guilty.

Theories as to How the Deed Was Done, and What For.

The Police Obtain a Clue, and Are Working It Up.

NEW YORK, August 2.—As far as the Jersey City police are concerned, the murder of Policeman Smith remains as a dark mystery to this day. The work of the police has been to search for the man who shot the policeman, and to search for the man who shot the policeman, and to search for the man who shot the policeman.
