Look out for Poison in Your Sugar.

New York, December 25.—Prof. Chandler and Dr. Ricketts say: "We have carefully examined a number of samples of refined, coffee and yellow sugar, most of which were taken from the original barrels. In several of these sugars we found tin salts and free acid, probably muriatic, and in two of them artificial glucose."

The Treatment of Burns.

Further experiment and reflection led Dr. Waters to the conclusion that pressure upon the nerves is the cause of pain in burns. He says: "Heat contracts albumen, hardens, stiffens, and thus closes the pores and produces pressure upon the nerves.
