

The Intelligencer

Office: Nos. 25 and 27 Fourteenth Street.

A SPECIAL from Clarksburg last night announces the death, by a deplorable accident, of Ira Hart, Esq., of that town.

The Charleston Gazette finds the English language incapable of expressing its indignation against the Board of Public Works for failing to complete the Charleston State House six years before it is needed, and belators that body in classical Latin.

A GOOD road-roller is a piece of machinery that is badly needed in this neighborhood. At present, whenever fresh limestone is put upon the county roads or city streets, it requires months after for it to be forced into its place and made smooth by travel.

PROVIDENCE seems to be a little disgruntled with the rowing business. Possibly her luck in getting her oarsmen near the front in recent regattas has sharpened her moral sense on the subject.

IN THE INTELLIGENCER of Thursday of last week was a letter written from this place slandering several parties in town, the writer stating that he knew was not true.

THE LETTER referred to in the above, received in Mr. Campbell's absence, was furnished by a responsible citizen of Clarksburg, and had reference to the alleged short-comings of public officials of that town.

AS TO THE balance of the Telegrapher's article, we believe its editor labors under the impression that he has a quarrel with Mr. Campbell, of this paper, for the reason that the latter declined to assist him in some recent efforts to capture the Clarksburg postoffice.

DISPATCHES of yesterday announce the sale of the White Sulphur Springs property to Capt. Alex. T. Mathews, of Greenbrier county, this State, for the sum of \$300,000.

THE FOURTH Ward school house now looks better inside than it did when new. The walls have been newly washed, and the wood work neatly painted.

THE ST. CLAIRSville brass band will hold a picnic at Cummins' grove on next Saturday afternoon, August 24.

COMPANY D made a short parade on the street on Saturday morning before going to Grandview. A good number of people went to the picnic on town, and in spite of short rains of threatening clouds, a good time was had.

MR. M. C. CRAWFORD and family spent Sunday at Pleasant, driving over and returning both by night.

MR. KURZ and Rev. Gaston have resigned their positions as examiners of teachers for the school district of Bellairs. John A. Callahan, and James F. Anderson took their places on Saturday.

WHILE the amount appears inconsiderable in comparison with prices heretofore offered for it, it is likely, as things now go, that full value has been gotten.

IND. ASHPOOLS, August 10.—While Police-man John Wehly was arresting a man named Kelly to-night, Kelly snatched a piece from the officer and began assaulting him. Wehly drew a revolver and warned him to desist, but Kelly continuing the attack the officer fired, killing Kelly almost instantly.

PHILADELPHIA, August 10.—Wm. Vance Harper, a lawyer, has disappeared after defrauding various clients to the extent of nearly \$17,000.

Death of Hon. B. Wilson's Wife.

YELLOW FEVER.

Declared Epidemic.—The Situation Saturday.

MEMPHIS, August 9.—Up to noon to-day fifteen cases, ten white and five colored, have been reported to the Board of Health.

THE BOARD of Health, being informed that there is a disposition manifested on the part of some absentees from Memphis to return sooner than it would be advisable, and as this disposition may be increased, it deems best to submit the following statement in regard to the prevalence and spread of yellow fever in this city.

SEVEN or eight applicants for Bellairs schools were examined Saturday.

A GREAT many went out from here to Burr's Camp Ground on Saturday evening and Sunday morning, to visit friends and relatives, who are domiciled on the camp ground.

THE RIVER banks here and at Benwood were pretty well filled with people out looking for the boat race.

THE ST. CLAIRSville brass band will hold a picnic at Cummins' grove on next Saturday afternoon, August 24.

THE COLORED EXODUS.

The Stream of Negro Immigration Continues Unabated—What Gov. St. John, Washington, Has to Say in Regard to It.

WASHINGTON, August 10.—The Secretary of the Emigrant Aid Association of the District of Columbia has received a letter from Gov. St. John, President of the Freedmen's Relief Association of Kansas, from which the following extract is taken:

"The tide of immigration continues to flow North in an almost unbroken stream, and unless checked by quarantine established along the Mississippi, there is no telling just when it will stop.

"It is difficult, with the means at our command, to raise the necessary interest in the matter. So far, our Association has extended aid to about 4,000 destitute colored people. We have obtained employment for them, and placed them in such a manner that they are self-sustaining, and it has cost a great deal of money.

"The Board is on trial before the bar of public opinion, and has already become an object of assault for the public press. I appeal to the National Board of Health, the legal guardian of the country's welfare, and think the Board would act wisely to authorize the expenditure of \$20,000, of whatever sum, in a word, may prove necessary."

NEW ORLEANS, August 9.—A careful survey of the sanitary situation discloses that not only the city of New Orleans and its suburbs, but the neighboring country, with the single exception of Memphis, was very rarely at this season of the year in a healthy condition.

PROVIDENCE, R. I., August 9.—A scandal in which the names of Senators Conkling and Sprague were freely used, was circulated through the city to-day, as well as at Narragansett Pier and vicinity.

CHICAGO, August 9.—In answer to a telegram request of the Daily News of this city, A. D. Langstaff, President of the Howard Association at Memphis, has sent a telegram giving particulars of the condition of that city, containing the following points:

"The total number of cases of yellow fever to this hour within the city limits, officially recorded, is 330. Of this number 90 died. In addition, there have been about 20 cases and 3 deaths of Memphis refugees located within six miles of the city, and these sick people were communicated to any of the surrounding towns, and to any of the right quarantine. The fever has increased in Memphis very perceptibly in the past ten days, and is spreading from the city centers. We cannot hope for a discontinuance until fall.

AT LEAST 30,000 persons have left, of which 22,000 are located in Camps Fairmount and Marks, situated four or seven miles respectively from Memphis. There have been three cases in Camp Marks and one death. There are at least 12,000 negroes in this city, only 100 having gone to camp. They have declined to leave the city, hoping to receive rations, which is in opposition to all views of public health here to attend to such as may be taken sick.

OUR ONLY safety is depopulation. In consequence of the fever spreading among the negroes for the past five days, there is a great exodus of the colored people. Should their appeal to the people of the United States for rations not meet with a favorable answer the negroes will be driven to the city, and in which they are taken sick and too frequently die. We have six physicians on duty, and have had under our charge 450 patients, sick with various forms of the disease. We have 150 nurses, medicine, stimulants and food. About 200 have been discharged. Our expenses are now \$500 per day, and will probably increase. We have on hand \$100,000. The amount would be sufficient to care for the disease in any example of the white people and left the city. We hoped not to be forced to ask assistance, but fear this non-action of the negroes will compel us to do so. The sanitary condition of our city is excellent.

YESTERDAY'S FEVER REPORTS.

JUST WHAT THEY URGED THEM TO DO.

MEMPHIS, August 10.—There were twenty-nine cases reported to the Board of Health to-day, twelve white and seventeen colored. Among the former are Thomas B. Bateman, Charles Meade, Austin W. Downer, Arthur White, Dr. Oscar Beaty, W. B. Edwin and Carrie Williams.

MEMPHIS, August 10.—There were twenty-nine cases reported to the Board of Health to-day, twelve white and seventeen colored. Among the former are Thomas B. Bateman, Charles Meade, Austin W. Downer, Arthur White, Dr. Oscar Beaty, W. B. Edwin and Carrie Williams.

FOREIGN NEWS.

The British Service Gazette says Sir Garnet Wolsey will be the next Commander-in-Chief in India.

The London Times' Vienna dispatch says: One thousand horses and eight mares were burned at Sarajevo. A special from Vienna reports that the number of victims of the fire is small.

The Bulgarian Cabinet has addressed a manifesto to the nation, stating their intention to sustain cordial relations with the Powers, and to take measures to secure peace and prevent disturbances.

The warm weather has considerably improved the harvest prospects in France. The French producers are frightened at the decline in the prices of French wheat, caused by the heavy imports from America.

The Times' Alexandria correspondent has interviewed Tewfik Pasha. The latter said he was considering Nubar Pasha's request for a very large number of conscripts to be sent to Egypt, and that he was opposed to the measure.

ON THE WING.

MONTEVIDEO, August 9th, 1879.

Just one week ago to-day I wrote you an account of the closing of my work at Kingwood, and of my arrival at the "Athens," but could say but little concerning either the place or people, from the fact that I had enjoyed no opportunity of judging of either; but now after a sojourn of a week amid the culture and refinement of which the good citizens of Montevideo boast so much, I am prepared to say that it is a very pleasant and profitable place to be in.

THE TEACHERS of Montevideo are fully abreast of the times, and are both anxious and willing to improve themselves in everything that pertains to their profession. They are well educated, and have a high standard of culture. They are well paid, and their work is well appreciated.
