Forty-sixth Congress

A Lively Debate in the House

Townsend, of Illinois, Accused of Smuggling a Bill into the House—He and Garfield Have an Animated Debate Over the Matter.

WASHINGTON, March 23. SENATE. Mr. Edmunds presented a memorial of McBride calling attention to the exclusion of Gentiles from lands in Utah by the present system of locating town sites.

Mr. Edmunds also offered a resolution calling on the Secretary of the Interior for information as to the number and extent of patents issued for land in Utah, and whether any discrimination in favor of the Mormons had been shown in such issues.

Mr. Allison, by request, introduced a bill appropriating money for the erection of a penitentiary in Dakota Territory.

Mr. Teller gave notice of an amendment intended to be offered by him to the bill ratifying the agreement with the Ute Indians.

It is useless to deny, what is an evident fact, that there has been a full in the iron trade for the past three or four weeks; that the heavy orders and sales of the last few days of December and the first three weeks of January have fallen off, or, as it is usually expressed, there has come a lull in business.

It is also provided that nothing in the act shall prevent the settlement of the Southern Utes, or Uncompagme Utes, on the lands of the Utah reservation in Utah, if any of the said Indians desire to settle there and that any of the Ute Indians desiring to settle on land owned by him may apply to the United States Circuit Court to sell the land, and the court may order such sale if, after examination, it thinks the land is the property of the said Indian.
