The Intelligencer

Joseph Cook's Lectures.
The larger portion of the Opera House last evening was to show that there is a something connected with animal matter that does not matter itself, and supposes that it is, and that this something shapes prior to it, and that this something shapes the organization and gives functions and force to matter.

AT THE CAPITAL.

The Kellogg-Spofford Contest

The subject of a Democratic Senatorial Caucus—A Majority in Favor of Letting It Rest This Session—The Hoop Iron Question in Status Quo—General News.

WASHINGTON, April 9. Special Dispatch to the Intelligencer.
Bills for the relief of the heirs of William Lucas, of Jefferson County, W. Va., and for Wiley Lodge, L. O. O. F., at Charleston, were reported adversely today from the Committee on War Claims, and ordered to lie on the table. They are dead.

Representative Cox, of the Committee on Foreign Affairs, preparing resolutions to abrogate the Clayton-Bulwer treaty, which stipulates that any canal across the Isthmus of Panama must be neutral.

DEMOCRATIC SENATORIAL CAUCUS.

WASHINGTON, April 9.—The Democratic Senators continued today the caucus of yesterday and will meet again to-morrow. The general sentiment continues in favor of giving precedence to the Geneva award bill, and such other appropriation bills as may be ready for action after it shall have been disposed of, thus leaving the Spofford-Kellogg case to take its chances of obtaining consideration this session or go over to the next, just as the condition of the public business may render advisable.

Mr. Jones said that the Democrats of Louisiana had been misrepresented in the Senate long enough and they demand their full right. He would not answer for Louisiana remaining Democratic any longer if the Democrats of the Senate passed this matter over and left Kellogg in his seat, and while the Senators were considering the possibility of losing votes by taking up this case they had better look at the other side of the question and consider the immediate danger of losing votes if they do not do the Louisiana Democratic justice.

Senator Thurman thought the Geneva award bill would lead more consequences than the Kellogg case, and urged that it should be given preference. Considerable feeling was manifested by the above named Senators, who argued in favor of immediate action on the Kellogg case, and some of them intimated that they would make the question a personal matter and retaliate upon those who would bring about a postponement.

Senators Hill, Salisbury and Vance, of the Elections Committee, are still in the investigation of this case, and it is still the understanding that it should be disposed of as soon as all the facts could be learned, and they therefore thought it would not be treating the committee right to postpone the matter. They are still in the investigation of this case, and it is still the understanding that it should be disposed of as soon as all the facts could be learned, and they therefore thought it would not be treating the committee right to postpone the matter.

THE HOOP IRON QUESTION.
The Ways and Means Committee discussed the hoop iron question today. Mr. Tucker offered a resolution to protect all importers of cut hoop iron who had made contracts prior to March 12, 1880, the date of Secretary Sherman's communication to Congress, so that they will only be required to pay thirty-five per cent ad valorem, but makes no change in the law of 1864 regulating the duty, but leaves the right of appeal to the courts open. For this Mr. Garfield prepared a substitute to protect all parties having made contracts prior to March 12, and changing the law to require hereafter a specific duty of 13 cents ad valorem rate. The vote was taken on this proposition. There were six votes for it, viz.: Phelps, Garfield, Kelley, Conger, Frye and Davenport. It was defeated by a vote of 10 to 6.

IN THE HOUSE.
In the suit of Lieutenant Wetmore against Admiral Porter, Judge Cox today decided that Admiral Porter was the superior officer of Wetmore, and there was no legal duress exercised by Porter in requiring Wetmore to pay over to him divorced wife and her daughter the sums stated in the declaration. The plaintiff submitted to no suit. Porter's counsel announced that he would not proceed, he would plead the statute of limitation.

REGISTRATION INQUIRY.
The Senate Exodua Committee today examined A. S. Johnson, Land Commissioner of the Aitchison, Topeka and Santa Fe Railroad. Johnson repeated the statements of previous witnesses, that most of the colored emigrants arriving at Topeka were literally paupers, and that a large proportion of them were women, children and feeble old men.

ACROSS THE OCEAN.

Parrell Receives the Freedom of Cork.

Lady Dufferin's Adventure in Russia—Possible Complications Between the United States and Turkey—The Attitude of China Towards Russia.

BERLIN, April 9.—In the Reichstag today debate began on the second reading of the bill to restrict the term of operation of the bill to three years, which was rejected, 130 to 104. The first and second paragraphs, fixing the peace strength of the army until March 31, 1883, at 477,270 men, was adopted. The Minister of War declared that the bill owed its origin not only to the present political situation, but to reasons of a lasting character, and that a permanent military budget alone could give the army stability and consistency.

Mr. Kicker (National Liberal) said that the strengthening of the army was of the highest importance to the nation, and must not be made a party question now. He declared the party that existed in Germany wished to weaken the defensive power of Fatherland, but it was the desire of the whole nation to uphold with a mighty hand the possessions which Germany had acquired and to maintain peace.

LADY DUFFERIN ATTACKED BY A BEAR.

PARIS, April 9.—The story comes from St. Petersburg to the effect that Lord and Lady Dufferin, together with several persons belonging to the Imperial Court, were hunting in the forest the other day, when suddenly a ferocious bear, which had been concealed in the underbrush, sprang upon Lady Dufferin. She would undoubtedly have been killed, says the report, had it not been for the gallantry of Lord Hamilton, an attaché of the Embassy, who came to the rescue. After firing several shots from his revolver, he succeeded in dispatching the brute.

ENGLAND.

LONDON, April 9.—The Times estimates that the Liberals in the new house will number about 340, and the Home Rulers from 60 to 65. The Conservatives can hardly count on more than 250. The Liberals will thus find their position in the House of Commons as that of the present government in the late Parliament. At a meeting of the Liberal Executive Committee yesterday a deputation was appointed to proceed to Hawarden to urge Gladstone to consent to a public reception in London.

IRELAND.

LONDON, April 9.—Mr. Parnell has received the freedom of the city of Cork for his services in behalf of Ireland. A dispatch from Dublin says: Charles S. Parnell stated that the Rt. Hon. Calyculoo (Conservative), who has been re-elected for Dublin county, will be raised to a Peerage, and that Sir A. B. Guinness, who stood for Dublin City, will be the Conservative candidate, and the O'Connor Don, who stood for Roscommon, the Liberal candidate for the vacancy thus caused in Dublin county.

RUSSIA.

St. Petersburg, April 9.—The Agency Bureau declares that China has not been instigated by any foreign power to assume an attitude hostile to Russia, and it would be premature to apprehend serious complications relative to the Kuludja question, as the nature of the Chinese purpose is unknown. Russia, however, is not accustomed to regard the treaty which has been concluded as non-existent, and if negotiations become necessary they will be carried on under conditions better calculated to secure the execution of the treaty.

TRINIDAD.

CONSTANTINOPLE, April 9.—An American citizen, accused of the murder of a Turk, was recently tried before Heap, Consul General of the United States, and found guilty of manslaughter and sentenced to two months imprisonment. Sawas Pasha, Minister of Foreign Affairs, protested against the right of an American Consul to try the case, and demands the surrender of the prisoner to the Ottoman authorities. Heap declines to surrender him.

A Nihilist's Persecutions.

LONDON, April 9.—Kropotkin, editor of the Nihilist organ *Trois*, and a brother of General Kropotkin, assassinated by the Nihilists at Kiev, has removed to Montreux, Switzerland, the authorities having asked him to quit Geneva.

FOREIGN NOTES.

The name of the Frenchman assassinated on his way to Sumatra, is Wallon. He was entrusted by the French Government with a scientific mission to the Isle of Sonde.

WASHINGTON CORRESPONDENCE.

The Public Printing.

WASHINGTON, April 9. Special Correspondence of the Intelligencer.
The penny wise and pound foolish policy of the Democrats in Congress may be seen in the condition of the public printing business. The public printing is generally months in arrears of the proceedings in Congress, and as a consequence many matters of importance are necessarily laid aside to await the printing of public documents connected with them. While the general business is two months behind some special matters are still far in arrears. The President's message presented to Congress on the first Monday of December last has not yet been issued in the customary pamphlet form for general distribution. It has appeared as a Congressional document, like a bill or report, but not in any other shape. Some abuses of the public appropriation would be practiced if proper judgment were not exercised by the Printing Committee, as may be judged by a perusal of the following report:

The Committee on Printing, to whom were referred seven petitions from citizens of the State of New York, asking that the proceedings of Congress be printed in newspaper form to be sent, free of charge, to every family in the United States, have considered the same, and report thereon that although they have not been able to ascertain the exact number of copies in regard to the probable cost of such a publication, they feel assured that it would cause an immense outlay of the public money, aggregating hundreds of millions of dollars annually, and they are not prepared to recommend the same, and ask to be discharged from the further consideration of the subject.

Still, though the committee ought to be economical, there is no wisdom in that of managers which withhold necessary funds at the time when they ought to be given, and then at last, after damaging the public business, dealing out the amount which from the first was unavoidable. If the Democratic statement can be taken as the basis of an estimate, they seem to feel satisfied that they are performing the duties for which they were sent here. At least that is what they are doing.

Public Building at Clarksburg.

WASHINGTON, April 9. Special Correspondence of the Intelligencer.
The Committee on Public Buildings has submitted the following report in regard to the expediency of erecting a Government building at Clarksburg, Harrison county, West Virginia:
The United States circuit and district courts for the western district of West Virginia hold regular sessions at Clarksburg, and have since the organization of the court, in 1819; but there is no building belonging to the government wherein court can be held, the county or citizens having provided no building for the duration of this time. The accommodations thus afforded have been inadequate to the wants of the public service, the officers of the court having no rooms, and the quarters furnished the court jurors and witnesses being small and uncomfortable.

During the past year the court was in session 83 days, and there are now on the docket 400 cases ready for trial. The officers of the court, the Government attorneys and other prominent officials join in the petition for the erection of a public building at this place. Clarksburg is what is known as a distributing post-office, and a large amount of business is done in the county. The country is fertile and distributed at Clarksburg. The post-office receipts for the year 1879 amounted to \$3,094.82. The amount of internal revenue paid into the Treasury of the United States from the district wherein Clarksburg is situated for the last fiscal year was \$251,600, which is larger than the amount paid by any one of the States of Alabama, Arkansas, Florida, Vermont, Kansas, Maine, Michigan, Minnesota, Missouri, Ohio, Colorado, Nevada, South Carolina, Oregon, Colorado, or Texas.

In view of the foregoing facts and of the prospective growth of the city, its central location, and the needs of the public service, it is respectfully recommended that the passage of the bill by the substitute hereto submitted.

Public Buildings.

WASHINGTON, April 9. Special Correspondence of the Intelligencer.
There is no little anxiety among members of Congress who are charged with the responsibility of effecting legislation for public buildings in their several districts. On Monday after the passage under supervision of the rates of the bills for public buildings at Charleston, Paducah and Cleveland, Mr. Blount, of the Appropriation Committee, said very distinctly that he should object in future to any such proceedings, although he has a bill authorizing the construction of a public building in Georgia. The first bill for public buildings now on the House calendar for this purpose, not making an appropriation, but involving one, and the Western Pennsylvania members will oppose all attempts to pass any public building bill before that for the benefit of Pittsburgh. It was the Allegheny county members who got Mr. Keifer, of Ohio, to object to Judge Scales' attempt yesterday to pass his bill for a public building in North Carolina, and they claim that two bills of this kind having been passed for the Democrats on Monday, and only one for the Republicans, at Cleveland, justice requires the latter should next be recognized for that purpose. If they succeed in establishing their claim the Pittsburgh public building may be passed next.

SEYMOUR AGAIN.

He Positively Will Not Accept a Democratic Nomination.
CINCINNATI, April 9.—Hon. Theodore Cook, a prominent Democratic politician who was a member of the convention which nominated Horatio Seymour in 1868, on a recent visit to Ulica paid a visit to Mr. Seymour, and says the latter talked freely about the political situation. Mr. Seymour said he had no objection to being nominated in this year's contest, but for himself, he said in the most earnest manner possible, "Under no circumstances could I accept a nomination. My age and health forbid it; but even if those were not in the way, I am not the man to perfectly unite and harmonize the party. I trust my friends and party all over the country will have no question as to my sincerity in this expression."

Railroad Accident at Zanesville.

ZANESVILLE, O., April 9.—At 4 o'clock this morning the fast train bound West and the freight train bound East, on the B. & O. R. R., collided in the city limits. Thirteen cars loaded with freight and one engine are a complete wreck. No one was severely injured. All trains were compelled to transfer at the wreck to-day.

Didn't Enjoy Much Liberty.

New York, April 9.—Charles Brockway, arrested some time ago on the charge of forgery, was released to-day on the ground of insufficient evidence. He was immediately re-arrested and will be taken to Chicago.

NEIGHBORHOOD NEWS.

Bellaire.

Local News and Gossip—The Accident on the B. & S. W. R. No. 8. Found as at First Reported.
At the Church of Christ Sunday evening Mr. Dean, the pastor, will preach on the "Union Question."
A little child of Sed's Nolan, of the Second ward, was buried Friday afternoon.
Marion Huffman has a ticket for Salt River, and is ready to start. Mayor Cassell furnished the ticket. The other defeated candidates had better join company.
Judging from the great number of machines piled around the agency, the Singer Company must be having a boom.
The new window glass house has its grinding room completed, and has commenced grinding glass. Its pots have to be made months ahead of the time when they will be required for use.
Another Uncle Tom's Cabin Troupe put up a bill here Friday.
Dr. McClure is on the street again.
Dixon Dabby had his foot cut Friday while chopping wood with an ax.
Mr. J. A. Gallaher is building an addition to his house on Gravel Hill, and a freight car was crushed by another part of the train. A breaking rail bolt was at the bottom of the accident.
Street Commissioner McLellan is endeavoring to patch up the foot bridge over the creek.
This floor yields, trembles and groans at the weight of a loaded cart, and by the time the new abutments are completed a new bridge will be needed. The bridge is to be raised two feet above its present level.
The nail works is building a new bridge over the coal tracks.
Joseph Bates has sold his entire stock of groceries to the co-operative Miners and Mechanics store.
The trestle over which the train runs on the Etna glass house. It would be well if this track could be run on across the creek bridge and connected with the South Belle river glass house.
The trestle over which the train runs on the Etna glass house. It would be well if this track could be run on across the creek bridge and connected with the South Belle river glass house.

Looking over Bellaire in any direction are seen innumerable dots of new pine showing the growth and improvement of our town.
The arch of the addition of the Bellaire window glass house is under way.
The accident on the Bellaire and South Western was, fortunately, not so bad as reported. The trestle over which the train went is No. 9, but it is not the one over which the other train fell. This one is just this side of Rocky Fork's mouth, near Captina. It is about thirty feet long, and the train consisted of two cars on the inside of the curve. This happened when the train was at the end of the trestle and the rear car fell not very far, while the front one merely tipped over on the ground. The trestle was not damaged, and these made the damage to the cars greater than it would otherwise have been. There were about twenty persons in this car but none of them were hurt. Mr. Wm. Smith, of Woodfield and S. M. Armstrong, of Pittsburgh, were standing on the platform and jumped onto the trestle. These were the only two hurt badly. Mr. Smith's leg was broken above the knee and Mr. Armour was hurt in the arm. Neither fell from the trestle. Judas Armstrong, of this place, had his hand cut some, and little Edna had her face blistered some. They came home in the morning. A Miss Jane Crooks was reported, by some persons, to have been lying dangerously hurt at the time of the accident, but the platform and jumped onto the trestle. These were the only two hurt badly. Mr. Smith's leg was broken above the knee and Mr. Armour was hurt in the arm. Neither fell from the trestle. Judas Armstrong, of this place, had his hand cut some, and little Edna had her face blistered some. They came home in the morning. A Miss Jane Crooks was reported, by some persons, to have been lying dangerously hurt at the time of the accident, but the platform and jumped onto the trestle. These were the only two hurt badly. Mr. Smith's leg was broken above the knee and Mr. Armour was hurt in the arm. Neither fell from the trestle. Judas Armstrong, of this place, had his hand cut some, and little Edna had her face blistered some. They came home in the morning.
