TUESDAY MORNING, MARCH 29. MES. GARFIELD has found it impossible

the man who issued the Emancipation

the man who issued the Emancipation Proclamation."

The Box Tax.

It is said that a question has arisen in regard to the assessment of the dog tax this year in cases where Assessors have gone over the ground and completed a portion of their assessment prior to the passage and publication of the law imposing the tax in certain counties. The question is whether such Assessors are expected to go over the ground again and assess the taxes. The understanding is that they will be expected to retrace their steps and assess the tax, inasmuch as the law takes effect from its passage, and inasmuch as an assessment is always subject to amendment until a return in due form has been made to the proper authority.

The Republic of Mexico is in a fair way to become Americanized, Northern men are invading that ancient country in large numbers. They are looking up chances for investments in mines and other real estate. We shall soon have very intimate railway connections fletween the two Re-

railway connections [between the two Republics. It will be no light task to infuse energy into the Mexican people. They are not promising subjects for reformatory labors. Pride, poverty, boundless conceit,

man, civil engineer, of New York City,

sonal letters to his stenographer. Then after a little chat with his family he is ready to receive the waiting crowd of callers. At hall-past 2 he lunches, then divors members of the Cabinet appear, and at 6 he dines. There are no Sunday night singing classes at the White House now. The Cincinnati Commercial says: "The President is a great lover of children. He enjoys their company, and loves to romp with them. His oldest daughter, Mollie, is of that sge when her lessons and her educational advancement require much attention. Her father takes a deep personal interest in her welfare."

and made this city the terminus of the road.
In the last thirty 'years Wheeling and Ohio county have subscribed \$1,640,000 to various railroad connections with Benwood, Steubenville Juncition and Washington, Pa., without change of cars. There is not another city in the South that ever made as poor an investment of money and whose people seem so perfectly satisfied with their situation.

As this W. & L. E. road seems now to be in a fair way of being built and the T. V. and C. & P. roads are both said to be axious to cross the river at this point, could any help be obtained for or any encouragement given to a movement looking to bridging the river here? Don't all speak at once or do anything rash, but

#### The Iron Problem for 1881-High Priced Ore and Low Priced Iron.

There is an incongruity in the situation of the iron trade just at this time that is papers. very perplexing to those interested in the A LIVER DISORDERED FOR FIFTEEN YEARS.

For fifteen years I was a great sufferer prices on the compromise basis reached last year—a basis that was accepted by the iron manufacturers with no little reluctance, and simply because they had tied themselves up with contracts at higher rates. The ore companies are holding their price for 1831 at the compromise rate of 1830, while the iron manufacturers are holding off from contracts except in a very limited way.

The price of reals beat up by the decided of liver disease.

A Liver Disordered Liver, during which incomes I was a great suffered with a flow and almost all the patent nostrums recommended, all to no effect, until I used Simmons' Liver Regulator; until I used Simmons' Liver Regulator; until I used I it to this day, which is now several years, I have been comparatively a sound mas, having suffered very little since at any time from the effects of my old disease. Consequent-way illimited way.

The price of real was a great suffered was a great suffered a liter of was a great suffered and sordered Liver, during which ime I tried many of the best physicians in the country and almost all the patent nostrums recommended, all to no effect, until I used Simmons' Liver Regulator; until I used Simmons' Liver Regulator; until I used I it to this day, which is now several years, I have been comparatively a sound mas, having suffered very little since at any time from the effects of my old disease. Consequent-was a proposed for the patent price of the patent price price of the pat very limited way.

The price of ore is kept up by the de-

cause the market for manufactured iron is constantly threatened with an inundation from abroad. The latest advices from the other side of the Atlantic show that the stock of pig iron on hand in England and Scotland has increased from 970.124 tons on the 1st of January to 1,107,749 tone on the 28th of February. English papers assert that March will show an increase in this amount. So that by the 1st of April there will not be less than 1,250, 000 tons on hand,

The stock on hand is the largest ever laid over in the English and Scotch markets, and strangely enough has accumulated in the face of an increased consumption over there. Production was stimu- Clev. & Pitts. lated by the high prices in this country last year, and now we have the result of that rise in this over production.

Of course this large stock will be mark eted at the first opportunity on this side, and the American manufacturers being aware of this hability cannot afford to indulge in the luxury of high priced ores to any great extent. Whether their situation will cause such a withholding of ore contracts as to materially affect the price

Tax years of experience has firmly rooted Tutt's Pills in public estimation. Their wonderful adaptability to the various forms of disease is a marvel to medical men of all schools. They are largely used in hospitals in Europe and America, as well as in the army and navy. Cuba and other countries where yellow fever prevails, consume millions of boxes annually.

### WELLABURG.

Local Matters Scraps Here and There Picked Up by Gar Reporter. WELLSBUEG, March 28.

Now that court is over the approaching charter election, which occurs on the first Thursday in April, will afford our citizens an opportunity to converse on a different subject, license or anti-license, as that will

MES. GARFIELD has found it impossible to attend properly to her family duties and receive callers every evening; she has therefore determined to see people only two evenings in the week—Tuesday and Friday.

MAHONE was burned in effigy at Athens, Ga., by the students of the Georgia State University. A nephew of Senator Brown having participated, brings to mind that in 1868 Senator Brown was also burned in effigy by the students attending the same institution.

Secretary of War Lincoln is said to have more visitors than any other member of the Cabinet. His list is swollen by troops of colored people who pour in simply "to shake hands with the son of the man who issued the Emancipation (C. H. Beall seems to be getting quite a colored to seem their makers.

in it?

C. H. Beall seems to be getting quite a

### More About the W. & L. E. Road.

The W. & L. E. road, mentioned in Monday's paper, is the road to which our citizens voted a subscription of \$300,000 contempt for all modern nations—these in 1872, and at the same election voted a are the chief characteristics of the average like sum to the W. & O. company, which Mexican. But this stolid conservatism proposed to run this road, the C. & P. and must give way before the influence now at the T. V. roads, over into this city by work. With so progressive an administra- bridging the river. Council passed the or tion as Mexico now has, there is hope of dinances making the subscriptions, but prejudice and ill will were too much for the city, and the succeeding Council was Revolution in Cigarette Sanufacture.

A cigarette machine which makes over induced to repeal the ordinance. The re-A cigarette machine which makes over induced to be a compared to the control of 100,000 cigarettes per day (the work of sult will be seen in the next twelve or sixty hands) has been invented by J. Cow. eighteen months. Martin's Ferry will man, civil engineer, of New York City, have by means of this road lake connections. The consumption of cigarettes in the tions at Cleveland, Sandusky and Toledo, united States has increased enormously and Wheeling will connect with Martin's

The consumption of cigarettes in the United States has increased enormously of late. The revenue returns for the fiscal year ending June 30, 1880, show that 408,000,000 cigarettes were made in that year—an increase of over 70 per cent on the preceding year. It is estimated by some manufacturers that the figures for the carrent year will be nearly 1,000 millions! The machine is so perfect and rapid in its work that fourteen of them would suffice to manufacture for the entire demand, and a moderate sized room would be all the space required.

President Garrield rises at 7 in the morning—before any of the family except his venerable mother, whose hour is 6. He reads the papers; at 8 he breakfasts; then he goes to his office and dictates personal letters to his stenographer. Then after a little chat with his family he is in the space required.

In the last thirty years Wheeling and

speak at once or do anything rash, but seriously consider the matter and if thought of any importance please give some expression of your views in our papers.

BRIDGES.

Beds of Down Feel Hard. mands of the Bessemer Steel Works. They constitute a monopoly—are limited in number, and are protected by a patent and a duty of \$28 per ton. They can afford to may high rates for are with the steel of the property of of the p a duty of \$28 per ton. They can afford to pay high rates for ore, while the average iron manufacturer of the country cannot. The reason why the latter cannot afford to pay the prices demanded for ore is because the market for manufactured iron is
