A GOOD COMPARISON.

The Rev. William Roulatt, a weil-know Methodist clergyman, residing at Naples, draws the following amusing, but apt com parison between Br. C. McLane's Vermifuge, prepared by Fleming Bros., of Pittsburgh, Pa., and a ferret.

Pa., and a ferret.

"A ferret when placed at the extraneo of a rat hole, others the aperture, travels along the passage, selzes upon the rat, externinates his existence and draws the animal's definet careass to the light. And in like manner have I found Dr. D. McLane's Fernings to operate upon worms, those dreadth and dangerous tormentors of children. This remedy, like the ferret, enters the aperture of the imput, travels down the guilet, hunts round the stomach and lays hold of the worms, shakes the life out of the reptiles, sweeps clean their den, and carries their careasses clear, out of the system. This, at least, has been the edged of the Vermings upon my children."
