GARRETT'S OBSEQUIES

Walker delivers Wilson's speech minus the profanity. The soil of Marshall county is not congenial to the growth of Democratic timber.

THE GREAT RAILROAD MAGNATE. Finally Laid to Rest—Imperial Services. Twelve Thousand People Present at the Grave—Large Attendance of Front-ent Railroad Officials From Abroad.

BALTIMORE, Md., September 28.—The funeral of the late John W. Garrett took place today from Montebello, the country residence of the deceased. The services, according to the expressed desire of Mr. Garrett during his illness, were of the simplest character, and were conducted by Rev. Dr. Leyburn, pastor of the Associate Reform Church, of the Board of Trustees of which Mr. Garrett had for many years been president.

A very large concourse of the relatives and friends assembled at Montebello at 9 o'clock, where services were commenced by singing "Rock of Ages," by the choir of the church and the reading of the burial service by Dr. Leyburn. The remains were then carried to Greenwood cemetery. The funeral cortege comprised upwards of 150 carriages. Within and outside of the cemetery walls fully 12,000 persons were gathered to pay their last tribute to the memory of the deceased.

THE RETENTION OF PROF. LATHAM AS AN AND-TEMPORARY APOSTLE IN THE UNIVERSITY OF WEST VIRGINIA BY THE FOURTH LEGISLATURE. Prof. Willey, who proposes to give some lectures in favor of prohibition, it is hardly possible that there is a limit to even the patience of the Bourbon Regents.

GARRETT'S BENEFICIAL WORK. Splendid Gifts for the Aid of the Poor and Instruction of the People. Mr. Garrett's charity was manifold and far-reaching. His public gifts were large in amount and many in number, and he besides gave very liberally, quietly and unostentatiously. Those who are most intimately acquainted with him are aware, through accident or from the grateful words spoken by the recipients of his generosity, that in scores and hundreds of cases he has aided the poor, the unfortunate and afflicted, though the world knew nothing of these good deeds.

THE CHASTE AND LOGICAL ARGUMENT OF SOME OF THE DEMOCRATIC PAPERS OF THIS STATE IN THIS CAMPAIGN DESERVE TO BE PRESERVED IN SOME COLLECTION OF CURIOUSITIES. The Pochontas Times is one of them. It gives what it alleges to be Maxwell's record, and says: "Now this thing wants to be Governor of West Virginia."

THE GREAT THUNDERSTORM IN POLITICAL HISTORY. How that Judge Haymond, of Marion, and John L. McLean, of Jefferson, were unseated, and expected to be re-elected, and how the storm broke in the Senate in the late Legislature—A Whirlwind of Misfortune. It is not true as some of our newspapers have asserted that the storm broke in the Senate in the late Legislature.

GENERAL THOMAS EWING, IT WILL BE REMEMBERED, was a few years ago the Democratic candidate for Governor of Ohio, and his words of praise and confidence in the integrity of Blaine ought to be accepted by all fair minded Democrats. Mr. Blaine, however, does not need the testimony of General Ewing to establish his character. The people know and respect him as a man of high character and high integrity.

THE PROCESSION. A large and imposing procession of the members of the various charitable organizations in the leading cities, and upon his return he said that he was deeply impressed with the noble and patriotic spirit of the people, and that he was proud to have been able to do anything for the improvement of the condition of the poor.

THE MOUNTAIN MAN. A man named Mandy was a few days ago the Democratic candidate for Governor of Ohio, and his words of praise and confidence in the integrity of Blaine ought to be accepted by all fair minded Democrats. Mr. Blaine, however, does not need the testimony of General Ewing to establish his character.

PARKERSBURG'S DAY.

IN SPITE OF THE MUD AND RAIN. The Republicans Have a Big Demonstration—Four Successful Meetings—Speaker Carlisle at Gratton—Hally at Winfield, Marion County—State Politics.

Special Correspondence of the Intelligencer. PARKERSBURG, September 28.—I have seen this city under all conditions and in all seasons, mud, dust, rain and snow, and it is difficult to decide which is preferable. If it is dusty you choke and are compelled to drink enough water for a thirsty elephant, and if it muddies, well, you drink too—to drown your misery. But then one gets used to those trifles, and the annoyances experienced are forgotten in the comfort and convenience of a good political rally.

BLAINE IN OHIO. His Visit to Elyria—Workingmen's Reception on the Route. CLEVELAND, O., September 27.—This afternoon Mr. Blaine took a run out to Elyria, the county seat of Lorain, one of the most important of the Republican strongholds in the Western Reserve. Lorain gave 2,400 majority to Garfield, and she will do so well for Blaine. A few days ago a programme of Mr. Blaine's movements had been agreed upon, under which he would be at Elyria on Monday.

ARRANGEMENTS had been made to have the speaking take place in a beautiful grove near the city, and during the morning crowds kept pouring in, and there was promise of an excellent day. At 1 o'clock all hopes were dashed by a heavy rain. Notwithstanding this the clubs who were forming stuck to their posts manfully. By 2 o'clock the rain had become a deluge, and at which time the line moved and made a short detour through the city. It was a very creditable parade, in fact it would have been a good one for a bright autumn day.

THE SPEAKING. A large and imposing procession of the members of the various charitable organizations in the leading cities, and upon his return he said that he was deeply impressed with the noble and patriotic spirit of the people, and that he was proud to have been able to do anything for the improvement of the condition of the poor.

TRADE AND FINANCE.

GENERAL CONDITION OF BUSINESS. No Improvement Over Last Week's Reports—The Number and Character of Financial Distresses for the Past Nine Months—Status of Wool and Iron. NEW YORK, September 27.—Bradstreet's Journal in its commercial summary says: Special telegrams to Bradstreet's yesterday reported general trade throughout the country no better than heretofore. The movement of merchandise is still noticeably below the average, and the East and West trunk line railroads are vigorously cutting rates to get what traffic there is.

THE DRAINBACKS. The dullness of naval stores and the low prices which Georgia cotton mills receive for their products. The Louisiana rice crop is said to be 25 per cent short, and cotton seed products will fall below last year. Southwestern farmers have shipped their products relatively more freely than those in the Northwest, and goes far to explain the business situation at St. Louis.

IN EACH OTHERS' ARMS.

A LOVERS' TRAGEDY IN TEXAS. Found Dead in the Woods With an Empty Revolver by Their Side—The Epidemic of Incurable at Cleveland—Allentown Terrorized by Firebugs.

DALLAS, Tex., September 27.—A shocking double tragedy developed this afternoon by a discovery in the woods just beyond the corporation limits, on the West York of Trinity River. The victims, when first discovered, lay side by side, the man's arm extended, and partly lying on that of his lover, as if in the agonies of death he sought to embrace her in a convulsive grasp.

APPEARANCES and examination of the bodies led to the conclusion that the note was written before reaching the fatal scene, and that after the man's body he fired the pistol in his own right temple, and again pulling the trigger, fell upon his lover. Death was instantaneous, and the names on the bodies were found to be the same. The bodies, still warm, were taken charge of by an undertaker, and will be held until a claimant appears.

ALLTOWN, Pa., September 28.—The lovers' tragedy of yesterday wherein George Faustick slew Miss Fanny Manlor and committed suicide, has been the absorbing topic of conversation, and during the day the bodies have been visited by curious on-lookers. Further investigation of the identity of the victims to love is denied by unrelenting parents, and shows that they hailed from Fort Worth; that their visit to Allentown was a consummation of their murderous end. Miss Manlor was claimed by her brother this evening and taken to Fort Worth, while Faustick was buried here.

ALLTOWN, Pa., September 28.—The incendiaries who have terrorized the city for a month past came to the front again today and put the torch to the lumber yards in the fire-cursed flats, and endeavored to burn down two more business blocks. The Cuso building and another large structure on Superior street were fired, but not damaged to any great extent, as the steamers were on hand promptly. The fire in the flats was started in the lumber yards of the Cleveland Sawmill Company. The entire department was put on a great pile of boards had been ignited, and the flames and burning fiercely when the engines arrived. The yards were surrounded by a high fence, and workmen with clubs were stationed at all the gates, with instructions to guard the premises, and to keep a constantly patrolling the yards, rendering it utterly impossible for the flames to have gathered such headway from a mere spark or ember.

THE IRON TRADE.

NEW YORK, September 27.—Mr. Nebelmlah, Elson, the general sales agent of the Rochester and Pittsburgh Coal and Iron Company, has just returned from a tour through the West in the interest of the company, and was seen at the office in New York today. He went as far West as Iowa, and attended a number of the State Iron fairs. He said: "I think that the bottom has been reached in the prices of iron. There is no question that the capacity of the mills now in operation is below the normal requirements of the present. One of the most encouraging features of the situation which I noticed was the display of agricultural implements in all the fairs and the activity shown in this branch of industry. The number of agricultural implements sold, undoubtedly, is larger than ever before, and the demand is so brisk as to warrant fair prices."

"I am satisfied," said Mr. Elson, "that the outlook for the iron trade is a little better, and that we are slightly at first, but will be steady. Andrews & Hitchcock, of Youngstown, who have been idle for some time, will start up within a few days, if they have not already; and there will be a higher demand for iron. The price of steel rails. The Edgar Thompson works sold some not long ago, as low as \$25 50 per ton at the mill, but since that time the Cambria line works have taken contracts at \$29."

DRAWING A JURY IN MORMONDOM. SALT LAKE CITY, Utah, September 28.—The empanelling of a grand jury in the Third district court was completed yesterday evening. The Poland bill requires two hundred names, usually half from each party, to be placed in a box to be drawn from, as necessary to fill the panel. The system of selecting jurors on the basis of political opinions was adopted by Judge Zane, exhausted the names without completing a jury. As there is no provision under the law for such an emergency, the court adjourned until the next day, when four names were required. The opinion is that the proceedings are illegal.

A CLOUD BURST. DAYTON, September 28.—A wind storm of unusual violence swept across the country twenty-five miles north of Dayton, O., Saturday. A cloud burst, giving a fall of five inches of rain in three-quarters of an hour. The water poured down the valley like a tidal wave, raising the Miami river at Dayton five feet. A short time, and at Swift run two miles north of Piqua, the banks of the lakes connected with the Piqua water supply gave way and the flood rushed into the canal, breaking the banks.

NEWS IN BRIEF. Aaron Moore was struck by a train at Alliance, O., and killed. The rumored revolt against Parnell in County Mayo, Ireland, is denied by cable. J. F. Ronder & Co., wholesale jewelers, Louisville, assigned. Liabilities \$20,000. The furniture factory of Charles Neidic and W. Williamsburg, L., burned; loss \$75,000. The accounts of the postmaster at Pultney, L., are \$1,400 short, and he is missing. Severe and damaging thunder storms visited various places in Ohio Saturday afternoon. Pringle & Johnson, dry goods, of Springfield, O., assigned; liabilities \$20,000. Spielman Bros., Cincinnati dry goods dealers, assigned; liabilities \$38,000, and assets \$25,000. Secretary of War Lincoln has decided in favor of the admission of colored men in the Signal Corps. The jewelry store of Michael Bros., Brooklyn, was robbed of \$140,000 worth of diamonds, jewelry, etc. W. J. Dunlap, late cashier of the Louisville Banking Company, was indicted for appropriating \$48,500. Over sixteen thousand negroes have emigrated from the United States to Liberia, and others are constantly going. Considerable damage was done in the vicinity of Miami, O., by a storm of hail and rain, of unparalleled fierceness. The Rockingham House, at Portsmouth, N. H., the largest hotel in New England, burned Friday morning. The guests all escaped. The President appointed J. W. Patrick of Oswego, Kan., Indian Agent of the Potawatomi and Great Nemaha Agency, Kansas City. A collision of two freight trains on the Western Maryland railroad, near Fulton Station, Md., wrecked five cars and injured two men. Dr. Ross, of the Bureau of Animal Industry, reports that thousands of hogs have died of swine plague in parts of Maryland and Virginia. Oakley Thompson, of Frankfort, Ky., was accidentally shot and killed by his brother-in-law, Samuel Fogg, with whom he was out hunting. A collision of freight trains on the Rock Island railroad, near Dunlap, Ill., wrecked six cars and killed an engineer named Michael Radford. The deficit in the trust fund in the New York Security Safe Deposit Company's vault, to which Charles E. Stevens, now missing, had access, is \$300,000. Henry F. Graybill, a representative of one of the oldest families of the South, was arrested in New York charged with forgery and obtaining money under false pretences. The corner stone of the new Italian church of Our Lady of Mount Carmel, was laid by Archbishop Corrigan yesterday afternoon with appropriate ceremonies.

THE NUMBER OF BANK FAILURES in the United States in the past nine months is four times as large as those in a like period in 1883. There have been twice as many failures of National banks, five times as many of savings institutions, and more than three and one-half times as many private bank failures. Of the \$1,000,000,000 of National bank failures, as compared with 1883, are 10 per cent savings banks, as compared with 8 per cent last year, and about 10 per cent National banks, against 20 per cent last year. The heavy proportion of savings banks in the total of the total of National bank failures of 45 is largely in part due to speculation, many of the class denominated private bankers being of the "banker and broker" variety. Of the total of National bank failures, as compared with 1883, are 10 per cent savings banks, as compared with 8 per cent last year, and about 10 per cent National banks, against 20 per cent last year. There have been twice as many failures of National banks, five times as many of savings institutions, and more than three and one-half times as many private bank failures. Of the \$1,000,000,000 of National bank failures, as compared with 1883, are 10 per cent savings banks, as compared with 8 per cent last year, and about 10 per cent National banks, against 20 per cent last year. The heavy proportion of savings banks in the total of the total of National bank failures of 45 is largely in part due to speculation, many of the class denominated private bankers being of the "banker and broker" variety.

THE IRON TRADE.

NEW YORK, September 27.—Mr. Nebelmlah, Elson, the general sales agent of the Rochester and Pittsburgh Coal and Iron Company, has just returned from a tour through the West in the interest of the company, and was seen at the office in New York today. He went as far West as Iowa, and attended a number of the State Iron fairs. He said: "I think that the bottom has been reached in the prices of iron. There is no question that the capacity of the mills now in operation is below the normal requirements of the present. One of the most encouraging features of the situation which I noticed was the display of agricultural implements in all the fairs and the activity shown in this branch of industry. The number of agricultural implements sold, undoubtedly, is larger than ever before, and the demand is so brisk as to warrant fair prices."

"I am satisfied," said Mr. Elson, "that the outlook for the iron trade is a little better, and that we are slightly at first, but will be steady. Andrews & Hitchcock, of Youngstown, who have been idle for some time, will start up within a few days, if they have not already; and there will be a higher demand for iron. The price of steel rails. The Edgar Thompson works sold some not long ago, as low as \$25 50 per ton at the mill, but since that time the Cambria line works have taken contracts at \$29."

DRAWING A JURY IN MORMONDOM. SALT LAKE CITY, Utah, September 28.—The empanelling of a grand jury in the Third district court was completed yesterday evening. The Poland bill requires two hundred names, usually half from each party, to be placed in a box to be drawn from, as necessary to fill the panel. The system of selecting jurors on the basis of political opinions was adopted by Judge Zane, exhausted the names without completing a jury. As there is no provision under the law for such an emergency, the court adjourned until the next day, when four names were required. The opinion is that the proceedings are illegal.

A CLOUD BURST. DAYTON, September 28.—A wind storm of unusual violence swept across the country twenty-five miles north of Dayton, O., Saturday. A cloud burst, giving a fall of five inches of rain in three-quarters of an hour. The water poured down the valley like a tidal wave, raising the Miami river at Dayton five feet. A short time, and at Swift run two miles north of Piqua, the banks of the lakes connected with the Piqua water supply gave way and the flood rushed into the canal, breaking the banks.

NEWS IN BRIEF. Aaron Moore was struck by a train at Alliance, O., and killed. The rumored revolt against Parnell in County Mayo, Ireland, is denied by cable. J. F. Ronder & Co., wholesale jewelers, Louisville, assigned. Liabilities \$20,000. The furniture factory of Charles Neidic and W. Williamsburg, L., burned; loss \$75,000. The accounts of the postmaster at Pultney, L., are \$1,400 short, and he is missing. Severe and damaging thunder storms visited various places in Ohio Saturday afternoon.
