At a meeting of the Water Works and Sewerage Commission, held at the residence of the Mayor, D. McClelland, and J. M. Duval and E. A. Sheets.

Manager Thompson, of the Allegheny river, stated that it would be impossible for him to be in time to race against the Steamer at the night race advertised.

Miss White says how \$6000 former price \$50.00. HARRINGTON & Co's.

A WINDY SESSION.

THE SECOND BRANCH OF COUNCIL Causes the Little to Adjourn and Resolves in But Little Business Being Transacted.

The Appropriation Ordinance Causes a Long Discussion.

At the regular semi-monthly meeting of Council held last evening, but little was accomplished, owing to the fact that the members of the Second Branch wasted so much time in discussion. There was hardly a matter brought up in that body that was not talked over by at least three or four members, and in many cases it is doubtful if the members had any clear ideas as to what they were talking about.

In the discussion over the appropriation ordinance presented by the Finance Committee, the ignorance displayed by some in relation to the provisions of the restraining ordinance, under which the appropriation ordinance is made, was simply appalling. So much time was consumed in wrestling with this ordinance that the First Branch finished up what business it had at its sitting at 10 o'clock, and adjourned until this evening, trusting that the Second would by that time have some business ready for it.

THE SECOND BRANCH. In the Second Branch business was taken up in a sort of go-as-you-please way and committee reports, petitions, ordinances and numerous other papers were left lying on the table when the meeting adjourned at half past ten o'clock. It is not at all unlikely that another meeting of this Branch will also be held this evening.

At the last meeting of Council the hope was indulged that it had reformed, business was put through in an appropriate manner; that hope was dashed by last evening's windy session.

The most important matter considered was the appropriation ordinance, the result of the Finance Committee's deliberations on the various department estimates as provided for in the new restraining ordinance. The ordinance has a title as long as the moral law, and in the first section makes the following appropriations:

Board of Public Works \$57,482.50 Fire Department 22,848.29 Health 2,000.00 Police 1,000.00 Jail 1,000.00 Jail Prison 1,000.00 Real Estate 1,000.00

It is in the second section of the ordinance that the estimated revenue for each department is set forth as follows:

Cities 1,241.92 City Property 1,972.20 Gas and Fuel 9,200.00 Licenses 41,761.91 Markets 11,611.89

TEMPERANCE AND EDUCATION. Jobs at Keyser—Turning Their Backs on the Colored Race.

To the Editor of the Intelligencer. Sir:—Our little town has been filled almost to overflowing during the past week.

On Monday, Mr. I. H. Johnson, of the West Virginia Freeman, and Mr. Johnson, the newly elected president of the State W. C. T. U., by Rev. T. C. Johnson, and Miss Nelly Bayler, National Chalk Talker of the W. C. T. U., came to town.

Tuesday brought the educational fraternity. The people of the place were very much interested in the lectures of the teachers, and if the visitors were not equally pleased with the people they were shrewd enough to conceal it.

We know of but one unpleasant feature about the Institute. There are in our town some very intelligent young people who find their teachers and honorable positions. To such only the most meagre facilities are offered. The pleasant affair is over and they are none the better for it.

Mr. Bayler gave us an enjoyable talk on some lot in the city and other schemes of a like nature. Others claimed that night soil could not be disposed of in this manner, simply because they could not see how it was to be done.

The \$5,000 appropriated to the Health Committee for the specific purpose of building a crematory in which to dispose of garbage and night soil, raised a question at one time bid fair to become interminable. Against the views and recommendations of those who had seen and knew of the successful operation of such crematories or retorts, was urged the burning of garbage in kitchen stoves, or in a building over a heap of the night soil on some lot in the city and other schemes of a like nature.

Others claimed that night soil could not be disposed of in this manner, simply because they could not see how it was to be done. Mr. Bayler urged the appropriation with great earnestness. It was finally made clear to a majority that the money could not be expended without Council's sanction, and that nothing would be done until the Health Committee had carefully investigated a secured plan, and thus the appropriation was granted.

Just before the ordinance was adopted it was discovered that the Finance Committee had made another mistake by failing to make any appropriation for gas or water works. Another wrangle followed; the restraining ordinance was gotten out and its provisions argued pro and con. At last \$128,454.76 was added for the gas works and \$31,505.63 for the water works, \$176,960.39 which is to be used for the building of high water basins, as asked for by the Water Board.

In the second section of the ordinance \$51,505.63 was inserted as the estimated revenue from the estimated revenues of the Gas Trustee. Then the ordinance was adopted.

The Second Branch was called to order shortly before 8 o'clock by President Sweeney. The absentees were Messrs. Healy, McKinnis, Rev. Schrabro and Watson. The minutes of the previous meeting were read and approved and then the usual motion made to suspend the rules and consider applications for licenses. Coffee house licenses were granted to J. McManis, to keep at No. 104 Market street, with Peter Schraus and Strauss as sureties, and to Charles O. to keep at No. 125 Market street, with W. A. Carter and J. E. Clator as sureties.

COLUMBIC REPORTS. The Committee on Fire Department presented bills aggregating \$180,500, that were ordered paid. The Committee on Real Estate presented bills aggregating \$890,911, that were ordered paid. This amount includes \$700 for new dials and repairs to the City Hall clock, and \$300 to M. Grogan, day watchman, and \$100 to John Howell, night watchman at the new City Hall. The money for repairing the clock is to be taken from the \$10,000 appropriated by the State for repairs to the building.

The Board of Public Works asked for an appropriation to pay the following amounts: C. Leonard, brick crossing, \$628.23; Wm. Stobbs, setting curbing, \$1,009.08; West Virginia Brick Company, vitrified blocks, \$3,115.17; McMahon, Porter & Co., sewer pipe, \$1,200.00; E. L. Hogo, surveying, \$72.00; Gilchrist, surveying, \$48.00; Jerry Miles, \$437.07; total, \$7,634.41. The Clerk was instructed to draw his order on the Receiver for these amounts.

The Board also asked that an order for \$230.15 be drawn by the Clerk on the Receiver, to be paid to Wm. Stobbs out of the ten cent levy fund for setting new, and resetting old curbing along the line of the proposed improvement of Chapline, between the depot and the City Hall. The Board decided that as the ten cent levy fund was for streets that had never been improved in the way of sewers, paving or macadamizing, it had better have the opinion of the Solicitor as to whether it would be proper to grant this appropriation.

Edward Hazlett's appointment as a deputy sergeant having been confirmed, he was sworn in.

Onas Schmidt's letter to Chief Danning asking that the one appearing be pardoned on the occasion of the Senegest parade was presented and the necessary authority given the Chief.

THE BICYCLE LAW. The petition of the Wheeling Wheeling asking an amendment to the ordinance prohibiting bicycles and tricycles on the streets was read and referred by Mr. Tracy taken up. Before being read a second time for amendment and debate, the debate was had and

THE NAILERS MEET.

THE FIRST ANNUAL CONVENTION OF THE UNITED NAILERS OF AMERICA.

The first annual delegate convention of the United Nailers of America, the National League of that organization, met here at 10 A. M. yesterday, with a very fair attendance, though some of the delegates did not arrive until last evening after the day's session was at an end.

The convention was held in the new City Hall, and was called to order by President John K. Wier, of Bellaire. Mr. Mat Chew, of this city, is Secretary, and he was empowered yesterday to choose his own assistant. Little but routine business was transacted yesterday. The first thing in order was the calling of the roll. The delegates whose names were printed yesterday were: Paul, John, Brown, Mack, J. Ferrer, S. H. Sneider, Ironton; William Riley, William Jones, J. N. Patton, Stenhouse, L. K. Murray, Sharon; J. W. Battelle, Bellaire; George W. Thompson, Youngstown; T. G. Robert, Boston; Middlebury; E. S. Tannhill, Martin's Ferry; W. C. Hildebrand, Sharon; J. E. Glover, Benjamin Wilhelm, Terre Haute; K. J. Bemis, Bloomington; Robert McElroy, Mingo; L. J. Holliday, Steubenville; Theophilus Park, John, Brown, Mack, J. Ferrer.

The various officers then made their annual reports of the status of the organization. Being the first reports ever submitted, and covering the history of the Union since its organization and through a rather incorrect if brief period, these were more than usually interesting.

On motion, committees were then appointed on rules and order of business, credentials, and the usual finance and auditing committees.

There was a slight break in the machinery at the steel works yesterday that stopped work for some time in part of the works. The mill factory was running, but the rollers were forced because of the absence of nailers attending the convention at Wheeling.

When business was good DuBois & McCoy, the proprietors of the planning mill, advanced the wages of their hands each 25 cents per day. O'Leary the mill hand, however, to test the rock below and a mill hand reported that they have. The capital stock of the company has been increased.

BLAST FURNACE ACCIDENT.

At Benwood—Current Items of Interest From Benwood.

Mr. W. A. Shields is visiting relatives at Martin's Ferry.

Prof. D. W. Shelds, of Keyser, W. Va., was in town yesterday.

Miss Annie and Nellie Hoge are visiting relatives at Flushing.

Miss Ida Hammond is in Burchard, Nebraska, visiting relatives.

Mr. Colbert's house on the hill side at Thirty-fourth street is under repair.

Owen Murray has begun the building of a double dwelling at Belmont and Thirty-fourth street.

Mr. Wood Hinds and Miss Mattie Martin were quickly married Monday evening by Rev. J. K. McKallip.

P. T. King left for the East yesterday. Miss Maggie King and Maggie Morrison accompanied him to New York State to visit relatives.

The pay days at the nail works will be changed. Pay day will now come every two weeks still, but the steel works nail works will alternate.

All trains on the Cleveland & Pittsburgh railroad yesterday were run to Rush Run or Brilliant and passengers transferred. The track was obstructed by an extraordinary heavy deposit of dirt and debris from the mill.

The bottle works, which has had a long steady run, greatly in contrast with the other glass houses, will shut down after this week, and the employes are already arranging for summer trips that will scatter their widely.

Mr. Hyde, of Gravel Hill, is a hunting for a young man who left a baby for a year or two ago. She left her \$50 to pay for the care of the baby for a week, and has not been seen since, and the week is past. She was a stranger.

The Belmont Oil and Gas company has decided to bore another well about a mile from the present one. It will be bored deeper to test the rock below and a mill hand reported that they have. The capital stock of the company has been increased.
