INDICATIONS.

WASHINGTON, Nov. 19.—1 A. M.—For the Ohio Valley and Tennessee, clearing cold weather, northwesterly winds, rising barometer.

For the lower Lake region, clearing cold weather, northwesterly winds, rising barometer.

For the upper Lake region, clearing cold weather, northwesterly winds, rising barometer.

James Cline, Gregory's partner, a companion in the Drovers' Home till lapping affidavit, was tried at Moundsville on an indictment for felony and found guilty by the jury as indicted. The verdict, however, was set aside by Judge Jacob upon the ground that the evidence did not justify such a verdict; that the offense, which appears to have been committed, did not attain to the dignity of a felony. Prosecuting Attorney Meighen expressed himself as confident of his ability to send Cline to the pen, when the case is again tried. Other attorneys, however, hold different views, and say that no higher grade of crime than a misdemeanor can be made of the offense.

They are coming, the champion bicycle riders of America, Mr. Clarence H. Smith and Miss Minnie Rouchelle, at the Allegheny Palace rink, Friday and Saturday evening, November 20 and 21. Grand family matinee Saturday at 2 o'clock. Music by Meyer's band.

LOCAL BRIEFS.

Matters of Minor Moment in and about the City. One marriage license was issued yesterday. "Olivetree" at Charley Shay's Academy of Music this evening. The island rink was opened last night under the new management. ADAM RICHMOND'S American Burlesque Company in "The Sleeping Beauty" at the Opera House this evening.

A "Scherzo" is informed that Washington was burned in January, 1870. The State Legislature was in extra session at the time.

The claim of Johnson against Ohio county is for services as hospital steward at the Infirmary instead of engineer, as stated yesterday.

A regular monthly meeting of the Board of Education will be held this evening at the rooms of the Board in the Public Library building.

The German Pioneer Society gave a very enjoyable party at the benefit of the weight men at the Aron Hall last evening. The Opera House orchestra furnished the music.

Mr. JOHN McFALL, the well known pressman of the Register, is confined to his home at Fulton by a severe attack of long colic. His friends will hope for his speedy recovery.

The river is falling at this point. The depth in the channel last night according to the marks was 6 feet 5 inches. The business done was only fair. At all points above the river is falling.

The new gas tank of the city gas works holds 100,000 gallons. It is 2,000 feet high and 20 feet in diameter. It is being filled with gas from the new gas works.

The body of the man who was killed on the H-m-fly division of the B. & O. road Tuesday night, was not identified yesterday. It is thought to be the body of a resident of Elm Grove, but this man turned up alive yesterday.

CLARK Hook yesterday admitted to record a deed made November 18 by F. D. Snyder to John William Voelcker, in consideration of \$1,000 for lot 9 of Armstrong Hunter & Co. in the city of New York, New York.

The Morning Star Social will hold a skating and dancing carnival at the island rink this evening. The new management will do all in its power to make the occasion an enjoyable one. A large crowd is expected to be in attendance.

It is proposed after all the city departments are quartered in the Public Building and the furnishing and fitting up of the office is complete, to open the building to the public, for the inspection of ladies and gentlemen who desire to visit it.

BERNARD SHERK, indicted for stealing Joseph Bertoff's gold watch, and J. W. Kline, indicted for assault upon Frank Maloney with intent to kill, were each admitted to bail yesterday in Part II of the Circuit Court, the bond in each case being \$1,000.

The weather yesterday was much like that of March or April. A drizzling, disagreeable rain began to fall early in the day, and continued until after midnight. Crossings, sidewalks and streets were thick with mud, and the ground was disagreeably soft and muddy.

GUS WILLIAMS' play, "Oh, What a Night!" is said to abound in catchy airs and epigrammatic sayings which at once pass into the vocabulary of current slang wherever the play is acted. It will be presented at the Opera House Saturday afternoon and evening. The sale of reserved seats commences at Baumer's music store this morning.

YESTERDAY morning, at St. Alphonsus church, in Centre Wheeling, ex-Officer Richard W. Wilkie and his wife, Miss Augusta Diemiller, were married. The ceremony was performed in the presence of a number of friends, who tendered warm and sincere congratulations at the conclusion of the service. Both Mr. Wilkie and his wife are well known and enjoy an enviable popularity in their circle of friends.

The race announced for to-morrow evening at the Chapline street rink between Jesse Burkett, of this city, and John Dobbins, of Steubenville, formerly of this city, is expected to be a most exciting one. It is to be a race of mile heats, best two in three, for a purse of \$50 a side. Both men are said to be in excellent form, and Dobbins especially is expected to give a good account of himself. Mr. Martin's Ferry friends are expected to be present. It is bound to be a hotly contested race.

Just received sixty pairs of those ladies' extra high cut, fine, melle, more or button shoes. A special offer at \$2.00 per pair at J. W. Amick's, 1143 Main street.

ABOUT PEOPLE.

Col. Frank Baker, of the Marine Journal, New York, is in the city.

Prof. Louis Vaas, director of the Opera House Orchestra, is confined to his room by an attack of illness.

Miss Suee Cozard has assumed the duties in the money order department at the postoffice, formerly performed by Miss Theresa Phillips.

Mr. Frank Shay, who has already become a popular favorite, will appear at Charley Shay's Academy of Music to-night as "Cocoquett" in "Olivetree." It is one of his most amusing characters and is full of local hits which will prove interesting.

Messrs. W. H. Rinehart, J. W. Amick, S. K. McKee and John C. Lynch leave this morning for Martinsburg, where they will attend the annual convention of the Young Men's Christian Association of West Virginia and the District of Columbia.

Pr. V. H. Seaman, son of Capt. Henry Seaman, who has been in the city for several days, leaves to-day for Morgantown. Prof. Seaman reports that he has met with some encouragement in his project to establish an industrial and scientific school here next fall.

Men's Fine Shoes. Stacy Adams & Co. men's finest shoes, most stylish and best made, at J. W. Amick's, 1143 Main street.

Adah Hickman To-night. In "The Sleeping Beauty" to be presented at the Opera House this evening by the Adah Richmond American Burlesque Company, is a Zouave drill by twenty pretty girls, followed by the Zouave band, and a variety of other acts. There is also an Egyptian march which has been highly praised. The company has been playing to good business in Indianapolis, St. Louis and Chicago. The company renders the latest and most popular songs, including selections from "The Mikado," "Nanon," "The Black Hussar," and other new operas. The popular song "Read the answer in the Stars" will be given. The costumes are said to be very rich. Reserved seats at Baumer's.

A pleasant and instructive entertainment will be given in the music room of the United Fraternity Church to-morrow evening. The first part will be an allegory called "Seeking for Happiness," the characters being taken by ladies and little girls. The second part will conclude with the old and always popular and laughable "Mrs. Jarvis' Wax Works." The evening will be a thoroughly enjoyable one, as no pains have been spared to make the affair a perfect success.

Great race at Chapline Street Rink Friday night between Burkett and Dobbins.

A NEW COAL COMPANY.

TO OPERATE THE UNION MINES. Opposite Moundsville—A Valuable Property Owned by Three Prominent Men, One of Them a Resident of Wheeling. Growth of the Coal Business There.

One of the proprietors of the Union Coal works, opposite Moundsville, says that a joint stock company, with ample funds, is about being organized for the purpose of operating the works on an extensive scale. A meeting of those interested will be held at Ballou one day this week, for the purpose of perfecting all preliminary arrangements, when a charter will be at once applied for and a large force of miners employed and put in the mines. This is one of the most extensive and valuable coal properties in the Ohio Valley. The slope was put down about the close of the war, and with the hoisting and pumping apparatus, all of which is of the most substantial character, cost about \$100,000. Long entries are opened up and supplied, as is the slope, with water, and all the machinery and order for mining and taking out coal rapidly and in large quantities. The property consists of over 100 acres of land, and is owned by Dr. Friswell, of this city, John Jos. W. Thompson, of Parkersburg, and Chas. Thompson, who lives on the place.

Between 100 and 100 miners are at present employed at the Moundsville Coal Company's works, the output Friday last reaching the enormous quantity of 1,000 bushels. All in all, the mine, with the exception of that taken to supply the local demand, no considerable amount by the way, as owing to the rapidly diminishing supply of fire wood in the vicinity nearly all the wood is cut and used for heating purposes exclusively, and many of them in their cooking stoves, is dumped directly into the recently erected hoisting apparatus into railroad cars, on the track extending to take up along the lines of the B. & O. and the Ohio River Railroad. More than one-half the present output of the works comes to this city. Time was, and is not very long since, that Moundsville was a coal-mining town, and the coal was shipped to the Benwood and Boggs' mines. Now thousands of bushels are shipped from there past those places daily.

NATURAL GAS. Its Use at the Kanawha Coal Trade—For the Use of Merchants' Views.

A number of leading manufacturers from Richmond, Ind., were visitors to the Washington county, Pa., oil and gas fields yesterday. To-day they will inspect the workings and results of natural gas in and about Pittsburgh, with a possible view towards investment. They say that gases they can get natural gas that pleases they will either have to quit or move to Pittsburgh.

Mr. Neil Robinson, of Coalburg, this State, was also in Pittsburgh with these gentlemen Tuesday evening, and interviewed by the Dispatch representative. In reply to the question, "How is Pittsburgh natural gas affecting the coal trade in the Kanawha Valley?" Mr. Robinson, who is a prominent coal operator, said:

"It affects us badly. Kanawha operators have paid a big price out of their pockets for every gas well struck in this region. Therefore we have always been able to sell our slack and coal for a little more than enough to pay expenses. Now we lose money on every bushel loaded. No one will buy slack and not use it as a fuel, and that is a great loss. We are waiting for buyers. Since the big rise in the Kanawha, two big companies have assigned. That is what we think of natural gas in Pittsburgh. There is no use for it here, and it is not wanted in the Southern markets at ruinous prices. Pittsburgh operators as well as operators along the Kanawha and in the Hocking Valley."

Oil to Complete With Gas. James Billings, of Boston, is in Pittsburgh investigating natural gas. Mr. Billings says he is getting on a new scheme over there in Boston, in the way of fuel, just now, by means of which the use of coal with natural gas, and that is the utilizing of carbon oil, by the commingling of the elements with the natural gas, in the chamber of the furnace, with a larger supply of air than usually finds its way there under ordinary conditions. Petroleum smokes when burning because of a deficiency of oxygen. The gas is not in excess of the fuel, when lighted, to give out all its latent heat, because the oxygen of the air is completely overcome by supplying the gas with an excess of oxygen. That is, by the use of an air pump which is under complete control, and worked directly by steam from the boiler. Mr. Billings adds: "Manufacturers up there are getting on a new scheme, and a new process, but from what I have ascertained with regard to natural gas they will not be able to compete with Pittsburgh manufacturers. There was a test of the Therm motor some time ago at Saginaw, Mich., and the result was that it was a success in every way in the matter of economy of fuel."

A FEEDER'S PROPOSAL. He thinks the Nallers Ought to Go to Work on the Editor of the Intelligencer.

Sir:—It is nearly six months now since the nall strike began. Winter, and with winter wad, is now coming on, and the strike still remains unsettled, with no prospect of an early termination if both sides as firm as they appear to be. I do not see how the poorer class of feeders and other men who are now in the strike are to hold out as long as they have. Many of them are now in want, and many more of them soon will be. The nallers have kept up the strike long enough, and since they have no good prospect of gaining their wages, it is better for them to be in a position to get their wages than to hold out any longer. If the nallers wish or intend to work here in the Ohio valley any more, let them do so, if not, then let them go to the strike and let the men who do wish to go to work do so honorably and at once. The strike and the privation and want attending it cannot come to an end too soon. NALLER, Wheeling, November 18.

The Ashland Nail Mill. The Norton mill turned out 3,745 keels of ash and oak week with eight machines running. At the end of the week two feeders who had taken machines gave up their job. One had taken a feeder for nine and the other for ten years. We are informed that one who would have made a feeder in these places were filled on Monday morning. On Tuesday, several nine machines were in operation. The mill received in all 170 tons of steel last week, and the remainder of the 1,000 tons will be delivered.

The Henswood Conspiracy Cases. The conspiracy cases against the Benwood and Henswood mines, which have been watched with such general interest, on account of the prominence of the gentlemen indicted and the severity of the penalty, it being made a felony under an act of 1852, are now in the hands of the first indictments under the act ever returned in this section of the state, were continued at the recent session of court at Moundsville, till next term of court.

CLARA MORRIS.

A Short Chat with Her Agent—Her Coming Appearance Here. Mr. Frank A. Small, agent for the greatest of all emotional actresses, Clara Morris, was in the city yesterday. In a short talk with a reporter, Mr. Small stated that Miss Morris would only play one night in Wheeling, but had selected the most popular play in her repertoire for that occasion, which will be next Wednesday, the 25th. The play is the most successful dramatization of Wilkie Collins' great novel, "The New Magdalen." In response to an inquiry Mr. Small said:

"Miss Morris is in much better health this season than she has been in years past, and will not take any chances on the road, but she has so recently gained, she will not travel and at the same time attempt to play more than four times in one week. The fatigue of travel and work together is likely to prevent her from being completely satisfied with an audience. Her acting at present shows the good results of this light work, and is stronger than it has been since she has been on the road, and is giving her satisfaction to the public at every step we visit."

"What is her strongest play?" "That is a hard question to answer. Some people like one and others another, yet from a box-office standpoint there are two plays which are public favorites. 'L'Article 47' is a story of hate and revenge. 'Miss Multon' is a play of tears, a disgraced wife with great maternal love, while 'The New Magdalen' contains resignation, ambition, love, sorrow, contention, and a study on the passion of love. It gives a better opportunity for Miss Morris to display her wonderful versatility and is therefore my own particular favorite, and I am not alone in this like."

"How is Miss Morris coming?" "She is coming very well. She has had her best ever had. Mr. Eben Pympton, the leading man, is one of our best actors, having been several years leading man for Adelaide Nelson and Edwin Booth, both in Europe and America, and has probably the most perfect command of the English language. He gives a better opportunity for Miss Morris to display her wonderful versatility and is therefore my own particular favorite, and I am not alone in this like."

SHOT FOR A BEAR.

THE FATAL MISTAKE OF TWO MEN. In Monroe County—An Intoxicated Man Asleep in a Fence Corner is Riddled with Bullets in the Dark Under the Impression that he is a Wild Beast.

Rufus Huffman, of Monroe county, was returning to his home just after dusk. As he was driving along, his horse shied and he noticed a dark object in the corner of the fence which he took to be a bear. Turning about he rode back to a farm house and notified the men there that a bear was up the road. One of the men, Jacob Pine, produced two shot guns, and loading them heavily with buckshot, he and Huffman started after the bear. The dark object was found and both charges fired into it. Upon investigation they found what they supposed to be a bear. His head was torn with small shot and three buck-shot had pierced his body, inflicting mortal injuries. Nothing could be done for the poor fellow, and after lingering a few hours in an apparently unconscious state, he died. It seems that Rufus Huffman had been slacking corn for Huffman during the early part of the day, had procured a quantity of boiled cider, and had become very much intoxicated. In this condition it is supposed, he idly wandered into the fence corner, divining the dreadful mistake which cost him his life. The deceased was an unmarried man about 40 years of age, of inefficient disposition. The two men were arrested, charged with murder, but the evidence not sustaining the accusation they were discharged.

THROUGH THE STATE. Accidents and Incidents in West Virginia and Vicinity.

Gas at Cambridge, Ohio, is being tried to \$4.50 per thousand feet.

The Salvation Army people are trying to get a foothold in Barneville.

The Greenery county, Ohio, Common Pleas Court commenced last week with 295 cases docketed.

The Council of Little Washington has appropriated \$150 to James Hammett, the Chief of Police who is on trial for murder, to be used in defending himself.

Men who are well posted estimate that the county has already expended \$300,000 in the vicinity of Washington, Pa., in the purchase of lands, leases, lumber, machinery, labor, &c.

Owner A. Parish, of the St. Marys Opera office, claims to be the most rapid type-setter in West Virginia and claims that he can set a page in 15 minutes.

Moundsville is undergoing a week of drama by the Waite Comedy Company. The people there are enthusiastic in their praise of it.
