

A SUMMER CAPITAL.

The National Headquarters will be at Deer Park

FOR A FEW WEEKS TO COME.

The Cabinet Meetings to be Held There and the President Will Hold Court the Same as in Washington--Other News.

WASHINGTON, July 16.--It is said at the White House that the President will return to Washington to-morrow, but will go to Deer Park again Friday or Saturday.

A meeting of the Cabinet will be held at the White House to-morrow, but at what hour cannot be stated, as the exact time of the President's return is not yet fully mapped out.

The indications are, however, that it will not be held until late in the afternoon or in the evening. Private Secretary Halford, who was in charge of the White House to-day, said that the President had not yet fully mapped out his plans for the summer, but will undoubtedly do so to-morrow or the next day.

The President is very well pleased with Deer Park, and no longer looks with favor upon the original plan of railroad trips to Washington once a week, especially as he feels that the administration of affairs for the next few weeks can be conducted at Deer Park with far more satisfaction than at Washington.

Halford said further that there appeared to be no particular necessity at present for stated meetings of the Cabinet, and if occasion arose they could be held at Deer Park just as well as in Washington.

It is more likely, however, that the President will take up the business of each Department separately, in which event the individual members of the Cabinet would visit Deer Park whenever their presence was desired.

It would therefore appear that the President will probably establish his headquarters at Deer Park for the summer. During the President's absence the White House is undergoing its usual summer renovation.

THE PRESIDENT'S OFFICE.

A sensible recommendation by the Commissioner of Public Buildings and Grounds.

WASHINGTON, July 16.--Col. John M. Wilson, Commissioner of Public Buildings and Grounds, in his annual report to the Chief of Engineers, recommends that an office building be erected for the use of the President just west of the White House, where the green house and conservatory now stands.

It is believed that the time has come when the Chief Magistrate of the country should no longer be obliged to have his private residence and his office under the same roof. The President is entitled to the same privacy in his home as the humblest citizen. The suggestion is made that the office be erected might be connected with the White House by a picture gallery opening into the east room and containing portraits of all the Presidents and their ladies.

These ideas are submitted with the hope that Congress will take the initiative in this matter. The bill for the improvement of the Mississippi river between the Ohio and Illinois rivers, reports that the plan of improvement contemplates a reduction of the river to an approximate width of 2,500 feet below St. Louis, and estimates that \$1,000,000 can be profitably expended during the next fiscal year.

The report also states that \$10,000 can be profitably expended on the Osage river, and the same amount on the Gasconade river, Missouri.

Assistant Editor Appointed.

WASHINGTON, D. C., July 16.--Major Miller, of the engineer corps in charge of the improvement of the Mississippi river between the Ohio and Illinois rivers, reports that the plan of improvement contemplates a reduction of the river to an approximate width of 2,500 feet below St. Louis, and estimates that \$1,000,000 can be profitably expended during the next fiscal year.

The report also states that \$10,000 can be profitably expended on the Osage river, and the same amount on the Gasconade river, Missouri.

SOME WISE COUNSEL.

The Sullivan-Kilrain Referee Advises All Parties to Surrender Themselves.

NEW ORLEANS, La., July 16.--John Fitzpatrick, referee of the Sullivan-Kilrain fight, to-day telegraphed to the stakeholder, Griggs, at New York, to pay over the money to the Sullivan party.

Fitzpatrick, Pat Dully and others will go to Paris and appear Thursday and give bail for their appearance to answer to the November term of the court for aiding and abetting the recent prize fight. Mr. Fitzpatrick states that the meeting yesterday at Jackson between Governor Lowry and himself was of a cordial character, he being received in the most pleasant manner and with the kindest consideration.

The Governor expressed himself as determined to bring all the offenders to justice sooner or later.

Mr. Fitzpatrick says there is no doubt as to Governor Lowry's earnestness for the matter, and he thinks the wisest and safest plan for all concerned would be to follow his example and surrender to the authorities of Mississippi, and thereby avoid all the annoyance and the complications which are apt to arise from the issuance of extradition papers, etc.

It was probably a joke.

CHICAGO, July 16.--Inquiry was made to-day at Parson Davis' place in regard to the identity of the man who, over the name of Henry Hudson, wrote to Jake Kilrain's wife, telling her that he had overheard Mitchell telling another man before the fight that Sullivan would be a certain amount of money for the representative said he knew every New Orleans at the time of the fight and that no man by the name of Hudson was among them.

The man was either writing to answer to the November term of the court or he conceived to be a joke.

A CASHIER DISAPPEARS.

When the Safe is Opened the Cause will be Learned.

WICHITA, Kas., July 16.--Ed. Paul, cashier of the Pacific Express Company, did not appear yesterday, and after waiting an hour or two a messenger was sent to his room.

The doors were locked and the messenger could get no answer. An officer was notified and the doors were forced open. Some of Paul's valuables were missing, and things looked as if he had stolen the cashier's key, and the company knew the combination to the safe and tried to open it, but failed.

Paul has not been in the city since Saturday evening. He left the office at 3 o'clock in the afternoon, saying he was not feeling well and would not be back that evening. The officials of the company are keeping the matter as quiet as possible. It is learned, however, that there ought to be about \$45,000 and \$50,000 in the safe. Paul has been cashier for two years. He came here from Cleveland.

A later dispatch says: Special agent Kyle, of Kansas City, arrived here to-day and opened the safe. Both he and the local agent say nothing was missing. The safe had not been opened as it is believed the Company are attempting to conceal the facts and that the \$40,000 in greenbacks which was received Saturday night was taken by the missing cashier. The special agent of the Pacific Express Company is here tracing the missing man.

IT WILL BE A "GO."

The Salt Trade Formed, but Under Some Difficulties.

EAST SAGINAW, Mich., July 16.--W. O. McClure, one of the heaviest salt men on the Saginaw river, who has just returned from New York, where he went with W. R. Bart, for the purpose of forming a salt trust, says there is considerable difficulty in forming the new trust, because the New York and Southern manufacturers are placing fabulous prices on their plants. He added, "It is not likely that we will get a trust worth of stock. All men who go to the union do not necessarily become stockholders. All options which have been secured were sold on a cash basis, but I think this is not understood." In Michigan, Mr. Bart did not go to New York to meet the Louisiana salt men, as was reported in the New York papers. There is no question but the salt union will be a "go."

Hall Prizes Awarded.

NEW YORK, July 16.--The Caleb G. Hall prizes annually awarded by the American Institute of Civics to graduating students in American colleges, where essays or orations on subjects relating to citizenship and government possess the highest merit, are announced for the year 1889 by President Henry Randall Walte. They are: Beloit College, Henry B. Kempie, of Milwaukee; Buchtel College, Edwin Coe, Akron, O.; Rio Grande College, Anna M. Shepard, Gallipolis, O.; University of Minnesota, Gustavus Braundt, Minneapolis, Minn.; Prof. A. B. Woodford, of New Haven, Conn., late of the chair of political science in the University of Indiana, has been made a member of the faculty of the institute, and acquired a national college and professional school department.

A Religious Band Sent to Jail.

TORONTO, Ont., July 16.--The Pentecost band was before the court yesterday on a charge of conducting boisterous and disorderly meetings for six weeks past. Over seventy-five witnesses were examined. A fine was imposed on each of them. Their followers immediately offered to pay the fine, but the sisters would not permit them to do so, claiming that they preferred to go to jail.

A Leading Naturalist Dead.

INDIANAPOLIS, July 16.--News has been received here of the death of Chas. H. Bollman, of the National Fish Commission in the swamps of Southern Georgia, where he was engaged in scientific work for the Government. He was a recent graduate of the Indiana State University, and had acquired a national reputation as a naturalist.

An Important Railroad Move.

Cleveland Leader and Herald.

While nothing of public importance seems to have been done at the Cincinnati, Hamilton & Dayton meeting, the directors of the Wheeling & Lake Erie road, owned by Sidney Dillon, Russell Sage, W. A. Taylor and Eugene Zimmerman, have taken a step of great public interest at the present time. They this morning elected M. D. Woodford, President of the road. The significance of this action lies in the fact that Mr. Woodford is also Vice President of the Cincinnati, Hamilton & Dayton road, and is a blackboard and crayon to prove to Cincinnati, Hamilton & Dayton stockholders that the Wheeling & Lake Erie is the coming lessee of their road.

An Important Element.

Of the success of Hood's Sarsaparilla is the fact that every purchaser receives a fair equivalent for his money. The imitation is so numerous that it is difficult to distinguish the original with true only of Hood's Sarsaparilla. This can easily be proven by any one who desires to test the matter. For real recovery, buy only Hood's Sarsaparilla. Sold by all druggists.

Sudden Death.

Special Dispatch to the Intelligencer.

BLAMES IT ON THE GIRL.

Smurthwaite Says She Suggested the Elopement, AND HE WASN'T PARTICULAR.

The Steubenville Marshal Reaches Philadelphia--Four Hundred Dollars of the Stolen Money Recovered--In Separate Cells.

Special Dispatch to the Intelligencer.

STREUBENVILLE, O., July 16.--The latest of the youthful runaways is as follows: Marshal Scott left for Philadelphia at midnight last night, the requisition papers having been sent to Columbus for the Governor's signature, it being decided that it would be best for some one to go to Philadelphia at once. The papers, which arrived here this morning, will either be sent to the Marshal by mail or taken in person by Sheriff Burns.

A telegram from the Marshal at Philadelphia this afternoon shows that it is well that the papers are en route, for by the Pennsylvania laws Smurthwaite could not be brought here against his will unless by virtue of the papers in question.

James F. Stephens, the father, naturally feels a parents' reluctance to prosecute his child, but thinks that Anna, if the detective manages it right, can be induced to confess and thus legally implicate Smurthwaite. The latter, according to a Philadelphia dispatch, is endeavoring to lay the blame all on Anna, and he is a 23-year-old man, says 14-year-old Anna received the money--where he is now particular to inquire--brought it to his house and gave it to him there, and suggested the elopement. He intimates also, that she had been running after him for some time. Very little credence is placed in his story.

ANNIE AFFRAYS OF DARKNESS.

The father says Anna is afraid to stay alone after night, and therefore after a night or two of solitary confinement and skillful questioning by the detective, he is confident the truth can be secured; and that she would be saucy and impudent and headstrong to the point of making her spirit broken or she frightened, he doesn't doubt.

There is, however, some evidence in existence which refutes Smurthwaite's story in important particulars, but as to which the time has not yet come to make it public.

It is Mr. Stephens' expressed purpose to punish Smurthwaite to the extent of the law, and to do so he would even sacrifice the entire fortune of the new combination and pay what would be a large sum to the publishers. The large houses in the trade hitherto have yielded from fifteen to fifty men to solicit orders, at salaries ranging from \$1,000 to \$3,500. The firm of A. S. Barnes & Co., one of its members says, has been in the habit of paying more than \$100,000 a year to salesmen, and other houses have paid salaries at the same rate. The saving in expenses which the agreement will afford, he says, will enable the publishers to sell books at lower prices. Besides the members of the book syndicate, which has been a customer of the firm, the new combination includes Harper & Brothers and other firms heretofore opposed to union.

A CREDIT TO THE NAVY.

The New Gunboat Patrol Shows up Well on Her Trial Sailing.

BALTIMORE, Md., July 16.--Although the gunboat patrol, which left here Saturday, returned this morning with part of her machinery out of order, she has shown herself a credit to the navy. The secondary link strap of the low pressure valve gear broke yesterday on her return trip. Before the accident she developed 300 horse-power for a short time, and made a record of 13 knots. She turned completely around in five minutes, and made a record of 13 knots. She made 13 knots while not under forced draft, which indicates that she could make 16 knots under forced draft. She turned completely around in five minutes, and made a record of 13 knots. She made 13 knots while not under forced draft, which indicates that she could make 16 knots under forced draft.

HE WANTED THE FARM.

A Young Man Attempts to Poison His Parents and Sister.

THREE OAKS, Mich., July 16.--The Sebring family, consisting of father, mother, sister and a son Horace, were taken with symptoms of poisoning soon after supper Friday night. It was said the poison had been administered in tea and that Horace Sebring was under suspicion. Having refused to drink the beverage and not having suffered any symptoms of poisoning. The reason for the poisoning is not known. It is said that the young Sebring wanted to marry a girl who refused him because of his poverty and as the farm was willed to him the death of his parents and sister would make him his possessor.

THE HIGH BINDER WAR.

A Murdered Chinaman Every Morning in San Francisco.

SAN FRANCISCO, July 16.--The High Binder warfare in Chinatown promises to give San Francisco a murdered cooley every morning. Saturday night about midnight a mongolian was shot by a fellow High Binder, to satisfy the assassin a few days before. Yesterday morning a Chinese sewing machine operator, was fatally shot in the back by Ah Yuen, who fired on him from the doorway of a dark alley. The assassin was identified, but as the victim was not concerned in the feud of the two rival societies the police believe that Yuen made a mistake and shot the wrong man. Both gangs of High Binders are wearing vengeance and the police expect a murderous fight when these braves meet.

GAVE HIMSELF UP.

A Jury Briber Surrenders After Wandering Over the World.

SAN FRANCISCO, July 16.--D. J. Creighton, ex-State Senator, who was convicted of jury bribing nearly two years ago and escaped from this city before sentence was pronounced, arrived here from Victoria last night and surrendered to the police. Creighton, who was under bonds, left here two days after conviction for Guaymas, Mex., and from this place went to Panama, where he took a steamer for London; from London he sailed for Australia and was passing to Honolulu and Victoria. He stated that he could not endure his exile any longer and determined to come home and give himself up so that he could be near his wife and children.

DAKOTA'S WHEAT CROP.

It Will be 30,000,000 Bushels Short on Account of the Drouth.

GRANTON, Dak., July 16.--The wheat crop of Dakota is 30,000,000 bushels short. The figures are large but not in the least exaggerated. The total production for the territory cannot under any circumstances be more than 100,000,000 bushels, and the loss of 30,000,000 is a heavy one. The crop is being harvested, which will begin in the north by the 25th, exceed 20,000,000, and to put it at that is a liberal estimate. The great detriment to a successful crop this year has been the exceedingly dry season, and only along the streams there will be any crops at all. In the spring the most terrific winds raved in this territory and for weeks after the crop was sown the air was filled with the flying particles of soil that should have been fertilizing nutriment to the seed that was lying exposed and burning on the surface.

The Elks' Banquet.

PITTSBURGH, July 16.--The third annual reunion of the Benevolent Order of Elks began in this city to-day and will most elaborately terminate at the close of the week. Old City Hall is most appropriately decorated and preparations have been made for the entertainment of the expected 1,000 visiting members. To-morrow morning the order will be welcomed by Mayor McClellan and others, and a grand street parade will take place in the afternoon with a banquet in the evening.

THE "HARRISON GRIP."

A Strange Disease at Newburg--Two Thousand People Have It.

NEWBURG, N. Y., July 16.--A strange malady, that appears to be epidemic, is prevailing in this city.

MOUNTAIN LAKE PARK.

The W. C. T. U. in Possession This Week. Special Dispensation Outlined.

MOUNTAIN LAKE PARK, July 16.--The Woman's Christian Temperance Union will be in full possession of Mountain Lake Park from the 17th to the 22d, with an unusually interesting programme.

Beginning with lectures on Wednesday, Mrs. M. S. Bell, of Chicago; Mrs. Anna R. Hamner, of New Jersey; Miss Mary Allen Vint, editor of the Union Signal; and others, this first day will close with an evening concert by the famous Silver Lake Quartette. Thursday has a full programme for the day and an address in the evening on "The Crime of Intemperance," by Rev. F. M. Ellis, D.D., of Baltimore.

Friday afternoon will have a medical conference and a live discussion on "Woman's Entrapment," by Dr. E. L. R. Carakand, Hon. George E. Price, T. R. Carakand, Rev. L. E. Peters, Mrs. Jennie McClurkin and others, and in the evening an address by Mrs. Mary T. Lathrop, of Michigan.

Saturday will be Saturday, with addresses by Miss Jennie Smith and others in the forenoon, and Rev. C. H. Mead, of New York, in the afternoon. Saturday evening the Mountain Park will be a brilliant and musical with the lawn fete and Silver Lake Quartette. The local committee will arrange for Sunday services and Monday will be mostly taken up with conference business.

After closing the Mountain Park, the Baltimore and Ohio railroad sells tickets to the conference at one fare for the round trip, tickets good from the 16th to the 26th inclusive, and also runs special excursion trains on Wednesday, 17th, from Gratton and Cumberland at almost nominal rates.

MURDERER BOLAK HANGED.

A Man Who Killed His Friend for a Hundred Dollars.

BEVERLY, N. J., July 16.--Michael Bolak, the murderer of Michael Bolinsaire, was hanged here this morning at 10:54 o'clock. The body was lowered at 11:21. Bolak's neck was not broken by the fall, and he died from strangulation.

The crime for which Bolak suffered the death penalty was the killing of his boom friend and fellow countryman, Michael Bolinsaire, at Oxford, N. J., on the night of September 20, 1888. Bolinsaire was an industrious fellow, and had saved up a considerable sum of money, which he carried in a belt on his person. He had frequently showed his money to his friends, and all the workmen knew that he carried it with him for fear that some one would steal it. Bolak was related to his victim, and the two were together in the same mill and lived together.

On the night of the murder they left the mill for the ostensible object of strolling near the home of Bolinsaire's orchard near here. They were on the tunnel hill, and striking the track of the Delaware, Lackawanna & Western road, continued their walk some distance toward Washington. When a convenient point was reached Bolak was seen to be committed in the most brutal manner. Bolinsaire was shot several times in the back and side, and was then dragged across the railroad track. Hollinsaire was evidently not being dead, Bolak picked up several good sized stones and his victim on the head, crushing his skull. Bolinsaire was then dragged to the dead man of his money and then fled. Bolak was seized and conveyed to the April term of court and sentenced to be hanged by Chief Justice Bevier. The prisoner for the most part seemed indifferent to his fate.

HE WANTED THE FARM.

A Young Man Attempts to Poison His Parents and Sister.

THREE OAKS, Mich., July 16.--The Sebring family, consisting of father, mother, sister and a son Horace, were taken with symptoms of poisoning soon after supper Friday night. MR. PARNELL FINISHES.

He Declines to Present His Case Any Further.

IT IS PLEASING TO IRISHMEN Generally in the Old Country--The Case Continues, However--Witnesses Examined Yesterday.

Other Foreign News.

LONDON, July 16.--Upon the opening of the Parnell commission this morning, Sir Charles Russell, counsel for Mr. Parnell, arose and addressing the court stated that after full consideration of the situation, Mr. Parnell had instructed him and Mr. Asquith, also of counsel, to no longer represent him before the commission.

In reply to Sir Charles' statement, which virtually was a notification that Mr. Parnell declined to make any further presentation of his case before the commission, Presiding Justice Hannen said: "Mr. Parnell will, of course, remain subject to the jurisdiction of the court."

Messrs. Reid and Lockwood, counsel for other members of Parliament against whom charges were made by the Times, then also withdrew from the case.

Mr. Parnell then made a personal application to the court, asking that if there was any desire to further examine him such examination be proceeded with without delay. He complained of Attorney General Webster's action in postponing for three months his re-examination on the subject of the checks drawn by Mr. Parnell. The court, Mr. Parnell being present, ordered that he be re-examined or else discharged him from further attendance. Presiding Justice Hannen promised to try to meet the convenience of Mr. Parnell by recalling him on Thursday.

After closing the Parnell and the other members of Parliament had retired, Presiding Justice Hannen said that the scope of the inquiry would not be altered by their action. The persons hitherto represented by counsel had applied to resign the case, and they were then removed.

Mr. James O. Kelly, member of the House of Commons for North Roscommon, was called. He declared that he had no statement to make.

On cross-examination he admitted that he was a member of the Irish Republican Brotherhood from 1896 to 1870. In 1871 an attempt to arrest him was made when he was leaving Ireland and he was found in the possession of a revolver in his luggage from an agent who was shipping arms to Ireland.

Sir Henry James, of counsel for the Times, produced several letters written by Mr. O'Kelly, partly invisible ink, in which he admitted that he had possession of arms and the joinings of the Fenians. One of the letters referring to a remittance of \$21,000 from America contained a passage reading: "We are ready to go to the field when the proper order is issued."

The witness admitted that the letters were authentic. While witness was in America he joined the Clan-na-Gael. This organization sent him to Ireland as military officer to reorganize the men. He received \$9,000 towards his expenses. He did not effect the object of his mission, finding that the agents in Ireland declined to co-operate with him. He therefore considered his mission ended and returned to America and returned the money. Since that time he had had no connection with the Clan-na-Gael or the Fenians. During his career in Parliament he had received no money from America for the purpose of re-election.

Mr. Matthew Harris, member of the House of Commons for East Galway, testified that he joined the Fenians in 1855. The death penalty to traitors was not an essential feature of the Fenian constitution. Mr. Harris instanced the case of the informer, Hickham, and said that the society, after discussion, decided that he should not be shot.

President Smith was quite sick all day, but was on duty. He never gave up while there is a possible chance of keeping up.

The National Glass Budget gives one of those prominent in the convention the following deserved note: Frank B. Archer is a chimney blower by trade, and worked for many years in the National Glass Workers' Union. He was President of Local Union No. 34 for a number of terms and has frequently been a delegate to the annual convention of the American Flint Glass Workers' Union. He has also been a member of the national executive committee, and has been elected Secretary of that body. Every position of trust which he has held was filled with honor to himself and to the satisfaction of those who selected him. At present he is engaged in the glass business, and his industry and ability is building up quite a trade. Were he to be chosen by the citizens of Belmont county, he would be the position of Treasurer, he no doubt will fill the position to the satisfaction of all. The remaining convention will be held on August 20.

PRESIDENT CAMPBELL ENDORSED.

The Window Glass Workers Cordially Commend His Administration.

PITTSBURGH, Pa., July 16.--The session of the Window Glass Workers to-day was a very lively one. This morning, after some routine business had been transacted, the resolution endorsing President Campbell and the incorporation of the twenty-six foreign glassworkers who are now employed at Jeannette, was brought up for discussion. A regular business session was held, but it was learned that after a heated discussion resolutions were adopted recognizing the fact that the President and Council in acting in this matter did not act as individuals, but only carried out the instructions of the Assembly; that the administration of President Campbell has been wise, judicious and worthy of commendation; that a vote of thanks be tendered President Campbell for the efficient manner in which he has filled the office of President of the Assembly.

The New Steamer Liberty.

Steam was raised yesterday on the new steamer, the Liberty, which the Swedes have been building here. Everything was found to work nicely, and as soon as the inspection has been made by the Government officials and the necessary papers made out, the trial trip will be made, probably some day this week. The Liberty is a handsome stern-wheeler about the size of the Abner O'Neal, and will run in the old Tidewater of the Chesapeake Bay.
