WHEELING, JULY 24, 1899.

PERSONS going out of town for the summer can have the DAILY INTELLIGENCER mailed to them for 50 cents per month.

We have some flood sufferers of our own. Shall they appeal in vain?

FRESH TRIBUTES should not make faces at the Salt Trust. It's English, you know.

JOHN L. SULLIVAN is "improving his mind." Only yesterday he was engaged in a noble effort to enlarge Mr. Kilrain's head.

The Wheeling Natural Gas Company having secured more gas territory, it is to be hoped that Wheeling may secure more gas.

Isn't the bouncing Boulanger about ready to drop into the freak circuit? The cake of this baker seems to be nearly all dough.

The Democratic party is not shouting to Mr. Randall to get it together and lead it. The Democratic party has other views.

It has been discovered that the President has had a finger in the Virginia Republican pie. If it be good pie the President has done well.

The war on Piousness Commissioner Tanner bids fair to do further damage to the reputation of his predecessor, General Black. Let the merry war go on.

It must be very pleasant for the Prince of Wales to have his family affairs turned over in Parliament. The way to avoid this is to provide for his household, not ask Parliament to do it at the public expense.

The laborer in the New York Department of Public Work, who hanged himself because Tammany made him give up part of his pay for Tammany purposes, has provided the Mugwumps with a topic. If those Assistant Democrats can see the point they may talk learnedly on it.

WHEELING's first crematory was built as an experiment. We know now that the crematory is a good thing and we need more of it. The next step should be to get the second crematory.

Aid for Our Home Flood Sufferers. A city that can do as well as Wheeling did for the Johnstown flood sufferers can do something handsome for the West Virginia flood sufferers.

An earnest effort, however, will accomplish something, and that something will be useful to those who have been so sorely stricken. The beginning should be made without delay.

Obstructing the Ohio River. The collision between the Panhandle Railroad Company and the steamboat interests of the Ohio river should result in the immediate interference of the National Government.

Death of Surgeon Austin, U. S. N. Alvin A. Austin, passed assistant surgeon United States Navy, died in New London, Conn., yesterday.

Modern engineering is not the science it is supposed to be if the railroad company cannot go on with its bridge work and let the steamboats go on with their business.

Bucaners in Politics. Certain Southern Republican Congressmen are not satisfied with their share of the patronage and have devised a scheme to bring the Administration to time.

Mr. Brower responds with alacrity to the call. He says there is enough of his faction to hold the balance of power, and that he and his friends are indifferent whether he be made Speaker by Republican or Democratic votes.

We have seen something like this in West Virginia. State Senator Carr, elected as a Republican, declared his intention to be President of the Senate.

The Republican majority is he cannot force his way into the Speaker's chair with that record. A few nice postures and the like will make life much sweeter to Mr. Brower.

The City Health Officer to the City Council. It is to be supposed that the City Council chose for City Health Officer a man in whom it had confidence and for whose views it had respect.

Dr. Garrison gives abundant and conclusive reasons for urging on Council the immediate construction of another crematory to accommodate the city's dead.

This subject has a deep interest for the Wheeling people apart from the mere matter of finding a way to dispose of night soil. They need not flatter themselves that they are rid of it forever when it has been dumped on some market gardener's premises.

For that matter it is in no sense a pleasing subject, but it is a subject which comes close to every household in Wheeling, and so it must be met. It should be met with vigor, as intelligent men meet grave perils.

A STORY ON YOUR WATCH

Which Explains a Little Eccentricity in Roman Numerals.

"Mark down the figures on the face of a watch," said a jeweler. "1, 2, 3, 4, 5, 6—begin the reporter, as he put pencil to paper.

"No, I mean Roman numerals." Then this was produced: I, II, III, IV, V, VI, VII, VIII, IX, X, XI, XII.

"You are wrong," said the jeweler. "I guess not," said the reporter. "Well, look at your watch," continued the jeweler.

"I am never wrong," thundered the King. "Take it away and correct the mistake." And corrected it was, and from that day to this a 4 o'clock on a watch dial has been III, instead of IV.

The "Henocenes" of Their Race. The secret of the whole matter is that the opposition journals are enraged because President Harrison has not construed civil service reform to mean the removal of incompetent Democrats.

Death of Surgeon Austin, U. S. N. Alvin A. Austin, passed assistant surgeon United States Navy, died in New London, Conn., yesterday.

Every third person you meet is troubled more or less with biliousness, and don't know how to get rid of it. The causes are easily recorded. A lack of sufficient exercise, eating too much of persons of sedentary habits, indulgence in too rich food, a sluggish liver.

Thousands have been relieved of indigestion and loss of appetite by a single bottle of Dr. J. C. Williams' Pink Pills. The use of this medicine, by giving tone and strength to the assimilative organs, has made innumerable cases of chronic dyspepsia. Price \$1. Worth \$3 a bottle.

An Aching Back Has Brought a Breach of Promise suit against a young man of that town, laying the damages at \$300. The jury will probably cut the claim down to a reasonable amount, if they allow it.

A Scrap of Paper Saves Her Life. It was just an ordinary scrap of wrapping paper, but it saved her life. She was in the last stages of consumption, told by physicians that she was incurable, and she could live only a short time.

WHAT THIS WORLD IS COMING TO. Population of Century Hence—What is to be Done About It? Washington Evening Star.

Mr. S. L. Loomis predicted the result of the census of 1890 within 18,000 of the actual figures. He estimated that the population of the country in 1890 will reach 69,250,000, an increase during the past decade of more than 30 per cent.

People of a speculative turn of mind may well ask themselves what is to be done with so enormous a population, how are they to be supported, and many other questions.

Whether these figures are accepted as reasonably trustworthy or rejected as gross exaggeration, the fact still remains that the natural and inevitable increase of the population, not alone of our own country, but of the whole world, presents a problem that may well engage the thoughtful mind.

The Majesty of the English Law.

Mr. Downey, the great London photographer, was recently summoned to serve on a jury; and at the very same time was summoned by the Queen to go to Buckingham Palace and photograph the Shah.

Deafness Can't be Cured by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies.

There is no incident in all my life," said Mr. R. C. Palmer, of 721 8th St., N. W., Washington City, D. C., "that looks so much like providential assistance as that one which will send me to Dayton, Ohio, to-day. I had arranged to go to the furniture business. I selected Dayton as the place in which to establish myself.

There is no incident in all my life," said Mr. R. C. Palmer, of 721 8th St., N. W., Washington City, D. C., "that looks so much like providential assistance as that one which will send me to Dayton, Ohio, to-day.
