

Take Hood's Sarsaparilla 100 Doses One Dollar

The chief reason for the great success of Hood's Sarsaparilla is found in the article itself. It is merit that wins, and the fact that Hood's Sarsaparilla actually accomplishes what is claimed for it, is what has given it this popularity and success.

YESTERDAY AT THE CAMP.

Another Big Crowd Poured into Moundsville to Hear the

EFFORTS OF NOTED DIVINES.

Bringing the Meeting to a Close. Everybody Well Satisfied—Bishop Joyce Gives Some Splendid Talks—Note and Comment.

Yesterday was really the last day of the Moundsville camp meeting of 1889. It was in every respect the greatest day of the meeting, and particularly so in point of attendance. The day was a glorious one and the people took advantage of it to turn out in droves. From 7 till 10:30 o'clock the gate-keepers at the south gate were kept busy taking up the tickets of the hundreds who arrived on the excursion trains that were run from up and down the river, and from out of the main line of the Baltimore & Ohio, and during the same time there passed through the eastern entrance a stream of people on foot, on horseback and in wagons and buggies, who came from the surrounding country. It was one of the regulars in the history of the Association.

The 8 o'clock service was conducted by Dr. Bitler, and, as he expressed it, was a real hot one. He called on all who were present with singing "Holy, Holy, Lord God Almighty." Father Battelle offered a feeling prayer. Mr. Eaton sang "Not ashamed of Christ."

The sermon was preached by Bishop Joyce, and was a most interesting one. He spoke of her conversion in a manner to bring tears to the eyes of nearly all present.

A song service was held before the public service. The 10 o'clock service was opened with singing "Holy, Holy, Lord God Almighty." Father Battelle offered a feeling prayer. Mr. Eaton sang "Not ashamed of Christ."

THE TRADES ASSEMBLY.

In Regular Session Considers a Variety of Matters.

PREPARING FOR LABOR DAY.

Being Perforated—A Proposition from the Builders' Exchange Does Not Meet With Favor—The Reports on the Marvyn Boycott.

The Ohio Valley Trades and Labor Assembly met in regular semi-monthly session yesterday. President Parish and Secretary Salisbury were in their places, and nearly all the delegates who hold seats were present. There were no matters of special importance transacted, and the meeting adjourned early. The first document acted upon was a report of the strike of the glass packers. It was given by the sanction of the Assembly, and referred to the Committee on Arbitration, with orders to try and make some satisfactory settlement.

The Marvyn boycott was discussed at some length after reports had been received from the delegates to the effect that the boycott was working out the desired effect in several localities. A report was received from the Grocers' Protective Association, which included a recent meeting not to use the products of the Marvyn bakeries.

The standing Committee on Organization was ordered to organize the brewery workers immediately.

A communication from the Builders' Exchange was laid upon the table. The communication stated that the Exchange had appointed a Committee on Arbitration and asked that the Assembly appoint a committee to act in concert therewith, and that the deliberations of the joint committee thus formed be final in all cases. This was laid on the table because the Assembly has its own Committee on Arbitration, and does not deem it necessary to amalgamate with any other organization.

A committee composed of Messrs. Hess, Wagoner, Murphy, Parish and Battier was appointed to decorate Beck's block, where the Assembly hall is located, for "Labor Day."

Mr. Michael F. Moran, State Organizer of the National Progressive Union of Miners, presented an appeal to the Assembly, of which the following is an extract: "The miners of Northern Illinois have been engaged in a struggle against a reduction of wages since April of this year. They had been getting fifty cents per ton, at which the average monthly wages amounted to \$25. The demand upon them was for a cut of ten cents per ton, and subsequently the operators told them that if they did not accept by June, the cut would be increased to twenty cents per ton, and twenty-five per cent on dead work."

The circular explains that "A cut in Northern Illinois would have been followed by a cut in Western Pennsylvania, Ohio and the counties of the region. The Northern Illinois miners have thrown themselves into the breach to protect the miners of those regions as well as themselves," and asks aid for them. It was referred to the delegates to be taken to their meeting in Columbus, Ohio.

Several other minor matters were acted upon and referred to the proper committees for final disposition.

THE "LABOR DAY" DEMONSTRATION. The Committee Holds Another Meeting. Reports of Delegates are Read.

The committee of the Trades Assembly having in charge the "Labor Day" celebration, met yesterday afternoon, but transacted very little business. It was decided that those wishing to make a trades display in the parade must report to the committee on Trades Display, consisting of Messrs. C. T. Parr, M. J. Murphy and Conrad Wasserman, before Thursday evening. Reports were received which show that all the labor organizations from Steubenville to Belleaire, and from Washington, Pa., to Parkersburg, will likely be represented in the parade. It had been the intention to appoint all the marshals and aides yesterday, but it was decided to hold another meeting in the morning, to wind up all the arrangements and consider applications for places in the parade who wish to decorate their houses and places of business employ Mr. June Dunbar, a thoroughly practical man in the line of the parade.

The gentlemen of the committee feel very much pleased over the large number of people who express their intention to be present, and the applications for places in the parade. It has been arranged that the Building Trades division shall be the first in the column, headed by the Carpenters Brotherhood and the Opera House brass band. The first of the divisions will be the Theatricals, Wagner, of the carpenters, and Jesse Gill of the plasterers. The second division will be composed of the different trades, and the third division will be composed of glassworkers and painters. The fourth division, under Mr. Michael F. Moran, will comprise all trades unions not otherwise assigned. The division will be headed by the Brick Trade drum corps, the Painters' Association will occupy the sixth division and will be headed by a brass band. Joseph Purcell will be in command. John McCracken will be in command of the sixth division composed of the Brick Trade drum corps, the Painters' Association, and the trades display of the various manufacturers and industrial establishments. It has been arranged that the Opera House orchestra and Billy Ayers' brass band will furnish the dance music at the Park and that the Opera House band shall discourse concert music.

Builders' League Dissolved. At a meeting held Saturday night, the Belmont county (Ohio) Builders' League, an organization formed a few months ago, decided to dissolve. The trouble was the inability of the League to arrive at a satisfactory arrangement for the admission of the bricklayers.
