

All Dead.

THE HORRIBLE DISCOVERY

Made by the Rescuers in the Hill Farm Mine at Dunbar.

The Worst Fears of the Waiting Ones Realized at Last.

THE MINERS WERE BURNED

On the Slope and their Bones Will Never be Recovered.

The Terrible Experience of the Rescuers Who Risked Their Lives—A Wild Nightmare of a Search In— to a Practical Hill— In the Pathetic Incidents.

DUNBAR, PA., July 1.—Fifteen days and a half have elapsed since that flash of gas set fire to the Hill Farm Mine. Hope and work were abandoned this evening at six o'clock, and the dust and ashes of the 31 imprisoned men may rest beneath the Dunbar hill till the last day shall come. To-night the caskets which were carried up to the mine were brought back. The exploring party started in the mine at 2 o'clock. When they came out the sun was going down and it was near 7 o'clock. It is seldom that such an expedition meets with the same results as this. Three of them returned to within a few hundred yards of a burning subterranean fire and found a burning bucket of the two men and their clothes.

ALMOST OVERCOME. They were nearly overcome by heat and black damp, and it was only by the most extraordinary exertion that the men came out alive. The party started in and guards were placed all along the entry. In the morning the rescuers had been driven back from the Hill Farm mine by the smoke which met them twenty yards from the break they had made. Through the heading they followed. The first obstacle was a heavy fall of slate, which reached nearly to the roof, and over this the three men (Inspector Kightly, Secretary Watchorn and Miss Hoes Doran) climbed on their hands and knees, and by the aid of a sack which met them twenty yards from the break they had made. Through the heading they followed. The first obstacle was a heavy fall of slate, which reached nearly to the roof, and over this the three men (Inspector Kightly, Secretary Watchorn and Miss Hoes Doran) climbed on their hands and knees, and by the aid of a sack which met them twenty yards from the break they had made.

A HILL ON EARTH. The darkness was most intense. Added to all this was the stench of burning flesh, and that known to be human. It was a trip to the verge of the mental realistic and practical hell that could be found on earth. What did they gain? The most absolute and overwhelming knowledge that all that was left of the men was a few pieces of clothing which were found in the search. They visited the places where the men were known to have been at work. Two tin dinner buckets and a tin of condensed milk were found, but little of the tin dinner and two coats. The picks and shovels were all lying just as a man would drop them as he started off on a dead run for his life. One man was found by a faint puff of air. Otherwise no trace of the men could be found.

After the return of the party, they gathered on the slope to consider what was to be done. Secretary Watchorn, as President of the exploring expedition, presided. Each one of them was of the opinion that a further attempt to rescue the miners was hopeless. A rescue was abandoned. DESPAIR AND ABANDONMENT. Mine inspectors who had the nerve to push forward the work of rescue under the most dangerous conditions faltered and choked as each of them tried to move that the work of recovery be abandoned. At last the motion was made and seconded by Dr. Mallon. Peter W. Jones, the labor leader and organizer of the United Mine Workers, was the only one who voted against the motion. He acknowledged that the attempt was useless, but he would not give up. He said that he would give up when he was told to do so. He said that he would give up when he was told to do so.

THE BAR ASSOCIATION. Standing Committees Appointed by President. PARKERSBURG, W. VA., July 1.—The following standing committees of the West Virginia Bar Association have been appointed by Henry M. Russell, President: Committee on Admission—J. C. Croan, Chairman; W. N. Miller, H. C. Fleisher, M. H. Dent, D. C. Westerman, J. S. Somerville and W. W. Van Winkle. Judicial Administration and Legal Reform—George E. Price, Chairman; John J. Davis, Daniel B. Lewis, Okey Johnson, William H. Hubbard, George O. Struggs and W. H. Flick. Grievances—Jackson V. Blair, Chairman; J. R. Donohoe, J. D. Ervine, S. L. Flournoy and J. W. H. Flick. Legal Education—C. O. Wood, Daley, Chairman; Guy R. Allen, John W. Mason, Samuel Woods and Charles J. Faulkner. Librarianship—W. C. Clayton, Chairman; R. L. Berkshire, Stuart W. Walker, J. W. Davis and T. L. Michie. Prize Essay—W. P. Willey, Chairman; B. L. Butcher and A. L. Clarke.

Two Wells Expected to Soon—Near the End. PARKERSBURG, W. VA., July 1.—It is stated, upon the authority of a gentleman who knows what he is talking about, that both the Stillwell well and the Daviess well will be in during the next ten days if the operators have no accidents or bad luck of any kind. At the second shaft the Stillwell well had a heavy flow of oil. As Daviess the second shaft was very shallow. As they both approach the third and the interest in them grows and the developments of the next ten days will be of great importance. The body holes that both wells will be good producers.

Damage by Storm—Near Weston. WESTON, W. VA., July 1.—Another very heavy rain shower occurred near Weston to-day, centering on Rock Creek. Trains on the West Virginia and Pittsburgh, from Parkersburg and Buchanan, were delayed in the depot. The depot was very wet and the ground was very muddy. The water was very muddy and the ground was very muddy. The water was very muddy and the ground was very muddy.

THE WHEELING & LAKE ERIE. Progress of the Work on the Extension in the Vicinity of Titonville. TITONVILLE, O., July 1.—Work on the Wheeling & Lake Erie railroad is progressing more rapidly than ever. At Rush Run the work of treating the low parts is completed, except in one or two spots over small runs where the earth is very soft. The grading and filling in at this point is almost completed, and now the only object is to lay down a solid base so as to allow the track to be laid. It cannot yet be ascertained what length of time it will be before the road will be ready to receive the rails. The people look for them in the next two months, judging from the appearance of the work being executed at the present time.

At Brilliant the road is assuming rapid headway. The trestle work is almost finished, but the filling in and grading is dragging along slowly. The local committee had provided 20,000 shillings, adorned with a bust of Hendricks, but the supply was soon exhausted, and even if there had been sufficient to go round. To many of the visitors the Bates, Grand Hill, Campbell and Francis were respectively quartered, and they besieged the street under the hope of getting a view of the distinguished visitors and may be a glimpse of the great orator. The three local executives drove to the State House shortly after 10 o'clock, and after being introduced by their respective parsons, held an informal reception.

AN IMPOSING PROCESSION. Meanwhile the various divisions of the parade had begun to form at their designated rendezvous, and at 1 o'clock, when Chief Marshal General Fred Lovell, who was signalled that all was ready, the parade started. It was a most imposing procession, and the parade started. It was a most imposing procession, and the parade started. It was a most imposing procession, and the parade started.

THE WHEELING GEMERIES. It was 2 o'clock, despite the fact that owing to the extreme heat the route had been shortened, before the lead of the procession was given. The parade started. It was a most imposing procession, and the parade started. It was a most imposing procession, and the parade started.

THE HEAT OF PARKERSBURG. PARKERSBURG, W. VA., July 1.—Yesterday afternoon Little Desha McHenry, daughter of Mr. and Mrs. W. McHenry, fell in a faint, from the effects of a large crowd in front of the Methodist church in this city was laid to-day with imposing ceremonies by the Masons. Although it was intensely hot there was a large crowd in front of the church. The parade started. It was a most imposing procession, and the parade started.

THOMAS A. HENDRICKS.

Unveiling of the Monument to the Dead Statesman.

AN IMMENSE CROWD PRESENT

From All Parts of the Union—Senator Turpie's Eulogium—A Great Parade—Gov. Francis and Campbell Present.

INDIANAPOLIS, Ind., July 1.—The day for the unveiling of the Hendricks monument was a fine one, and with a good breeze blowing and hot sun, the trains began to pour in from all parts of the Union. It was very apparent that the crowd would be the largest ever assembled in Indianapolis. Governor Campbell, of Ohio, and party, and Governor Hill and party, of New York, arrived yesterday, and among the earliest arrivals to-day was Governor Francis, of Missouri. Early this morning a delegation of Cook county Democrats, 300 strong, came in by a special train from Chicago, followed later by a big delegation from the Ironopolis club. Five hundred members of the Duckworth club from Cincinnati, put in an appeal about a year ago for a national organization in Indiana and neighboring Ohio, Illinois, Kentucky and Missouri were represented.

THE MONUMENT. The movement which culminated in the unveiling by Mrs. Hendricks of a monument to the memory of the great statesman, which she had conceived in 1882, and which she had carried out in 1889, in a meeting of representative citizens of Indianapolis of all parties, which she had conceived in 1882, and which she had carried out in 1889, in a meeting of representative citizens of Indianapolis of all parties.

"PENNY" DEMOCRATS.

The Big Convention to Meet To-day at Scranton.

WALLACE AND PATTISON

Both Claiming a Majority of the Delegates—A Fight for the Permanent Chairmanship—Scott Taking a Hand.

SCRANTON, Pa., July 1.—The delegates are beginning to come in to-day in large numbers, and to-night they will nearly all be on the ground. Those who are here have been caught by the Wallace and Pattison managers and hustled off to the various headquarters to be registered. Although more than a majority of delegates are here now it is impossible to say with any positiveness who will control the convention.

WRITTEN IN BLOOD.

Startling Clue Which Led to the Rescue of a Young Girl.

SHE IS HELD IN CAPTIVITY

Near New York and Precks Her Gums and Writes a Letter in Blood to Her Father—Her Remarkable Experience.

New York, July 1.—Superintendent James M. Fuller, of Fuller's Detective Bureau, has succeeded in rescuing one of the four girls who were enticed to his city from their Connecticut homes for unlawful purposes. A few days ago the following letter, written in blood, was received by the father of the young girl who was recently decoyed from Meriden by a woman bearing a strong resemblance to the once notorious Blanche Douglas:

DEAR FATHER—I am locked in a room at a large, white house surrounded by Mrs. M. I have been here for several days. I have been here for several days. I have been here for several days. I have been here for several days.

DEAR FATHER—I am locked in a room at a large, white house surrounded by Mrs. M. I have been here for several days. I have been here for several days. I have been here for several days. I have been here for several days.
