

ESTABLISHED AUGUST 24, 1852.

THE STATE CAMPAIGN.

The Republicans Enthused Along the Line.

DOVENER AT CLARKSBURG.

Speaks for Hubbard and Protection.

Meetings in Preston County.

Raum and Atkinson in Wheeling--Other Meetings.

Special Dispatch to the Intelligencer.

CLARKSBURG, W. Va., Oct. 19.

The first meeting held in this city during the campaign took place in the Court House last night.

Mr. Doxey presided, and Mr. Doxey was the speaker of the evening.

The room was crowded and the attention of Mr. Doxey was attracted to the speaker.

Mr. Doxey opened his speech by apologizing to the audience for being rather worn out and

in poor spirits, saying that he had strained himself somewhat by overwork lately.

He said Hubbard's friends had begun to think from the Democratic reports that he had been so torn up and worn out by his campaign in the interior that he would never be able to reach home

again, but he was able to show up all right Friday night in Wheeling, and if John O. thought he was worn or tired he made a great mistake.

He said that Pendleton was making declamations and filthy stories for the purpose of winning the support of the Democrats.

He referred to the Republican party, saying that they were the party of the future, and that they were the party of the present.

He then referred to the Democratic party, saying that they were the party of the past, and that they were the party of the present.

He then referred to the Republican party, saying that they were the party of the future, and that they were the party of the present.

He then referred to the Democratic party, saying that they were the party of the past, and that they were the party of the present.

He then referred to the Republican party, saying that they were the party of the future, and that they were the party of the present.

He then referred to the Democratic party, saying that they were the party of the past, and that they were the party of the present.

He then referred to the Republican party, saying that they were the party of the future, and that they were the party of the present.

He then referred to the Democratic party, saying that they were the party of the past, and that they were the party of the present.

He then referred to the Republican party, saying that they were the party of the future, and that they were the party of the present.

He then referred to the Democratic party, saying that they were the party of the past, and that they were the party of the present.

He then referred to the Republican party, saying that they were the party of the future, and that they were the party of the present.

He then referred to the Democratic party, saying that they were the party of the past, and that they were the party of the present.

He then referred to the Republican party, saying that they were the party of the future, and that they were the party of the present.

He then referred to the Democratic party, saying that they were the party of the past, and that they were the party of the present.

He then referred to the Republican party, saying that they were the party of the future, and that they were the party of the present.

He then referred to the Democratic party, saying that they were the party of the past, and that they were the party of the present.

He then referred to the Republican party, saying that they were the party of the future, and that they were the party of the present.

He then referred to the Democratic party, saying that they were the party of the past, and that they were the party of the present.

He then referred to the Republican party, saying that they were the party of the future, and that they were the party of the present.

He then referred to the Democratic party, saying that they were the party of the past, and that they were the party of the present.

He then referred to the Republican party, saying that they were the party of the future, and that they were the party of the present.

He then referred to the Democratic party, saying that they were the party of the past, and that they were the party of the present.

He then referred to the Republican party, saying that they were the party of the future, and that they were the party of the present.

He then referred to the Democratic party, saying that they were the party of the past, and that they were the party of the present.

He then referred to the Republican party, saying that they were the party of the future, and that they were the party of the present.

He then referred to the Democratic party, saying that they were the party of the past, and that they were the party of the present.

He then referred to the Republican party, saying that they were the party of the future, and that they were the party of the present.

He then referred to the Democratic party, saying that they were the party of the past, and that they were the party of the present.

He then referred to the Republican party, saying that they were the party of the future, and that they were the party of the present.

200 miles, by car or engine or horseback and each had each made three speeches in that time.

A ROYAL RECEPTION.

Tendered Gen. Raum and Congressman Atkinson Saturday Night--Two Eloquent Speeches.

Considering the weather Saturday night, the audience which gathered in the Opera House to hear the speeches of Gen. Green B. Raum and Hon. G. W. Atkinson was a very flattering one.

There were enough people in the house to occupy every seat and a good deal of the standing room. Hon. J. H. Burt presided.

State Chairman Meighan, District Chairman Stathers, Mr. John Crow, Mr. A. Smith, of Washington City, Rev. Dr. Patton, Mr. T. K. Coffey and others sat with the chairman and speakers on the platform.

Mr. Burt first introduced Gen. Raum, who made a characteristic speech, in a conversational tone except in terms, his remarks were addressed to the reason of his hearers, and he has an air of confidence which holds one's attention well.

He devoted the major part of his address to the tariff, and made a strong argument in its favor, one of his special points being in regard to an article which he showed and said it was presented to him by Hon. N. E. Whitaker.

He said when he last spoke in his native country he was told that he had not an ounce of tin-plate made in America.

When he next spoke he could not repeat that statement, because this cup was made of tin-plate manufactured at Pittsburgh, the first tin-plate made in an American mill from metal made from American ore.

The representative from the United States and American iron and steel industry, and the representative of the American iron and steel industry, and the representative of the American iron and steel industry.

He thought West Virginians ought to be proud of the fact that they have never had a tariff party, and that they were the party of the future.

He then referred to the Democratic party, saying that they were the party of the past, and that they were the party of the present.

He then referred to the Republican party, saying that they were the party of the future, and that they were the party of the present.

He then referred to the Democratic party, saying that they were the party of the past, and that they were the party of the present.

He then referred to the Republican party, saying that they were the party of the future, and that they were the party of the present.

He then referred to the Democratic party, saying that they were the party of the past, and that they were the party of the present.

He then referred to the Republican party, saying that they were the party of the future, and that they were the party of the present.

He then referred to the Democratic party, saying that they were the party of the past, and that they were the party of the present.

He then referred to the Republican party, saying that they were the party of the future, and that they were the party of the present.

He then referred to the Democratic party, saying that they were the party of the past, and that they were the party of the present.

He then referred to the Republican party, saying that they were the party of the future, and that they were the party of the present.

He then referred to the Democratic party, saying that they were the party of the past, and that they were the party of the present.

He then referred to the Republican party, saying that they were the party of the future, and that they were the party of the present.

He then referred to the Democratic party, saying that they were the party of the past, and that they were the party of the present.

He then referred to the Republican party, saying that they were the party of the future, and that they were the party of the present.

He then referred to the Democratic party, saying that they were the party of the past, and that they were the party of the present.

He then referred to the Republican party, saying that they were the party of the future, and that they were the party of the present.

He then referred to the Democratic party, saying that they were the party of the past, and that they were the party of the present.

He then referred to the Republican party, saying that they were the party of the future, and that they were the party of the present.

He then referred to the Democratic party, saying that they were the party of the past, and that they were the party of the present.

He then referred to the Republican party, saying that they were the party of the future, and that they were the party of the present.

He then referred to the Democratic party, saying that they were the party of the past, and that they were the party of the present.

He then referred to the Republican party, saying that they were the party of the future, and that they were the party of the present.

He then referred to the Democratic party, saying that they were the party of the past, and that they were the party of the present.

He then referred to the Republican party, saying that they were the party of the future, and that they were the party of the present.

He then referred to the Democratic party, saying that they were the party of the past, and that they were the party of the present.

He then referred to the Republican party, saying that they were the party of the future, and that they were the party of the present.

He then referred to the Democratic party, saying that they were the party of the past, and that they were the party of the present.

He then referred to the Republican party, saying that they were the party of the future, and that they were the party of the present.

He then referred to the Democratic party, saying that they were the party of the past, and that they were the party of the present.

He then referred to the Republican party, saying that they were the party of the future, and that they were the party of the present.

He then referred to the Democratic party, saying that they were the party of the past, and that they were the party of the present.

He then referred to the Republican party, saying that they were the party of the future, and that they were the party of the present.

He then referred to the Democratic party, saying that they were the party of the past, and that they were the party of the present.

He then referred to the Republican party, saying that they were the party of the future, and that they were the party of the present.

Finally arose and said he would talk only a minute or two, as it was not reasonable to ask men to stand in heavy shoes and listen to any speech.

When he had talked five minutes or so, though, and he continued to speak, the crowd again grew so large that the rain stopped entirely, when he generously surrendered the rest of the time to Mr. Hubbard, saying he knew it was mainly to hear Mr. Hubbard that the people had gathered.

Mr. Hubbard then resumed his speech where he had left off, and made a clear and convincing presentation of the issues involved in this canvass, every good word of which will be appreciated.

Benwood will be all right when November 4 rolls around.

Good Meeting at Cameron.

There was a good meeting at Cameron on Saturday afternoon, at which speeches for the Protection cause were made by Mr. J. H. Burt, Mr. G. W. Atkinson, G. W. Atkinson. Both made eloquent speeches which were received with the closest attention.

There were several Democrats in the audience who seemed to be thoughtful over the arguments of the speaker.

THE BAPTIST ASSOCIATION.

The Closing Session at Ravenswood--Business Transacted.

Special Dispatch to the Intelligencer.

RAVENSWOOD, W. Va., Oct. 19.

Saturday morning's session of the Baptist State meeting was held in order at 9 o'clock.

A resolution was adopted giving authority to the Board of Education to organize an education society.

The resolution providing for the employment of a general superintendent of State missions for full time, was taken from the table and referred to a committee.

The report of the Rev. A. J. Ivey, of Wheeling, read the report of the foreign mission work of the denomination.

Receipts during the past year were \$39,577, an increase of \$1,819 over the previous year.

Missionaries including laymen employed, 381; preachers, 1,736; churches, 1,361; members, 158,293; new baptisms, 5,774; over the previous year, 2,171; Shoup, Governor, 2,327.

Upon joint ballot the Legislature will stand: Republicans, 49; Democrats, 9.

THE CORN DOGGER CLUB.

A Well Organized Society of Very Youthful Citizens.

Fort Worth, Texas, Oct. 19.

There were big developments in the mystery surrounding what is known as the Corn Dogger Club, in Fort Worth, yesterday.

It is an organization of boys ranging in age from seven to fifteen years, many of whom are recent immigrants.

The police force recently arrested the boys for their participation in petty thefts and burglaries, but on account of their youth and small value of their takings they have not been prosecuted.

Some of the boys are in jail and with them clothing dealer named Hall, who is charged with concealing goods stolen by the boys.

It is also learned that the Corn Doggers have been active in the city of Austin and Houston, Texas, as well as in Denver, Col., and probably in other places.

They have a code of signals and other secret means of communication. It is not known whether they are at the head of the organization or not.

Months' "Darkened England."

LONDON, Oct. 19.

The Daily News commenting on General Booth's "Darkened England," confesses that nothing can be done for the souls of the millions till something is done for their bodies.

This scheme it says is one of the most remarkable productions of the age and deserves the attention of every man.

Something is being done for their bodies, and completeness an intellectual effort.

The Chronicle says: "We are forced to the conclusion that as far as the lapest mass of humanity is concerned, Christianity has lost in our day the power and charm. When we consider her vast resources, Booth's project puts the Church in a very disagreeable position."

Leading Knight of Pythias Hurdled.

Fort Madison, Iowa, Oct. 19.

The funeral of the late John Van Valkenburgh, Past Supreme Chancellor, Knights of Pythias of this city, took place in this city yesterday afternoon.

The funeral was held at the Pythian temple, assisted by the fraternity of Odd Fellows.

The experience of sailing through the space in an airship is not a new one to Professor Campbell.

He made a successful voyage in the airship until after 9 o'clock. An altitude of 3,000 feet was reached.

The ship was started at 4:15 in the afternoon, and continued the journey until after 9 o'clock.

An altitude of 3,000 feet was reached, and the ship was conducted in all directions, both with and against the wind, and then landed safely in the suburbs of the city.

It was the most successful ascent ever made in this country, and the climax of thirty years of study and experiment.

In speaking of the subject last night, he said:

"I am the only man who has solved the great problem of a successful air-ship. I have been working on the idea for many years, and at last my efforts are crowned with success.

Men have tried to fly with balloons, but they navigate the seas; the science of electricity has been wonderfully developed during the last few years, and why should not advancement be made in the art of flying?"

Mr. Campbell's airship consists of a huge egg-shaped balloon, 50 feet long and 24 feet high. It holds 10,000 feet of rope, one end of which is attached to a rudder and the other end with a propelling wheel, which beneath the car is supported by a screw propeller.

ALASKAN MOUNTAINS.

Return of the Government Exploring Expedition.

Not So Great as Supposed--Not the Highest Mountain in North America--The Trip a Scientific Success, at Least.

WASHINGTON, D. C., Oct. 19.

The scientific expedition sent out last spring under the joint auspices of the National Geographical Society and the United States Geological Survey for the purpose of exploring the region about Mount St. Elias, Alaska, has returned.

Mr. Russell, who organized the expedition and had charge of the work, is now in Washington, and at the request of the agent of the Associated Press has furnished the following picturesque sketch of the work of his party:

On his arrival at Sitka, the members of the expedition were transferred at once to the United States steamer, under command of Captain Farenholt, who had previously received instructions from the Secretary of the Navy to take the expedition to the coast of Alaska.

The bay is a broad, deep inlet extending more than thirty miles inland, and was the plan of the expedition to land at the mouth of the bay.

The weather being thick Captain Farenholt did not think it advisable to take the vessel up the bay, and the voyagers had to be made ashore by means of canvas rafts.

The actual base of operations was reached on June 28, and the study of the geology and geography of the region began at once.

From the point of departure, the party, under the leadership of the geologist, proceeded to the alpine, our expedition was a success.

The plan proposed for starting was carried out almost to the letter so far as the alpine was concerned.

Topography was concerned, but it did not reach the top of Mount St. Elias.

The measurements made have determined that all the mountains in this region are lower than was previously supposed, and that St. Elias, instead of being the highest point in North America, is in reality a second rate mountain.

Its elevation is about 19,500 feet, its highest peak being 12,500 feet.

Mount Cook has an elevation of 10,250 feet, and Vancouver 9,400.

Other peaks in the same region are as low as 10,000 feet.

St. Elias is higher than any of the other mountains in the region.

The results of the expedition will be published by the National Geographic Society some time in the next few months.

The expedition was a success, and the National Geographic Society is indebted to the members of the expedition for their valuable work.

THE LATEST SENSATION.

Which Has Torn Up Washington Society. A Gay Deceiver's sudden End.

WASHINGTON, Oct. 19.

When the name of B. Shepherd White was called in court yesterday that distinguished young gentleman did not respond, and the fact, which was \$3,000, was declared forfeited.

The story is that Mr. White, who is "Who was the bondman?" Mr. Shepherd White is the young man who boarded at the Langham Hotel, sported twenty-five suits of elegant clothes, gave champagne dinners to Senators, Representatives, foreign Ministers, and other notable persons.
