

THE LIMITED TRAIN

On the Pennsylvania Road Wrecked at East Palestine.

ENGINEER AND FIREMAN INJURED.

One Man Killed While Assisting in Clearing Up the Wreck—The Train Ran Into an Open Switch on Which a Freight Train was Standing.

EAST PALESTINE, O., Aug. 7.—The New York and Chicago limited was wrecked this morning near here.

The limited is the fastest train between those two cities over the Pennsylvania system. Going east it is known to railroads as No. 2. From Crestline to Pittsburgh its locomotive is handled by William Carney, fireman, and Isaac Richey, of Allegheny, engineer.

The train at 5:30 o'clock this morning passed East Palestine, which is forty-nine miles from Pittsburgh. There is a heavy down grade there, known as Robinson's Hill, and about half way down is a small siding leading around East Palestine. On this siding were four freight cars which had been left there to be unloaded this morning. The siding was left open, but whether through accident or design is not known. Fort Wayne officials are inclined to believe the latter.

The limited dashed into the siding at a rate of forty-five miles an hour before the trainmen even suspected that the siding was open. There was no time to apply the brakes or for the trainmen to jump before the collision came. The heavy locomotive lifted up and hurled two loaded freight cars from the track. Then it cut its way through two more and turned over, when the boiler had almost been torn off.

Engineer Richey and Fireman Carney were both caught and buried under the locomotive. At first it was reported that both were killed, but a later report stated that they were extricated alive, though painfully injured. When the locomotive struck the freight cars the heavy combination baggage and smoking car half mounted the tender and then fell over against the hillside. The sleeper behind jumped the track and fell over the westbound line, completely blocking it. Another sleeper was partly derailed.

The shock was tremendous. Passengers in the smoker were hurled with the chairs to the forward end of the car, and in the sleeping car out of their berths. In every sleeper the shock was severely felt and everybody knocked down. It was reported at first that several passengers received injuries, but up to the time of writing this uncommon. An unknown resident from East Palestine, who visited the wreck afterward, was caught in it somehow and instantly killed.

The passengers on the limited were transferred and taken back to Alliance. From there they will be taken through over the Cleveland & Pittsburgh.

No. 8 was delayed three hours by the wreck.

Further particulars regarding the accident were received from the office of the company at noon.

When the engine of the limited ran into the cars on the siding the combination coach was wrecked, but owing to the earliness of the hour it was not occupied. Engineer Richey and Fireman Carney were seriously injured, but will recover. None of the passengers were hurt with the exception of a shaking up. The first sleeper left the track and turned over on the rails. All the other sleepers left the rails, but did not upset. The officials are investigating the cause of the switch being left open.

The man who was killed was Edward Clapper, a resident of Palestine. He was walking along an adjoining track when he was caught and crushed by the overturning sleeper.

The passengers of the wrecked train arrived over the Cleveland & Pittsburgh at 12:30 to-day, and the injured men were taken to their homes.

BAD RAILROAD WRECK.

A Fast Mail Train Jams into a Freight on a Siding—A Tramp Killed and Trainmen Injured.

ST. LOUIS, Mo., Aug. 7.—Between 7 and 8 o'clock this morning vestibule train No. 42, east-bound, which hauls New York and Boston sleepers, struck a fast freight train which was pulling in on a switch at Homer, Ill., badly damaging the passenger train's engine, and the mail and express cars, also wrecking four cars of grain on the freight train. No passengers were injured, but the following trainmen were hurt: Engineer Frank Clark, seriously scalded and bruised; Fireman Henry Apel, seriously cut about head; A. J. Mourning, mail clerk, seriously hurt; two others slightly injured. A tramp named Daniel Felley, who was stealing a ride on the mail car, was killed.

Another Body Found.

SYRACUSE, N. Y., Aug. 7.—Another body has been found in the ruins of the West Shore wreck. This makes the number of dead fourteen.

A Forger and Swindler Arrested.

SAN FRANCISCO, CAL., Aug. 7.—Bayard Saville, who was arrested Wednesday on complaint of ex-Senator James G. Fair, has been charged with obtaining money under false pretenses. On July 13 he presented a letter of introduction, purporting to be from ex-Secretary Bayard, of Wilmington, Del., and on the strength of this induced Senator Fair to endorse a draft for \$500 on the Security Trust and Safe Deposit Bank of Wilmington. It now transpires that the letter was a forgery and Saville had no money in the bank. The latter cashed the draft through the Nevada Bank of this city. He claims that he studied law with Secretary Bayard, but subsequently engaged in the commission business, having a house in New York and London.

At Recreation Park To-day.

The Red Lion Club will cross bats at Recreation Park, Eighth ward, this afternoon with the East Liverpool nine, which recently won the amateur championship of Ohio. The Red Lions met the same nine on Decoration Day, and held them even for a ten inning game. The home team claims to have a better battery for to-day's game, and promises an interesting contest.

Will Play any Nine.

The Dutchy Combs nine and the J. W. Kemps played ball yesterday afternoon, and the Combs boys won by a score of 18 to 12. The game occurred on the Tunnel green. The Combs nine offers to play any club in Wheeling.

DUCKED AND FLOGGED.

Vigilantes Punish John Clayton, a Summer Resident.

FOR SHOWING TOO MUCH INTIMACY

With Another Man's Wife—With a Rope About His Waist, He Is Dragged to the River and Thrown In Several Times—They Cut the Rope Into Yard Lengths and Flogged Him Severely.

ASBURY PARK, Aug. 7.—John Clayton, a resident of Bay Head, was taken by a vigilance committee last evening from the cottage of his neighbor, Joseph Parker. After having a rope tied about his body under his armpits he was thrown into the river and a ducking given him.

After they had drawn him out of the water and thrown him back several times the committee cut the rope into lengths of a yard each, and starting the half-drowned man on run, they belabored him with the short lengths of rope until, overcome by his forced bath and the flogging he had received, he dropped in the road unconscious.

Mr. Clayton had been a summer resident of Bay Head for some time. When he first came there he made the acquaintance of Mrs. Parker, the wife of Joseph Parker, also a resident of that fashionable summer resort. The acquaintance soon ripened into intimacy, and they were constantly seen in each other's company. The residents of the place didn't like Clayton's actions, and told him so.

He answered them by telling them to mind their own business. A number of the citizens held a secret meeting on Sunday and decided to take prompt action toward ridding the town of young Clayton, who, since his infatuation for Mrs. Parker, had neglected his wife.

The night before last the committee looked for Clayton, but could not find him, so they deterred action until last night. At about midnight the committee, by previous arrangement, met at a short distance from Clayton's house. One of the number was sent to the house to get Clayton to come out.

The man's knock brought Mrs. Clayton to the door. She said her husband was, in all probability, in the company of Mrs. Parker. The forsaken wife told the story of her trouble to an interested listener. It made him and those to whom he repeated it all the more eager to lay hands upon the recreant husband.

The committee then went to the house so frequently visited by Clayton, and found him there in company with Mrs. Parker. Clayton was called out of the house, only to find himself surrounded by a silent but very resolute-looking crowd of citizens. Without any preface a rope was quickly thrown about Clayton's body, and he was carried, a struggling prisoner, down the road to the river. When Clayton found what the men intended to do with him he begged piteously for mercy and promised to renounce Mrs. Parker and return to his wife. His cries were in vain, for despite his protests he was picked up bodily and with a "Here goes, boys," was thrown into the river. One of their number held on the end of the rope, as they did not wish to drown him.

As soon as he reappeared he made rapid strokes for the shore. No sooner had he reached it than he was again seized and cast back into the river. Again and again the miserable man was hauled from the water and thrown back, until finally the committee thought he had got enough of that medicine, and decided to change their treatment. Taking the rope from Clayton's waist and cutting it into yard lengths, they distributed them among the men, after which they started to run him out of town, the vigilantes at the same time flogging him with their pieces of rope as he ran. Before he had run a block he dropped in a faint in the middle of the road. He soon recovered and was allowed to leave the town without further molestation.

The committee then went back to the house to find Mrs. Parker, but she had wisely taken time by the forelock and had got away. The present whereabouts of the pair are unknown. Mr. Clayton is 22 years old, while his wife is four years his junior. Mrs. Parker is said to be about 30 years old, and quite fascinating in her appearance. Neither Mr. Parker nor Mrs. Clayton could be found when sought for this evening by a reporter. They went away immediately after the occurrence.

The inhabitants of the little resort feel as if the erring husband had received his just deserts. Bay Head is about fifty miles east of Asbury Park, and contains the summer homes of many wealthy New York and Philadelphia families. The work of the self-constituted vigilance committee was done so quietly and so quickly that the cottagers hardly knew about it until it was over.

"Or, if I had only taken this medicine earlier in life, what years of suffering it would have saved me!" was the touching exclamation of one who had been cured of rheumatism by the use of Ayer's Sarsaparilla. Scores of such cases are on record.

Dyspepsia

Few people have suffered more severely from dyspepsia than Mr. E. A. McMahon, a well known grocer of Staunton, Va. He says: "Before 1878 I was in excellent health, weighing over 200 pounds. In that year an ailment developed into acute dyspepsia, and soon I was reduced to 162 pounds, suffering burning sensations in the stomach, palpitation of the heart, nausea, and indigestion."

I could not sleep, lost all heart in my work, had fits of melancholia, and for days at a time I would have welcomed death. I became morose, sullen and irritable, and for eight years life was a burden. I tried many physicians and many remedies. One day a workman employed by me suggested that I take Sarsaparilla.

It had cured his wife of dyspepsia. I did so, and before taking the whole of a bottle I began to feel like a new man. The terrible pains to which I had been subjected, ceased, the palpitation of the heart subsided, my stomach became calmer, nausea disappeared, and my entire system began to tone up. With returning strength came activity of mind and body. Before the fifth bottle was taken I had regained my former weight and natural condition. I am today well and I ascribe it to taking Hood's Sarsaparilla."

N. B. If you decide to take Hood's Sarsaparilla do not be induced to buy any other.

DUN'S REPORT

Of the Condition of Business in the United States for the Past Week.

NEW YORK, Aug. 7.—R. G. Dun & Co.'s weekly review of trade: With business in many lines disappointingly dull, the feeling of confidence nevertheless distinctly increases. The belief increases that the country will be able to sell such vast quantities of grain as to draw so heavily upon foreign supplies of capital that all home industries will be greatly stimulated.

Depression in some great industries continues, but it may be traced to causes obviously not permanent. Thus the iron manufacturers are much set back by inability of railroads to make purchases because they fail to negotiate securities. Reports from other cities reflect a growing confidence in the future.

At Boston trade in merchandise increases. At Philadelphia in most trades there is much complaint of slow collections. At Pittsburgh manufactured iron is fairly active and the glass trade good, but collections rather slow. At Cleveland trade is enlarging with confidence. Chicago feels the effect of great crops distinctly, wheat receipts being seven fold last year, rye five fold, barley two fold.

Prices of commodities are down for the first time this year and the general level is lower than a year ago, having declined 4 per cent the past week. Wheat has fallen 1/2 of a cent. At western points the crop prospects are almost everywhere mentioned as unsurpassed.

Financial prospects have not changed and though money on call is cheap commercial loans are made with caution. Large failures have occurred, but none threatening financial disturbance. The demand for money to move begins to be felt by many. The business failures during last seven days number 231 compared with 247 last week and 298 same week last year.

WHAT steam is to the engine, Hood's Sarsaparilla is to the body, producing bodily power and furnishing mental force.

BABY CURED OF ECZEMA.

Mother's and Minister's Testimony—Head Mass of Putrefaction—Doctor Falls.

Cured in Quick Time by Cuticura.

I deem it my duty to inform you of the wonderful cure of eczema which CUTICURA REMEDIES brought upon our little baby, three months old. When about two and one-half months old, the whole of its little head became one mass of putrefaction, over which we became very much alarmed, as the medicine prescribed by our physician only seemed to aggravate and increase the intense pain the little thing seemed to be in. We were utterly at a loss to know what to do, as the physician seemed to have exhausted all efforts to give relief. But through the recommendation of Rev. J. G. Allen, pastor of Brooks Church, M. E. Church Society, we were induced to try the CUTICURA REMEDIES, and after a few days' application we were astonished as well as delighted over the result. We continued the use of the medicine according to directions, and after a few weeks the little fellow was entirely cured with no traces of the disease left. Many thanks for this wonderful cure. Mrs. JOHN HULSTEIN, Quilman, Ga.

It gives me great pleasure to testify to the facts contained in Mrs. John Hulstein's testimonial concerning the cure of her little baby. When I saw it I did not think it possible for it to live. I, however, recommended CUTICURA, knowing that if a cure was possible, CUTICURA REMEDIES would do it. My most sanguine expectation culminated in a perfect cure. J. G. ALLEN, Pastor M. E. Ch. So., Quilman, Ga.
