

DELBRUGGE ANSWERED.

Chief of Police McNichol files in the Circuit Court

A VERY FULL, STRONG REJOINER

To the Plea of Ex-Chief Delbrugge. Some Plain Truths Incorporated in the Paper, and Recent Shameful History goes on Record--Why Louis was Fired.

The long expected answer of Chief of Police McNichol to the position of Ex-Chief Delbrugge, who seeks to reinstate himself, was filed in open court before Judge Paul yesterday.

The fact is recalled that in August, 1891, Delbrugge filed with the Council committee on police his written resignation and a pledge to behave better in the future.

Says the answer: "The said Louis Delbrugge, during his term of office, from the beginning thereof down to August, 1891, had been on numerous occasions guilty of official misconduct, drunkenness, neglect of duty and gross immorality, the facts becoming notorious, many of them being made the subject of comment in one or more of the newspapers of the city."

In view of his pledge to reform, the committee agreed not to act on his resignation, but to give him a chance to redeem himself. McNichol's paper continues:

"The said Louis Delbrugge did not keep such pledge or promise, but on the contrary continued to transgress both law and propriety by absenting himself from the city for a week or more at a time without just cause, by indulging frequently in the undue use of alcoholic drinks, by frequenting a notorious house of ill fame in the city as a visitor and remaining at such house for one or more days at a time, and by other acts and doings involving official misconduct and neglect of duty."

The defendant avers in view of the facts recited: 1. The acceptance of said resignation by the committee and subsequently by the Council were valid acts and created a vacancy in said office which was properly filled by the election of defendant.

2. If there were any irregularities in the action of Council the remedy is by certiorari and not by quo warranto or information in the nature of a writ of quo warranto.

3. The city of Wheeling should be a party to any proceeding which seeks to set aside or declare inoperative any of the acts, resolutions or ordinances of the Council of said city.

The answer was ordered to be filed, and the questions which it raises will come up for determination hereafter.

BELLAIRE.

All Sorts of Local News and Gossip from the Glass City. The thing talked about most in this city yesterday was the action of Council in refusing to confirm three of the mayor's appointments for policemen and it was looked upon as a political move. This is only partially true. The Democrats, claiming some credit for the mayor's reelection, do want to have three of the six nightwatchmen Democrats, but the objection to policemen was started by Republicans and they found ready assistants in the Democrats. However, there is not much doubt that two of the three men rejected will eventually be confirmed, and maybe all three of them will be. In the meantime the mayor will exercise his authority and appoint them from week to week, so that they will all be on whether confirmed or not, as long as the mayor desires them to act.

Hon. David A. Hollingsworth, of Cadiz, announced himself here yesterday as a candidate for Congress. Mr. Hollingsworth is a splendid gentleman in every way. He has been a candidate for Congress for a number of years and always has the solid support of his own county, Harrison, and the delegates from that county stick to him from the beginning until the nomination is made. They do not sulk afterwards, but have always worked for the nominee, yet there are those who think the vote of Harrison could have been used to the better advantage of General Hollingsworth than to be so stubbornly steadfast, but it was always done with his advice or acquiescence, and it has reacted that stage when the balance of the district count what other counties will do in the probabilities and put Harrison where she is always found.

In addition to what has already been given as the proceedings of the new Council Mayor McGowan's bond for \$2,000 with surety was approved, as were also those of Charles Johnson, Marshal, for \$1,000; M. Nelson, Water Works Trustee, \$5,000; George M. Woodbridge, Solicitor, \$2,000; Frank Williams, City Treasurer, \$20,000; C. Orran, City Commissioner, \$1,000. The mayor submitted as fire wardens George E. Morgan, William Ernest, John Seabrooks, James Wilkinson, William Campbell, regular; George W. Poorman, special. All were confirmed.

John W. Herron, the United States district attorney of Cincinnati, who has been here for two or three days, was taking testimony in the office of James C. Tallman, in the case of the government against the Exchange Bank of New York for the recovery of the \$2,200 paid to Caroline Swoitzer, in this city, instead of to her mother, Caroline Lanke. The parties to the fraud here were all punished nearly two years ago.

E. J. Lewis, a Cleveland & Pittsburgh engineer who has gained quite a reputation and considerable fortune by practical inventions, left yesterday for a trip to Los Angeles, Cal., and other parts of the country. He has forty days leave of absence.

BENWOOD.

Industrial Items, Personal Gossip and General News Notes.

A fight occurred on Main street yesterday afternoon. Four men, evidently Englishmen, were walking socially up the street, when a dispute arose between two of them concerning their superiority as pugilists. They speedily put it to the test. As the two men were fighting the larger man fell through an open cellar way. As he disappeared his friend took up the fight and completely knocked out the smaller pugilist. Just as he was putting on the finishing touches an officer appeared. The sufferer was conducted to the city building and locked up. The rest have not been found.

A small Polish boy had a very narrow escape from death on the Ohio River railroad track yesterday afternoon. The boy was standing on the track unconscious of the approach of the 3 o'clock passenger train. The train was almost upon him when his brother, who was a spectator, reached him and by almost superhuman efforts dragged him from the track as the train sped past.

PUBLIC MEN SPEAK.

Opinions of Importance Freely Expressed.

Most Interesting and Valuable Facts Brought Out in an Interview by Our Correspondent.

WASHINGTON, D. C., April 13.--The interviews with various prominent men which I recently sent you as to the apparently mysterious cause of the untimely and sudden deaths among them, has aroused a great deal of excitement. Senators, representatives and heads of departments all declare that unless some steps can be taken to avoid the killing strains of public life, few prominent men would care to run for office. Traced to its source, it has become fully apparent that there is one great cause for it all, and that cause is the wearing strains upon certain organs of the body which cause their tissues to give way, and hence bring about sickness or sudden death. I continued the investigation, which was reported yesterday, by calling upon a number of leading public men.

Hon. Daniel Lockwood, genial and whole souled, has an extensive knowledge of the public men of the country. He was well aware of the "strains" to which they are subjected, and the sudden deaths which have been so prevalent. "It would seem," he said, "as though there should be some way of preventing these things. Our grandfathers had family remedies that seemed to preserve health and prolong life, and it would appear as though some modern discovery should be found which would answer the same purpose for the added strains of modern life. I think if anyone has such a discovery it is certainly my friend Warner with his famous Safe Cure. I know of a great many people who use it constantly, and I have in mind one gentleman connected with the Government Printing Office here, who, together with his wife, has recovered to be exceedingly grateful for the restored health and strength which Warner's Safe Cure has imparted."

Hon. H. S. Groeland was found in the house of representatives. He said: "The exhaustions of public life are certainly very great, but so also are the strains of business life, of professional life, of social life. I have personal acquaintance with Mr. Warner, the discoverer of the celebrated Safe Cure, and I consider it far superior to any or all other preparations. Certainly any article as popular as that and selling as extensively as it does must have unusual merit."

Probably the most remarkable case of a government official brought to death's door and then rescued is that of Mr. J. Henderson Wilkinson, a prominent attorney in this city. In conversation with me, he said: "Ten years ago I was seized with an attack of Bright's disease. I was then at work in the treasury here. I know it was Bright's disease for several reasons. In early life I studied medicine for some little time. I know from my symptoms what my trouble was, but I was also in the hands of my physicians. How badly I became you can understand when I say that my hands became bloated and actually cracked open. My limbs and body would alternately swell and collapse. I could only creep across the floor. Finally my physician said to me: 'You are at death's door with Bright's disease. You may live a few weeks, but there is absolutely no hope for your recovery.' Although I was so very sick my friends did not desert me. Numbers of them called to express their sympathy. Col. Daniel A. Grosvenor, Judge Tarbel, Rev. Dr. Rankin, Col. Robert M. Douglas--more than a hundred prominent men--extended to me their sympathy. Some supposed for a moment I could ever recover. Upon the advice of the Rev. Dr. Rankin, now president of the Howard University, I began the use of a preparation of which I had but little knowledge. I began to improve at once. I continued its use, nothing else, and I state to you to-day that I owe my life solely to Warner's Safe Cure, which rescued me from the grave after the doctors had abandoned all hope. I am certain that if men and women generally fully realized the wonderful power of this great discovery, and used it faithfully, there would be less sickness, fewer deaths, longer life and more happiness than at present."

I was greatly impressed with Mr. Wilkinson's earnestness of manner. Certain it is, that his statement is true, and that he is to-day in perfect health. Senator Blackburn not only knows what wearing strains of political life are, but also of the power which the great discovery above mentioned has shown both in Washington and throughout the land. Indeed, he is a living example of its efficiency.

I saw Senator W. C. Squire, Mr. H. C. Clark, of the First Auditor's office, Captain J. G. Ball, and many others, and their statements amply confirmed all I had previously learned.

Mr. Abraham I. Hahn, well known in newspaper and army circles, said: "Personally, I have used Warner's Safe Cure, and consider it the best medicine in the world for the diseases it is recommended to cure. A member of my family has also been cured after several physicians had failed to do any good."

Mr. H. McNeil, a highly educated man, a graduate of a medical college, said: "I have frequently heard Mrs. Hahn mention Warner's Safe Cure and its highly beneficial effect."

Wherever I went I found the testimony the same. It was generally admitted that the strains of public life in Washington were wearing and shortening to the life, but it was universally conceded that for overcoming these tendencies for strengthening the vitality, toning the health and prolonging the life nothing had ever been known equal to the great remedy I have above described.
