The Man Without a Stomach

May exist as a museum fronk but most of us recognize the stomach as necessary to life and comfort. Most of us experience a little trouble from fall source occasionally, wrong action of recognize the stomach as necessary to the and counfort. Most of us experience a little trouble from fails source occasionally, wrong action of the stomach causing dyspepsia, etc., and often the trouble extends, involving the liver and bowels, where we find billoutnes and constitution. We find also that the bowels and admers that the sowels and sidneys that the sowellings and cancerous complaints. The Bardook Hood Bitters taken at the beginning or at any later stage, arrests the trouble, restores, the disordered organ to activity, there which cannot fajure even the most delicate constitution, and as a cure for Dyspepsia, Billoumess, Canstipation, End Blood, etc., succeeds in 79 chases out of 100.

THE WEEKLY INTELLIGENCER is a bright sparkling instructive family sound. It is original in every department clean in every into and suited as its intended of interest and improve every member of the family, whether in dir or country.

IT IS COMPLETED.

Member of the Next Legislature Has Been Chosen from the Gerrymander District of Wetzel and Tyler Counties.

NEW MARTINSVILLE, W. VA., August

9.-The convention for the delegate district of Wetzel and Tyler counties was held at this place Saturday. It was a large gathering of enthusiastic, harmonious and determined men. A. B.

monious and determined men. A. B. Moore, editor of the Wetzel Revublican, was made chairman, and Hon. Anthony Smith, of Tyler county, temporary secretary. In his speech Mr. Moore said that they were there for a purpose, not for the purpose, however, of breaking up in disorder as did a convention that preceded them in the same room a few weeks ago, but for the purpose of nominating a man who will be the first to ropresent the delegate district of Wetzel and Tyler counties. He referred to the gerrymander as an unjust, unscruptional set,—an act that had cost Democracy its life in this state, and had made more Republican votes than all the "boodle" and "negro colonization," which some misinformed Democrats the "bootle" and "negro colonization," which some misinformed Democrats have charged us with, have made. He had occasion to refer to "Windy" Wilson as the great "two" mathematician and issuer of fraudulent certificates of election. His speech was applauded throughout, and was a happy hit for the occasion.

the occasion.

The chair appointed the various com The chair appointed the various committees, and after they had reported nominations were called for. J. W. Mc-Intire, in his usual forcible language, placed M. W. Burgess, of Tyler county, in nomination, which was seconded by short speeches from O. W. O. Hardman, J. T. Rohrbough, P. B. Lowery and others. A motion was made to have the nominations close and make Burgess the nominee by acclamation, which met the pleasure of the convention. Everybody was joyful over the nomination,

the pleasure of the convention. Every-body was joyful over the nomination, and several speeches were made.

The nomination of Burgess is con-sidered a very strong one, and news from Pine Grove, this county, to-day stating that the Alliance, which held a convention Saturday, also nominated Burgess for their candidate for the same position, which makes almost doubly strong.

The Democrats will hold their convention here to-morrow and nominate a man whom Mr. Burgess will defeat. H. L. Smith, a tool for the South Penn Oil Company, is the only candidate announced, but it is quietly rumored that Frank Clark, of this town, will be a "dark horse" in the race. The Republicans will have no mercy on any candidate they name, and if his name is Clark, Smith, or anything else, it will be "Dennis" after November 8.

' HONEST GERMANS.

They Want a Democratic Victory Because They Want to Sell Us Their Goods.

Irish World.

Germany has an interest in the success of the free trade movement in this country, because, like England, it desires to get possession of the American market. Germany, however, does not practice John Bull'a hypocrisy when dealing with the free trade question. dealing with the free trade question. The German newspapers do not pretend that they are desirous of seeing the protective system in the United States overthrown because they are so friendly disposed toward us that they are grieved to see us hurting ourselves by pursuing a policy that prevents us from capturing "the markets of the world." That is the sort of language the English press indulges in when it undertakes to advise us to allow British cheap-made goods to compete in the cheap-made goods to compete in the American markets with the products of American labor. German newspapers are much more

German newspapers are much more frank. They make no disguise of the fact that they are anxious for the triumph of free trade principles because German trade would be benefited thereby. A good specimen of their frankness is furnished by an article that recently appeared in Kuhlow's German Trade Review, which is published in Borlin. In its issue of July 20 this German trade organ speaks in this manner of the outlook: of the outlook:

man trace organ speaks in this minner of the outlook:

"We can affirm with certainty, not only that the industry of Saxony will overcome the ill-effect of the McKinley bill, but that the prospect is not so gloomy as was expected. It is thought that the votes of the electors will shortly destroy McKinley's work in the immense trans-Atlantic union, will dispense with the password 'American for Americans," and, by giving a splendid victory to the Democratic party, will open is free path to our export trade. These are the hopes which have aroused so much interest throughout Saxony in the result of the next election for President of the United States. Articles ident of the United States. Articles which are cheap in price, but very largely consumed, cannot be produced so cheaply in the United States as in Germany, owing to the high prices of

wages."
This has about it the merit of piain speaking. There is no mincing matters. We are told that Germany is interested in the success of the free trade party in the success of the free trade party because if victorious at the polls it will legislate in the interest of German trade. Such are the expectations that are entertained of one of the great political parties that will poll many million votes next November. The German manufacturers, like the British manufacturers wish its success because manufacturers, wish its success because they hope to be able through such success to place their cheap-made articles in competition with American goods.

It needs not the gift of prophecy to forciall the result of such competition,

The German newspaper from which we have quoted tells its readers what the consequence will be. "Articlea," it says, "which are cheap in price but very largely consumed cannot be produced so cheaply in the United States duced so cheaply in the United States as in Germany, owing to the high prices of wages." There is the whole question of protection in a nutshell. It is a question of wages. Allow cheap German articles to come into our market and either the manufacturers of similar articles in this country must close their factories or wages must come down to the German standard. That is the choice that will have to be made if the free traders should win the day.

How They Stand.

How They Stand.

Republican Platform.

We believe that all we declare it to be a articles which can not fundamental principle be produced in the Unit of the Democratic party ted States, except luxuithat the federal governies, should be admitted ment has no constitutive of duty, and that Lonal power to impose on all imports coming and collect tariff duties, into competition with except for purposes of the products of Ameri-revenue only, can labor there should be levied duties equal to the difference between wages abroad and

FINANCE AND TRADE. The Features of the Money and Stock

Markets.
New York, August 30.—Money on call easy at 2 a?34 per cent, last loan 234 per cent, closed

a?3's per cent, last loan 23's per cent, closed offered at 23's per cent. Prime mercantile paper 485 per cent. Sterling exchange quiet and easier at \$4.86's at 873's. Sales 189.410 shares. The stock market was dull and featuriess today, the only exceptions being the activity in St. Paul and Reading, and a few moments here and there among the specialties. The pressure to sell Reading for either side of the account had ceased this morning, and a natural reaction followed. The buying was principally covering of shorts, and the movement in New England, which reached nearly 2 per cent, was attributed to this cause. The improving tendency was maintained till the end, and the market finally closed very dull, but firm at the top figures. Railroad doings more active. Sales \$1.17.00. Government and state bonds dull and steady.

Breadstuffs and Provisions.
CHICAGO, August 20.—Everything dealt in on the board of trade opened somewhat higher this morning, but the strength was not long lived. Wheat sickened at once, and as there was no quarantine to keep lower prices out of the other pits, the aliment soon became epidemic all over the floor, and values receded in pinion, and the closing prices were generally at or near the lowest of the day. The improved tone in wheat at the start was due chiefly to the cold, rainy weather in the northwest, which was said to be injuring the harvesting of grain still in the field and cut grain as well. The down turn was helped by the liberal receipts, the indications that choices was getting a firmer grip on Europe and the free seiling on long wheat.
Ont was week and lower.
Out steady and lower.

Oats steady and lower.
Hog products were lower on free selling.
Flour dull and easter.

Happy Hoosiers.

William Timmons, Postmaster of Idaville, Ind., writes: "Electric Bitters has done more for me than all other medicines combined, for that bad feeling arising from Kidney and Liver trouble." John Leslie, farmer and stockman, of same place, says: "Find Electric Bitters to be the best Kidney and Liver medicine, made me feel like a new man." J. W. Gardner, hardware merchant, same town, says: Electric Bitters is just the thing for a man who is all run down and don't care whether he lives or dies; he found new strength, good appetite and felt just like he had a new lease on life. Only 50 cents a bottle, at Logan Drug Only 50 cents a Co. s Drug Store. 50 cents a bottle, at Logan Drug

Co.'s Drug Store.

Cholina infantum has lost its terrors since the introduction of Chamberlain's Colic, Choier and Diarrhea Remedy. When that remedy is used and the treatment as directed with each bottle is followed, a cure is certain. Mrs. Fanny Lauerdale, of Rock, Pope county, Ill., says it cured her baby of cholera infantum, and she thinks saved its life. A. W. Walter, a prominent merchant at Waltersburg, Ill., says it cured his baby boy of cholera infantum after several other remedies had failed. The child was so low "that he seemed almost beyond the aid of human hands or reach of any medicine," but Chamberlain's Colic, Cholera and Diarrhoa Remedy cured him. 25 and 50 cent bottles for sale by druggists. bottles for sale by druggists.

Bucklen's Arnica Salve.
